³Email of corresponding author: email@example.com

1. Introduction

Briefly state the background, significance, and purpose of the research.

2. Objectives

Clearly define the aims or hypotheses of the study.

3. Methods

Describe the study design, materials, tools, procedures, and data analysis techniques used.

4. Results

Summarize the main findings with relevant data. Use tables or figures if necessary (caption must be clear and concise).

5. Discussion

Interpret the results in relation to objectives and compare them with previous studies.

6. Conclusion

Highlight the main conclusion, significance, and potential implications.

7. Keywords

Provide 3–5 keywords (separated by semicolons). e.g., One Health; Community health; Climate change; Nutrition

8. References

Use APA or Vancouver style (consistent throughout). Limit to 5–10 references.
