

Ivan Lavrukhin

Oracle Developer

Making database solutions effective and optimized. My main expertise is Oracle software development, but I am also T-shaped in business analytics and testing. A lot of experience with Oracle PL/SQL, PL+, SQL, some relevant experience with Java, JSP, JavaScript.

12 YEARS OF EXPERIENCE

BillingPlatform, US, Denver (remote); Oracle Developer

3 YEARS NOVEMBER 2022 - PRESENT

- Developing tax engine integrations (Avalara, Billsoft, Onesource, Suretax, Vertex) via sync / async processing of requests for invoices and credits
- Developing e-invoicing workflow and monitoring dashboard
- Support and ongoing improvement of history log service
- Extensive interaction with UI / Core / QA teams and management to deliver high quality products to the customers
- Release deployment support and hotfixes

InnoTech, Russia, Moscow (remote); Oracle Software Engineer

2 YEARS OCTOBER 2020 - SEPTEMBER 2022

- Launched financial monitoring system in top-second bank of Russia, VTB
- Integrated 3 external systems and fulfilled missing data
- Optimized a process of monitoring, making it 40% faster

Sberbank, Russia, Omsk; Oracle Software Engineer

1.5 YEARS, MAY 2019 - OCTOBER 2020

- Made a debtor-monitoring report which helped to reduce monitoring department state from 300 to 10 people and 10 times decrease the minimum loan-to-check
- Optimized high-load report from 1 hr to 10 min
- Investigated a core bug in IDE compiler and proposed 2 possible solutions to fix it

PIRS, Russia, Omsk; Fullstack Software Engineer

5.5 YEARS, SEPTEMBER 2013 - APRIL 2019

- Made 15+ reports and 3 different modules of information system for HR, Chemical Laboratory, Project management, Financial Department
- Optimized front-system calculation from 10 hrs to 5 hrs
- Developed database layer of standalone application for Transneft PJSC
- Launched information system CIS PIRS in 2 other project companies

EDUCATION

Omsk State University, Russia, Omsk; Theoretical and Applied physics

Critical effects in magnetic systems, Aging phenomena

OCTOBER 2014 - PRESENT
