

Directions:

You will define S.O.A.R. in your own words (minimum of four complete sentences).

Then, you will answer the following questions:

- 1) Why is S.O.A.R. fundamental to our school?
- 2) What do we need to do to achieve S.O.A.R.?
- 3) How can we represent S.O.A.R. in the Biomedical Engineering classroom?
(minimum 2 complete sentences each).

Once

complete, you will have a MINIMUM of 10 complete sentences.

Keep in mind: All team members must contribute and agree to the sentences that are written. If you don't agree, talk amongst yourselves until you do.

The S in SOAR stands for figuring out what you want to pursue in the future. The O in SOAR stands for working hard and being able to meet your goal and also help people along the way. The A in S.O.A.R means to make progress and become proficient not just in learning but in other skills that will help you be a positive member of your school and environment. The R in S.O.A.R Gives a thought to how your actions can affect your work.

S.O.A.R is fundamental to our school because it can show us how to figure out our future career field. It also encourages us to work hard to achieve our goals. Through SOAR we're also able to learn more skills that will help us progress. You need to be organized and be focused on your goal in order to achieve SOAR. Know what you want to do in the future. Be willing to learn other things aside from school work. We can represent SOAR in this class by seeking understanding in everything we studied. By giving all our effort to what we are learning in this class.
