

HOLD360 Suction Cup Mount Packaging Guidelines

Package Dimensions: Based on the provided framework, the package dimensions are assumed to be 643x507mm when unfolded.

Design Elements:

1. Front Panel:

- **Headline:** HOLD360 Suction Cup Mount - Securely Mount Your Camera or Phone Anywhere!
- **Sub-headline:** Capture Stunning Shots with Unmatched Stability and Versatility
- **Product Image:**
 - Include a high-quality image of the Suction Cup Mount, Camera Holder Attachment, and Phone Holder Attachment.
 - Show the product in use, highlighting its versatility and ease of use.
 - Ensure the image is well-lit and professionally photographed.
- **Branding:**
 - Prominently display the HOLD360 logo in the top left corner.
 - Use a clean and modern font that is easy to read.
 - Consider using a contrasting color scheme to make the logo stand out.

2. Back Panel:

- **Instructions:**

- Clean and dry the surface where you want to mount the suction cup.
- Attach the desired holder (camera or phone) to the suction cup mount.
- Place the suction cup on the surface and press firmly to engage the vacuum.
- Adjust the angle of the holder as needed.
- To remove, pull the release tab on the suction cup.
- **Features:**
 - Strong suction cup for secure mounting on various surfaces
 - Versatile holder for cameras and phones
 - Adjustable angle for optimal positioning
 - Compact and portable design
- **Package Contents:**
 - 1x Suction Cup Mount
 - 1x Camera Holder Attachment
 - 1x Phone Holder Attachment
- **Warning:**
 - Do not use on porous or uneven surfaces.
 - Not intended for use with heavy cameras or equipment.
- **Barcode Label Area:**
 - Designate a clear area for the barcode label.
 - Ensure the area is large enough to accommodate the barcode without obstructing other design elements.
 - Consider using a contrasting color for the background of the barcode area to ensure it is easily scannable.

3. Side Panel:

- **HOLD360 Logo**

4. Bottom Panel:

- **Barcode Label Area**
- **Country of Origin:** Made in China
