

Building Support Plan

ABCS+ K-3 Reading

February 16, 2018

List the School-wide bullets under essentials 1 & 3 as next steps:

-
-
-

What evidence will you look for that the building has the practices in place? What might you ask the principal, what might you ask the teachers?

Based on your conversations and data collection, where are your principals in their understanding of the essential practices chosen for next steps?

Given what you know of the principals, what supports might they need?

What resources might you be able to share with them? What knowledge and expertise exist in the building (check what training the teachers have had)?

What supports might you need from the ISD in this work?
