

Ithaca EVENTS page explained.

Due to circumstances beyond the control of the Ithaca School District, we will no longer display the Google “GRID” calendar view on our website. All events are (and have been) accessible on our EVENTS page, both on our website and in our app.

Please use the following link to access our EVENTS page: <https://www.ithaca.k12.wi.us/events>

You can still SEE an actual calendar on both the website and the app.

Ithaca Website:

On the website it is always located on the Right-hand side of the EVENTS page. Simply click on a date you want to view, and you will see JUST that dates events, no scrolling through an entire month.

Ithaca APP:

On the app, simply go to the EVENTS tab and click the little CALENDAR icon (see below).

Once there, click on the date that interests you (see below).

And now, the app will display JUST the date of interest, no scrolling through an entire months' worth of events (see below).
