

## Local Leads: Contacts Guide (AHVTT)

Last updated: Nov 13, 2024

**Purpose:** This document provides the most up-to-date contact details for local Advance to Zero (AtoZ) leads for each key area the initiative operates in. Your local lead can provide context for AtoZ efforts in your area and direct you to the most relevant resources. Also included are each state's plans for transitioning to the Australian Homelessness Vulnerability Triage Tool (AHVTT) and the best contact for AHVTT training.

For general or national AtoZ enquiries, please contact [info@aaeh.org.au](mailto:info@aaeh.org.au).
