HOW TO DOWNLOAD

We cannot offer technical help due to everyone having different operating systems and browsers. Most mobile devices such as phones and ipads, do not allow for downloading through a link.

What Happens After Making a Purchase?

After you make your purchase, you will either receive a confirmation page with your downloadable link, or an email with your downloadable link too.

You can then download your purchase easily.

For files that are accessible and sent using a PDF format,

Most computers have pre-installed Adobe Reader on them, but if your particular laptop, Desktop PC, or mobile device does not have a PDF reader of some sort on it, you'll need one to view the items. Adobe Reader is the most common one and it's free.

If you can't find the file once it's downloaded, try looking in Downloads under My Computer or search the title of the file on your computer for where it could be located
