Elixir AAI Engagement Call II.

Dears,

We would like to invite you for the second in the series: **Engagement call with Passport users II.**

Target audience:

This call is open to anybody from the community who is interested in the topic:

- human data communities using GA4GH standards
- ELIXIR AAI services that rely (or want to rely) on GA4GH Passports

Zoom link: https://cesnet.zoom.us/j/98232331593

Date: **26th of January 2022, 10:00-11:00 CET**

Description:

In the second call we will introduce more detailed use cases and follow up of discussion from the 1st engagement call: ELIXIR community and EGA needs in relevance with proposed changes by NIH/dbGaP.

Agenda:

CET	Topic
10.00	Welcome (Mikael Linden, ELIXIR AAI task co-leader)
10.05	Juha Törnroos (ELIXIR-FI, service development teamlead): CSC Sensitive Data Desktop (slides)
10.25	Janne Lauros (ELIXIR-FI, AAI developer): AAI and Passport integration for CSC Sensitive Data Desktop
10.45	Discussion
10.50	GA4GH Passport/AAI update (Martin Kuba, GA4GH Passport co-lead)
11.00	Closing

About Elixir AAI Engagement Calls

ELIXIR AAI Task will organize a series of regular calls with communities where we will discuss together new AAI needs, requirements and ideas collected from the community, as well as share success stories with other infrastructures. Topics will be selected based on

needs and interests and also in regard to a future migration to LS AAI. Please refer to [ELIXIR AAI Tess page](#) for information.

In December 2021 we in the ELIXIR AAI Task organized the first Community Engagement call. Topics were future changes in the GA4GH AAI OpenID Connect Profile and GA4GH Passport specifications. We went through the history of Passports, the content of Passport ver 1.0 and the proposed ver 1.2, and their reasoning. There was a very nice discussion and based on the gathered feedback we prepared a follow-up for the next call.

Regards,

AAI team
