

Update from Google: Changes to Gmail Interface

Starting on February 22, 2022, Google is introducing a new user interface for Gmail. The main feature of the new interface is the addition of a navigation bar that allows you to move between applications like Google Chat and Meet without switching tabs or opening a new window. You can opt-in to use the new interface until it becomes the default for everyone in Summer 2022. [Learn more about the Gmail interface changes and how to opt-in.](#)

Attend Peer Learning Tool RFP Vendor Demos

Faculty, staff, and students are invited to watch vendor demonstrations and provide feedback on peer learning tools that, if selected, would be available through Canvas. Peer learning tools enable instructors and students to engage in effective peer learning experiences (e.g., peer review, group member evaluation, quality of feedback rating). [Register to attend](#) and [learn more about the peer learning tool request-for-proposals process.](#)
