

Chromatic Field Manual

How to use fields

Press the button for the field you want, buttons are shown in the battle chat in the screenshot above. Use the format National Dex Fields or one of its variants

To apply Seed Effects, use the item Prism Scale

Seed effects apply on swap-in. The seed is consumed.

What are Fields?

Imagine if the place you battled actually impacted the battle itself, giving a boost to the type(s) that the location is based around. Field Effects take this concept and expand on it, allowing for more creative and unique strategies alongside empowering the leaders that use them efficiently. Set fields by clicking a button in the battle chat.

/dt [field],omnifield ex /dt rainbow field,omnifieldgen9

For custom games

use /gym [first part of field name] to set it Ex: "/gym haunted"

There are no field transitions

This was done for the sake of competitive balance and ease of use.

Fable (Normal, Dragon)

"Let me tell you a story.."

✓ Prism Scale: Apply Heal Block and give Stakeout to both sides.

Unique

- Unyielding Frenzy: If a Pokémon would be confused, they instead gain the Torment effect
- Final Boss: The last unfainted Pokémon receives Healing Wish upon entry

Ability

- Frisk torments the opponent and the user on entry
- Reckless, Mold Breaker, Hustle, Berserk, and Anger Point cause this Pokémon's offensive stats to be multiplied by 1.5, apply Taunt (self), and grant Truant
- Pokémon with Queenly Majesty deal x1.5 damage
- Rivalry guarantees the damage increase regardless of gender
- Truant instead causes the user to be permanently tormented
- Gluttony causes all contact moves used to have a 1/3 chance to consume the target's item, restoring 1/4th of the user's HP
- Healer restores 25% of user's maximum HP, rounded down, when it switches out

Move

- Outrage and Thrash ignore the abilities of opposing pokemon and are non-contact moves
- Relic Song's Transformation effect is used upon entry
- Noble Roar causes the user to switch out
- Dragon Claw has 90 base power and boosts Critical Hit Ratio by +1
- Hyper Beam lowers Special Attack by 2 instead of recharging
- Dragon Rage instead grants the user +1 Speed, Focus Energy, and torments the user
- Wish additionally cures status conditions
- Rage Gains +20 BP for each time the user is hit, up to a maximum of 160 BP
- Dragon Tail now causes Pokémon switching in from its effect to gain the Torment status

Basic Effects

- Nature Power becomes Noble Roar
- Secret Power uses the animation of Draco Meteor and may clear enemy stat boosts
- Camouflage and Mimicry changes the user's type to [Normal, Dragon] at random

Glitch Field (All)

"1n!taliz3 .b/////attl3"

✓ Prism Scale: Makes user ??? type

Unique

- The Physical/Special move split is undone
- Special Attacks, for both the attacker and defender, calculate off of the higher stat between Special Attack and Special Defense
- Special Attack buffs and Special Defense buffs also buff the other stat
- Fairy type attacks become Normal type
- Dragon always deals neutral damage
- Bug now hits Poison types Super-Effectively
- Ice now hits Fire types neutrally
- Ghost now cannot hit Psychic types
- Poison now hits Bug types super-effectively
- Steel types are resistant to Ghost and Dark
- Critical hit rate increases by one stage if an attacker is faster than its target
- Assault Vest now works like Choice Specs for Special Defense

Move

- Moves with a recharge turn do not need to recharge if the opponent is KO'd with it.
- The moves Roar and Whirlwind fail.
- Rest heals the user when called by Sleep Talk and resets the sleep counter to 2 turns
- Rage locks the user into the move indefinitely
- Blizzard is set to 90 accuracy
- Explosion and Selfdestruct reduce targets' defense by half during damage calculation
- Metronome will never choose a move with less than 70 base power

Basic Effects

- Nature Power becomes Metronome
- Secret Power uses the animation of Metronome and may use metrenome
- Camouflage and Mimicry causes the user to become the ??? type
