### Question of: the mistreatment of prisoners in the United States

Submitted by: Qatar

**General assembly:** noting with deep concern that humans are affected because of race, nationality etc.

Alarmed at if the humans are affected because of race, nationality, there will be no more humans on earth.

**referencing** to the study conducted by Qatar, proving that people are dying because of their race or nationality.

- 1) **Realizing** that instead of stopping humans, we can help them achieve what they want.
- 2) **Raise awareness** to people who need your help.
- 3) **Realizing that** if we help everyone as much as possible everyone can make the world a friendly and better place.
- 4) **Taking into account** that if we help everyone as much as possible by 2025 (5 years), the world will be a better place for EVERYONE.
- 5) **Understanding that** 2003 was the year when most people died because of their race, nationality, language, religion, etc.
- 6) **Calls upon...**
  - being kind to others
  - letting humans do what they want to do (as long as it is legal)
- 7) **Request the government to...**
  - make a law that says "Any human that is affected by someone in race, nationality will be sentenced to jail."
