Jenkins Enhancement Proposal Office Hours Agenda

https://github.com/jenkinsci/jep

This docs:
https://docs.google.com/document/d/1gWyaJ189n1fKkJS33xdK80PTY1jp11Tg3tWsQtFdyck/edit#

Meetings held every Thursday on YouTube Hangouts On Air.

GMT - 5pm

Currently, this translates to:
BST - 6pm
US Eastern - 1pm
US Pacific - 10am

The aim is to provide an opportunity for the community to share ideas, questions, status, and experiences.

Anyone may propose topics by proposing edits to this doc.

2018-11-29

Video: http://youtu.be/rr9-ZukIu8k

People:
- Liam Newman
- Zhao Xiaojie(Rick)

Agenda:
- Per request from Rick, chose a comfortable office time for Asia Time zone this time
  - NOTE: we should consider rotating the office hour times on some consistent schedule going forward. (for example, 0:00 UTC, 8:00 UTC, 16:00 UTC, then repeat).
- JEP-216
  - Reviewed from top to bottom
  - Discussed each section and what should go in it
  - Tweaked formatting and content
- Publishing JEP Index (and maybe JEPs) to jenkins.io
  - JEPs are hard to search/browse currently
  - No topic/tag grouping
  - Publishing to Jenkins.io would make these more visible
  - Rick to file JIRA in WEBSITE area for this task
  -

2018-08-16

Video: https://youtu.be/J01iwJBvltQ

People:
- Liam Newman
- Oleg Nenashev
- Jesse Glick
- Daniel Beck

Agenda:
- Introductions
- Nature of "Mission and Goal" JEPs and relation to SIGs
  - Jesse: What is role of these JEPs? Should we keep doing these in light of SIGs?

- - - JEP-300, JEP-400, JEP-203, JEP-201
  - Oleg: Declaration of intent? Should not be "Standards"
  - Jesse: Cloud Native SIG?
    - https://jenkins.io/blog/2018/07/30/introducing-cloud-native-sig/
    - https://github.com/jenkinsci/jep/pull/136
  - Liam: JEP is a scoped set of work, SIG is "never ending story"
  - Oleg: JEP for "Pluggable Storage" then? Looks reasonable to define the roadmap towards the end goal
    - Define Priorities
    - Define list of areas to address
  - Oleg: Perhaps"Discussions-To: ${SIG_mailing_list}" + default assignee in JEP-9 do the job even now
  - Oleg: SIGs decide separatetly on JEP decision process?
  - Liam: That would lead to chaos and confusions
  - Jesse: Yes, but the original question remains
  - Action Items:
    - Informational JEP for Pluggable Storage
    - Convert JEP-400/300/203 to Informational JEP - provide feedback to sponsors
    - Instead of "Mission and Goals" type using "Informational" going forward
- JEP-206 status?
  - Jesse: Can we finalize this? The code is merged and released.
  - Liam: Sure, you're the sponsor.

Video: http://youtu.be/ZvIKI3s6bfU (view later)

People:
- Liam Newman
- Oleg Nenashev
- Stefano Canepa

Agenda:
- Introductions
- Updating JEP format
  - Discussions-To repurposing: https://github.com/jenkinsci/jep/pull/162
  - Adding "Rollout plan" to the JEP requirements
  - Adding SIGs as a field to the summary table
  - (Future) SIGs as BDFL-Delegate

- \<Review process sync-up\>
    - Comment blocks https://github.com/jenkinsci/jep/pull/160 => FIXED
    - We'll try this for now
- (Liam) Create JEP Process FAQ (informational JEP?)
-

Action items:
- Oleg to start a discussion about requiring "Rollout plan" for breaking changes
- Oleg to start the discussion about referencing SIGs in JEPs

Notes from previous meetings:

2018-07-26

Video: https://youtu.be/BTISNBc8C_Y
People:
- Liam Newman
- Tracy Miranda
- Sam Van Oort
- Mark Waite
- Kohsuke Kawaguchi

Agenda:
- Introductions
- Status of current JEPs
- (Liam) Adding new github permission groups
- (Sam) Logistical/Process Questions
    - What content goes where?
        - When JEP, JIRA, PR, email?
            - JEP = Git repo branch HEAD - the current/final state
            - JEP = When discussion has crossed multiple channels
            - JEP = Differing discussions
            - JEP = synthesis
            - (KK) PR should not include design discussion -> JEP
            - (Sam) What happens if someone comes in later with questions
                - Pure question - email list
                - Opinion - propose PR with changes and disucssion around PR
    - BDFL Delegate selection
        - Add BDFL Delegate proposing - Can be proposed at draft time still need
        - BDFL Delegate Criteria
            - Not just an expert in Area

- - - More than just Reviewer -
    - Consistency and Visibility in Area
    - JEP-207 - Jesse is an expert, Carlos is the better BDFL Delegate
    - BDLF Delegate - Lieutenant Sponsor, broader view,
    - BDLF Delegate List and sponsors - Create Informational JEP (Liam)
  -
- (Mark) Optional Automatic Code Formatting JEPs
  - Conversations Launched
  - JEP Creation started
  - If you don't have a better place, it goes in Specification
  - When a new person finishes reading a JEP, they should be ready to participate/contribute. Know where to go for usage instructions.
  - Abstract can include
  - JEP is here to help - not get your way
  - Common format for readability - not for edict
