Course Overview
<p>We will be using Corrective Reading, a complete reading program that uses the Direct Instruction method to help students master essential decoding and comprehension skills. It focuses on explicit and systematic instruction, breaking down reading skills into manageable steps and providing ample practice and feedback. It follows a specific sequence of lessons that gradually introduce and reinforce different aspects of reading, such as phonemic awareness, phonics, vocabulary, comprehension, and fluency. The program includes carefully designed materials like textbooks, workbooks, and other resources to support student learning.</p>
