

U.S. Express Institute of Supply Chain and Logistics Management

at Ooltewah High School

Pathway Options	Description
Supply Chain Management	The U.S. Xpress Institute of Supply Chain and Logistics Management at Ooltewah High School is a four-year program that equips students with the technical and employability skills required for successful entry into the supply chain and logistics industry. Students will: Engage in project-based learning opportunities, industry tours, and guest speaker series that integrate standards-based education and real-world applications. Have access to industry and postsecondary experts as they explore core business concepts around occupational safety, distribution and logistics, warehousing, government regulations, and sustainability. Have the opportunity to graduate high school with a technical certificate from Chattanooga State and five dual enrollment courses.
