- Voted in Chelsy Johnson as Co-Chair
- Marissa Skinner as Representative for District Community Council
- What will our focus be this year?
 - Discussion on our bench line data, where we are compared to east side schools versus the entire district
 - Discussion about our math specialist and our reading specialist, potentially expanding the grades that they assist to more grades
 - Covid relief money that will end this next year, how are we going to make that less impactful when that is gone
 - Reading program maybe isn't the best use of our money
 - Academics and behavior go hand in hand, everyone has to be held to a higher standard. Behavior is not a major concern in this school at the times.
 - Classroom management, supporting the teachers.
 - PBIS team meets once a month, strengthen some things school wide as far as expectations. Give a specific order for the follow through.
 - Set the expectation: I want to work here, I want to be here, I want to stay here. This is not a place of contention. Keep the staff and keep them happy to work here and be invested because they are happy and feel valued. Create a culture that everyone wants to be a part of, but specifically the staff. We can't sink our own ship.
- Land trust budget this year? Around 70k- it's posted last year
- Soft money budgeting and discussing what down the line we can do about funding teachers
