

Portland has an incredibly unique and exciting election coming up this fall: every seat is up for election and we'll also be using ranked-choice voting. This is an unprecedented opportunity to make sure our future government takes climate considerations seriously. And we want your input!

Please share your thoughts (below, or use the QR code to fill out an online form) about how climate and sustainability impact you and your community. 350PDX<sup>1</sup> is gathering this information to guide the formation of a climate platform we're creating in collaboration with other groups.

Thank you!

Please also invite your friends and networks to share their answers, and/or have conversations with your circles (friends, neighbors, colleagues in Portland) and submit the answers to us.

1. What Portland district do you live in (1–4, if you're not sure, list your neighborhood)?
2. Race/Ethnicity

- American Indian or Alaska Native
- Asian
- Black or African American
- Latino/a/e/x or Hispanic
- Middle Eastern/North African
- Native Hawaiian or Pacific Islander
- White
- I prefer not to answer
- Other:

3. Take a moment to think about your neighborhood. What impacts have you noticed related to the climate or environment?
4. Keep thinking about your neighborhood. Imagine what it would look like if it were resilient to climate impacts. What would that look like to you?
5. How might your neighborhood be different socially, ecologically, and economically if it were more climate resilient?
6. What could Portland's City Council do to make your neighborhood more climate resilient?
