

Outdoor Recreation Management

Remote Learning Calendar - week 7

Name: _____

| <u>Progression</u> | <u>Topics</u> | <u>Practice</u> | <u>Resources</u> |
|-------------------------|-------------------|---|--|
| Week 7 (5/11 - 5/15) | A-Day week | | |
| Whole week | Knot Tying | <input type="checkbox"/> For this week I want you to choose 4 knots to learn how to tie. They really can be any 4 knots...but its better to chose ones that you might actually use. Use the attached website or other internet resources to learn and practice. You can use a short piece of rope, a shoe lace, draw string, just make sure the diameter is large enough to see the knot. <input type="checkbox"/> <input type="checkbox"/> Finally, please launch the website Flipgrid and show a video of yourself doing these things. Do 2 separate videos for two of the 4 knots you learned. <ol style="list-style-type: none"> 1. Tell us what your knot is called 2. What are common uses of the knot? 3. Show us how to tie the knot. <input type="checkbox"/> | See links and more information on Google Classroom. |
