

Support of Lake Washington School District Building Excellence Capital Levy

Whereas the Democratic Party of the United States has a vital and long-held commitment to democracy upheld through educated, engaged, and inclusive citizenry; and

Whereas the 48th Legislative Democrats fully supports those values and the continuance of a strong public education system as a necessary foundation for a thriving democracy; and

Whereas Lake Washington School District has grown steadily for the last decade at approximately 600 students per year and this trend is anticipated by Kirkland and Redmond City Planning departments and the school district itself; and

Whereas the Lake Washington School District is now among the top five most populous school districts in the United States, and it is anticipated that over 3,700 students will be taught in portable buildings due to excessive enrollment; and

Whereas citizens who support a strong public education system understand adequate facilities are necessary for the service and safety of a growing student population through funding of land purchase and school construction;

Therefore Be It Resolved that we, the 48th Legislative Democrats, actively and sincerely support the Lake Washington School District Building Excellence Capital Levy of November 2022, and

Therefore Be It Finally Resolved the 48th Legislative Democrats publicly encourage all eligible voters in the Lake Washington School District to join in meeting the needs of a diverse and inclusive student body as they prepare for a life as educated and engaged citizens.

Margit Moore

LD 48th Democrats, Diversity Chair

Approved and adopted (unanimously?) at the LD 48th General Membership meeting,
