Day In The Life

Make it as vivid as possible. What does he FEEL like as he goes through each part of his day? Add images in the vision board style. Use the first person and present tense, i.e. "I walk through the streets..."

A genius. I wake up at 5 am excited to conquer, take a cold shower, pray, and begin working. Check the bank account, money is coming in after crushing a project for one of my clients. Review the client's page, brainstorm some tweaks, and get to work. After finishing the first G work session I eat breakfast and go to school. I Walk in the streets LIKE A G, looking at that little prospect who said he doesn't need my services and laughing. A G work session in the school pause, pray. return to the house, train, shower, and perform another G work session. Finish it, review my day, where I made a mistake, how can I do something better..., and pray. spend some valuable time with family. Then go to sleep knowing that I crushed it.
