

Additional information for the Hanover, Indiana BFC build

Haven Church plans to assist in building this church with two (possibly 3) alternative weeks.

The primary "Haven" build week will be Sunday May 21 (early morning departure from EC) returning late Friday or Saturday depending on the group consensus. This timeframe is considered "Week A" which consists of wall framing and setting of these walls. We need to arrive in Hanover no later than 5 pm on Sunday for a required evening meeting regarding OSHA and tool usage training. Construction starts Monday. Marty Degenhardt has offered to be our team leader. Thanks Marty!

An alternative build week for volunteers will be "Week B", from Sunday, May 28, to Saturday, June 3. Jacob's Well church has graciously volunteered their assistance in transportation and lodging for Haven volunteers. This week volunteers will work with the installation of trusses. If this week interests you, please let us know and we will help you get in touch with Jacobs Well.

Another option and working with Jacob's Well volunteers is the week July 2-8, 2023. Again, if this week interests you, please let us know and we will help you get in touch with Jacobs Well.

Cost/person: Approximately \$750 total which includes the following:

Transportation: Vans or vehicles. Working on it
