# GROW OR DIE

GROWING FOOD  
SECURE FUTURES  
NEIGHBORHOOD GROW PLAN

## ❖ CONTAINER GARDENING KITS <3

~  
Starting later  
so first... a prayer

- ❖ May you lovelies all flourish & fruit for us. We understand if you cannot. We will tend & love & believe that you will live your best life <3

- ~
- ❖ We are in zone 6b/7a so we may have a chance just yet.
  - ❖ We are companion planting so we have our best shot
  - ❖ Companion plants nurture each other & grow each other up!

~  
WHO WE BE

~  
CONTAINER DESIGN

- ❖ These bags can stand alone or be placed in milk crates old laundry baskets with lid to collect water
- ❖ There is drainage in bags so note a way to manage leaks

- ~
- ❖ CONDITIONS  
Since seedlings are transplanted and we're in drought
  - ❖ Please place in sunny spot & water so soil moistens at root zone
  - ❖ ¾ to 1 gallon of water for 0-12" container

~  
LOOKING TO FUTURES

- ❖ HARVEST  
Reap and share what we sow. Leaves for tea. Blossoms for fritters.
- ❖ SEED SAVING  
Learn how to save seeds for next year!
- ❖ PRESERVATION  
Cucumbers might be pickled! Tomatoes canned!

We'll be in touch in a few weeks with more on all this
