IMPORTANT #1:

This launch will be on both JVZoo and Warrior Plus. I'll be creating two different follow-up series, one of JVzoo customers and one for Warrior Plus customers pushing people back into the funnel, membership site and other checklist volumes in the first 3 emails. This way affiliates sending traffic from either network will continue to be cooked in for the upsells and get paid across the board for your efforts.

JVZOO Affiliates: We now pay delayed commission every Monday for all sales which have passed our 14 day refund period. We can payout via Stripe, Veem, Payoneer, Direct Bank Transfer, Bitcoin or Western Union. Everything listed here we have used in the past week to pay our affiliates without issue. We are also willing to work with companies if viable.

WARRIOR PLUS Affiliates: All commission will be paid directly into your Warrior Plus wallet. From here you can choose to receive your commission directly to Paypal or transfer directly to your bank account using Stripe or Veem. In this case, Warrior Plus holds all your commission and have a fully automated system in place.

If you use PLR in your business in any way, you're going to love this.

Hey

I've got some insider information on Kevin Fahey's IM Checklists and this is pretty darn awesome.

Not only do you get 18 checklists in 5 different formats with private label rights.

You also get a complete video training course, some additional bonuses and access to a private mastermind group.

Here's a few things you can do with these checklists.

#1 - Educate Yourself - These checklists were originally created for my students to follow giving them a solid, proven step by step process to complete any task. Each paid between \$1,000 and \$5,000 to access. With that said, you can ensure the quality is high.

#2 - Create Quality Blogs Posts - We're already in the process of creating blog posts using specific checklists. By adding a few images and some extra SEO friendly text, we have blog posts ready to go minutes. From here's we'll be running paid traffic to blog posts, targeting new interests (cold audience), building trust and then following up with the lead and sale.

#3 - Create Lead Magnets - You have got the right to give these checklists away

individually as lead magnets which is precisely what we do with massive success. Take the video marketing checklist, where we are using this to build our list and follow up marketing our own video related products and others.

#4 - Rebrand & Resell - Easily rebrand the checklists, include links to recommended products that services where you earn commission and build a buyers list. Win in three different ways.

#5 - Done For You Product Idea - Each checklist series took me weeks to create ensuring every part is covered on that particular topic in great detail. The hardest part about creating a product is "the idea" and then "the complete outline". All the work is done for you.
