This will provide time for CCSU to collect applications until they can find the best permanent candidate for the position.

She highlighted students entering the workforce have learned marketable skills attending the regional technical centers. Sarah and Natalie went over the hiring updates. Sarah spoke on the CCSU Cell Phone Procedure. This process will be shared with families soon for the upcoming school year.

A Facilities Report for Summer 2025 was included in the packet. Tommy Bricco, CCSU Director of Facilities, gave an introduction to the Board. Tommy gave a progress update on the current capital improvement project; upgrading heating valves and thermostats. The major benefits of this upgrade will be that building temperatures can be managed remotely via an app, better management of temperature building-wide, and real-time alerts if HVAC issues arise. This upgrade will lead to greater efficiency and cost-savings. Tommy answered several questions on the details of this new system.

Tommy then gave a review of the Annual IRC (Inspection, Repair and Cleaning) Compliance statement he completed that is mandated by the state. This is an effort to help prevent lead poisoning by inspecting the school building's interior and exterior. Any areas identified for remediation need to be taken care of within 30 days. Tommy identified a few compromised areas and contractors are actively working now on remediation.

The elevator panel repair work is done and the elevator is working.

- **Updates on Hiring/Open Positions**

The open position for 4th Grade Teacher will not be filled this year. There will be one 3rd grade class and one 4th grade class. The Middle School Special Educator position is still vacant.
