

Cell Phone and Electronic Device Policy

Senior High School - Beals

No use of cell phones or other electronic devices during class time

Cell phones (and other electronic devices) are an amazing tool of communication and are an important tool in many aspects of our lives. However, we have reached a point in the classroom where cell phones have become a distraction that is proving detrimental to your education, your relationships with each other and with me, your teacher.

This is school; the place where we go to learn and grow. The distraction caused by the constant use of your cell phone during class does not benefit your learning in any way.

The amazing taxpayers of Billings, MT have purchased tools for you to use in class so you don't have to deal with the distraction of your cell phone:

- Chromebooks
- Calculators

Cell phones should be in your bag/backpack or pocket, not sitting on your desk.

Failure to follow the policy will result in a visit to your Assistant Principal and/or confiscation of device.

Note: Exceptions may be made at the teacher's discretion.
