14.3. File Format	61
14.4. File Transmission	61

Revision History

Revision Number	Revision Date	Name	Section	Summary of Changes
V17.0	7/1/2025	ODS Extracts	2.1	Added new Local Educational Agency Program (LEAP) extract.
V17.0	7/1/2025	Migrant Eligible Program Students	14	Added Section 14: Migrant Eligible Program Students Extract.
V16.1	3/1/2025	Various	Various	Added clarifying language to all extracts with caret delimited format to note no end cap delimiter.
V16.1	3/1/2025	ODS Extracts	2.1	Updated selection criteria for SWDS to include new filter parameter for Non-Participating SWDS Status Effective Date Range
V16.1	3/1/2025	Cumulative Enrollment (CENR) Extract	3.2	Added the following five new fields to the end of the CENR file for LTEL purposes: #44 – English Language Acquisition Status Start Date #45 – Provisional LTEL Start Date #46 - Initial US school enrollment Date K-12 #47 - Earliest SENR Enrollment Start Date #48 - Earliest EL Status Start Date
V16.1	3/1/2025	SSID Extract	4.1 4.2	Added new Search By selection criteria by Date Range by SENR Post Date. Added new field for Date SENR record posted to LEA.
V16.1	3/1/2025	Direct Certification Extract Record Layout	8.2	Added notes to include E155 and E156 exits if it's the most recent enrollment for an LEA.
V16.0	7/1/2024	Data Discrepancy Extract	13	Added Section 13: Data Discrepancy Extract

Revision Number	Revision Date	Name	Section	Summary of Changes
V16.0	7/1/2024	SSID Match Results	12.2	Added SWD Indicator and Initial US School of Enrollment in the Results File.
V15.2	3/1/2024	ODS Extracts	2.1	Updated selection criteria for SWDS, MEET, PLAN, and SERV to include multi-select filter for Special Education Status.
V15.2	3/1/2024	Cumulative Enrollment Extract	3.2	Updated business rules for Socio-economically Disadvantaged Students with Disabilities and Transitional Kindergarten.
V15.2	3/1/2024	SSID Extract	4.1 4.2	Renamed filter option for Date Range SSID Created. Modified business rules for SWD indicator.
V15.2	3/1/2024	District of Special Education Accountability Extract	10	Removed extra row for Informational DSEA extract
V15.1	9/1/2023	ODS Extracts	2.1	Removed Student Special Education Program (SPED) and Student Services (SSRV).
V15.1	9/1/2023	Cumulative Enrollment Extract	3.2	Updated the number of fields to 1-35 for SENR layout to account for new Graduation Exemption Indicator field. Renumbered the fields after 1-35.
V15.1	9/1/2023	SSID Extract	4.1	SSID Extract – update selection criteria and removed Active criteria and replaced with Date Range by SSID Date Created. SSID Extract – Student with Disabilities (SWD) Indicator – updated business rules.
V15.1	9/1/2023	Direction Certification Extract	8.1	Added E156 (GD12ContinuedEd) exit reason code to logic.

Revision Number	Revision Date	Name	Section	Summary of Changes
V15.0	7/1/2023	ODS Extracts	2 2.1 2.2	<p>Added note that any non-SINF ODS extract demographic information comes from the most recent SINP record for SSID.</p> <p>Added Students with Disabilities (SWDS), Special Education Meetings (MEET), Special Education Plans (PLAN), and Special Education Services (SERV).</p> <p>Updated SELA ODS Extract selection criteria to include Record History filter (All vs Most Recent) to Active and Data Range filters.</p>
V15.0	7/1/2023	SSID Extract	4.1 4.2	<p>SSID Extract – added selection criteria (Active, Range).</p> <p>SSID Extract File Format – updated SWDS Indicator business rule, added new Student Initial US School Enrollment Date K-12 element.</p>
V15.0	7/1/2023	SPED Discrepancy Extract	9	Removed SPED Discrepancy Extract.
V15.0	7/1/2023	District of Special Education Accountability Extract	10	Updated based on SPED Redesign data structures.
V14.2	3/1/2023	SSID Match Results	12	<p>Updated fields lengths to match as build.</p> <ul style="list-style-type: none"> • Result_MatchPercentageScore (from 3 to 5) • Result_SELA_ELASCode (from 1 to 4)

Revision Number	Revision Date	Name	Section	Summary of Changes
V14.1	11/1/2022	SSID Match Results	12	<p>Added three new results fields/columns to the end of the results file:</p> <ul style="list-style-type: none"> • Result_SENR_GradeLevel • Result_SINF_BirthCity • Result_SINF_BirthState <p>Moved the following results fields/columns nearer to the submitted student data:</p> <ul style="list-style-type: none"> • Result_SENR_SSID • Result_SENR_SSIDCreateDate • Result_MatchCategory • Result_MatchPercentageScore
V14.0	7/1/2022	Candidate List Extract	5	Added note that Candidate List Extract removed in mid-April 2022 and replaced with SSID Match Results Extract.
		SSID Match Results	12	Added section for new SSID Match Results Extract.
V13.2	4/18/2022	Rejected Records Extract	7	Added note that Rejected Records removed in mid-April and replaced with Submission Error Extract.
		Submission Error Extract	11	Added section/extract for Submission Error Extract.
V13.2	4/18/2022	SSID Extract	4	<p>Updated filtering by date range (enrollment start and exit dates) only.</p> <p>Updated businesses rules for any SINF related data elements to be based on most recent SINF that overlaps the SENR.</p>
V13.1	10/6/2021	Cumulative Enrollment Extract	3.1	Added Transitional Kindergarten and Gifted and Talented to extract to match CALPADS production.
V13.0	7/1/2021	SSID Extract	4	Added Earliest CALPADS School Enrollment Date K-12.

Revision Number	Revision Date	Name	Section	Summary of Changes
V13.0	7/1/2021	District of Special Education Accountability	10	Updated District of Special Education Accountability Extract to include Charter Schools. Added Informational District of Special Education Accountability Extract.
V12.5	4/1/2021	Work-Based Learning	2.1	Added Work-Based Learning (WBLR) to ODS Extracts and Rejected Records.
V12.5	4/1/2021	Cumulative Enrollment Extract	3.1	Added student group data to extract.
V12.4	3/1/2021	No Revisions for V12.4	N/A	N/A
V12.3	2/1/2021	Post-Secondary Status	2.1	Updated PSTS ODS Extract selection to add security notes.
V12.2	11/1/2020	No Revisions for V12.2	N/A	N/A
V12.1	9/15/2020	Special Education	2.1	Updated Special Education (SPED) ODS Extract selection criteria to include note regarding extract entire history of SPED records regardless of Reporting LEA.
V12.0	7/1/2020	Student Incident Student Incident Result Student Offense	2, 7	Replaced Student Discipline (SDIS) with Student Incident (SINC), Student Incident Result (SIRS), and Student Offense (SOFF) for ODS Extracts and Rejected Records. Added Student Test Settings (STSE) and Work-Based Learning (WBLR) to ODS Extracts and Rejected Records.
V12.0	7/1/2020	SSID Extract	4	Added Student with Disabilities Indicator.
V12.0	7/1/2020	District of Special Education Accountability	10	Added District of Special Education Accountability Extract.

Chapter 1. Introduction

This document is intended to assist local educational agency (LEA) staff in understanding the file extract specification of each of the California Longitudinal Pupil Achievement Data System (CALPADS) extracts. The following extract types are described in detail:

- ODS Extracts
- Cumulative Enrollment Extract
- SSID Extract
- Candidate List Extract (REMOVED)
- Rejected Records Extract (REMOVED)
- Replacement SSID Extract
- Direct Certification Extract
- SPED Discrepancy Extract (REMOVED)
- District of Special Education Accountability Extract
- Submission Error Extracts
- SSID Match Results
- Migrant Eligible Program Students Extract

1.1. File Naming Convention

The extract functionality allows an authorized user to specify selection criteria for requesting and downloading a file within the CALPADS application. The user may specify a customized name for the requested extract file. If the extract file name is not specified, the system defaults the file name to the following “fields” appended together:

- a. A brief description of the requested extract type.
- b. The delimiter “_.”
- c. The numeric representation of the current date, in CCYYMMDD format.
- d. The numeric representation of the current time, in HHMMSS format (military time).
- e. The delimiter “_.”
- f. The CALPADSUserID for the requesting user.
- g. The delimiter “_.”
- h. A system assigned sequential number.
- i. The extension “.txt.”

Example file name: SSIDExtract_20121005145647_14690_180134.txt

Chapter 2. ODS Extracts

LEA may request an extract of the current data contained in the ODS for each record type submitted to CALPADS. The CALPADS ODS Extract file may be used to compare and identify differences between the CALPADS data and the data in the local student information system. NOTE: Any non-SINF ODS extract that includes demographic information will use the SSID's most recent SINP record to populate required demographics (e.g., SENR ODS Student Birth Date will come from the most recent SINP record of the SSID).

2.1. Selection Criteria

The selection criteria identified in Table 2-1 below will be used to generate the ODS Download extract files:

Table 2-1: ODS Extracts Selection Criteria

Item	Record Type	Selection Criteria
1	SSID Enrollment – SENR	Selection Criteria Options: <ul style="list-style-type: none">• Actively enrolled students (null Enrollment Exit Date)• Date range based on Enrollment Start Date and Enrollment Exit Date• Reporting LEA• School
2	Cumulative Enrollment – CENR	Selection Criteria Options: <ul style="list-style-type: none">• Reporting LEA• School• Grade Level• Either Academic Year (with option of only adjusted cumulative enrollment), As of Date, or Date Range
3	Student Information – SINP	Selection Criteria Options: <ul style="list-style-type: none">• Actively enrolled students (null Enrollment Exit Date) OR <ul style="list-style-type: none">• Date range based on Enrollment Start Date and Enrollment Exit Date• Reporting LEA• School

Item	Record Type	Selection Criteria
4	Student English Language Acquisition – SELA	<p>Selection Criteria Options:</p> <p>Active Student:</p> <ul style="list-style-type: none"> • Actively enrolled students (null Enrollment Exit Date) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) * <p>Date Range:</p> <ul style="list-style-type: none"> • Based on Enrollment Start Date and Enrollment Exit Date (required) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) * <p>*Notes:</p> <ul style="list-style-type: none"> • All historical data will be blank for Local Record ID and Academic Year fields and will include complete historical data of selected enrolled students, regardless of Reporting LEA on SELA record(s). • Most recent only SELA record is determined by sorting (descending) Effective Start Date.
5	Student Program – SPRG	<p>Selection Criteria Options:</p> <ul style="list-style-type: none"> • Academic Year: • Actively enrolled students (null Enrollment Exit Date) • Date range based on Student School Start Date and Student School Exit Date (null Academic Year) • Reporting LEA • School • Education Program Code
6	Student Incident – SINC Student Incident Result – SIRS Student Offense – SOFF	<p>Selection Criteria Options:</p> <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA • School of Attendance

Item	Record Type	Selection Criteria
7	Staff Demographics – SDEM	Selection Criteria Options: <ul style="list-style-type: none"> • Active Staff (no Staff Employment End Date) • Date Range based on Staff Employment Start Date and Staff Employment End Date • Reporting LEA • Effective Date
8	Staff Assignment – STAF	Selection Criteria Options: <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA • School of Assignment
9	Course Section (Enrollment -CRSE and Completion – CRSC)	Selection Criteria Options: <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA • School of Course Delivery
10	Student Course Section (Enrollment – SCSE and Completion – SCSC)	Selection Criteria Options: <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA • School of Course Delivery
11	Student Career Technical Education – SCTE	Selection Criteria Options: <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA • School of Course Delivery
12	Student Absence Summary – STAS	Selection Criteria Options: <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA • School of Attendance

Item	Record Type	Selection Criteria
15	Postsecondary Status	<p>Selection Criteria Options</p> <p>Academic Year:</p> <ul style="list-style-type: none"> • Reporting LEA (required) • School of Attendance (required) • Academic Year (required) • Education Program Participation (not required) <p>Date Range:</p> <ul style="list-style-type: none"> • Reporting LEA (required) • School of Attendance (required) • Enrollment Start Date and Enrollment Exit Date (required) • Education Program Participation (not required) <p>Security:</p> <ul style="list-style-type: none"> • SELPA: LEA selection available (multi-select) • LEA: School selection available (multi-select) • School: Defaults to assigned LEA and School • State: LEA (single-select) and School (multi-select) options available

Item	Record Type	Selection Criteria
17	Work-Based Learning	<p>Selection Criteria Options</p> <p>For LEA and School Users:</p> <p>Academic Year:</p> <ul style="list-style-type: none"> • Reporting LEA (required) • School of Attendance (required) • Academic Year (required) <p>Date Range:</p> <ul style="list-style-type: none"> • Reporting LEA (required) • School of Attendance (required) • Enrollment Start Date and Enrollment Exit Date (required) <p>For SELPA Users:</p> <p>Academic Year:</p> <ul style="list-style-type: none"> • Reporting LEA (required) • Academic Year (required) • Students with Disabilities (filter flag, not required) <p>Date Range:</p> <ul style="list-style-type: none"> • Reporting LEA (required) • Enrollment Start Date and Enrollment Exit Date (required) • Students with Disabilities (filter flag, not required) <p>Security:</p> <ul style="list-style-type: none"> • SELPA: LEA selection available (multi-select) • LEA: School selection available (multi-select) • School: Defaults to assigned LEA and School • State: LEA (single-select) and School (multi-select) options available

Item	Record Type	Selection Criteria
18	Students With Disabilities Status	<p>Selection Criteria Options</p> <p>Active Student:</p> <ul style="list-style-type: none"> • Actively enrolled students (null Enrollment Exit Date) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select) <p>Enrollment Date Range:</p> <ul style="list-style-type: none"> • Based on Enrollment Start Date and Enrollment Exit Date (required) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select) <p>Note: Extract will include complete historical data of selected enrolled students, regardless of reporting LEA on the SWDS record(s).</p> <p>Non-Participating SWDS Status Effective Date Range and:</p> <ul style="list-style-type: none"> • Based on SWDS Effective Start Date (required) and End date (derived) • Reporting LEA (required) (based on reporting LEA in SWDS record) • Record History (All vs Reporting LEA Only Submitted) • Special Education Status (Multi-select) – NOT Eligible and Participating

Item	Record Type	Selection Criteria
19	Special Education Meetings	<p>Selection Criteria Options</p> <p>Active Student:</p> <ul style="list-style-type: none"> • Actively enrolled students (null Enrollment Exit Date) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select) <p>Date Range:</p> <ul style="list-style-type: none"> • Based on Enrollment Start Date and Enrollment Exit Date (required) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select)
20	Special Education Plans	<p>Selection Criteria Options</p> <p>Active Student:</p> <ul style="list-style-type: none"> • Actively enrolled students (null Enrollment Exit Date) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select) <p>Date Range:</p> <ul style="list-style-type: none"> • Based on Enrollment Start Date and Enrollment Exit Date (required) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select)

Item	Record Type	Selection Criteria
21	Special Education Services	Selection Criteria Options Active Student: <ul style="list-style-type: none"> • Actively enrolled students (null Enrollment Exit Date) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select) Date Range: <ul style="list-style-type: none"> • Based on Enrollment Start Date and Enrollment Exit Date (required) • Reporting LEA (required) • School of Attendance (required) • Record History (All vs Most Recent Only) • Special Education Status (Multi-select)
22	Local Educational Agency Program	Selection Criteria Options: <ul style="list-style-type: none"> • Academic Year ID • Reporting LEA

2.2. Record Layout

The ODS Extract file is structured like the input file with the addition of two fields, upload date and last date updated, at the end of each record. Additionally, the Record Type Code will have a '-R' appended to the Input Record Type Code. The valid Record Type Codes for the ODS Extract files are provided in Table 2-2 below.

Table 2-2: Record Type Codes

#	Record Type	Input Record Type Code	ODS Extract Record Type Code
1.	SSID Enrollment	SENR	SENR-R
2.	Student Information	SINF	SINF-R
3.	Student English Language Acquisition	SELA	SELA-R
4.	Student Program	SPRG	SPRG-R
5.	Student Incident	SINC	SINC-R
6.	Student Incident Result	SIRS	SIRS-R
7.	Student Offense	SOFF	SOFF-R

#	Record Type	Input Record Type Code	ODS Extract Record Type Code
8.	Staff Demographics	SDEM	SDEM-R
9.	Staff Assignment	SASS	SASS-R
10.	Course Section Enrollment	CRSE	CRSE-R
11.	Course Section Completion	CRSC	CRSC-R
12.	Student Course Section Enrollment	SCSE	SCSE-R
13.	Student Course Section Completion	SCSC	SCSC-R
14.	Student Career Technical Education	SCTE	SCTE-R
15.	Student Absence Summary	STAS	STAS-R
19	Postsecondary Status	PSTS	PSTS-R
20.	Work-Based Learning	WBLR	WBLR-R
21.	Students with Disabilities	SWDS	SWDS-R
22.	Special Education Meetings	MEET	MEET-R
23.	Special Education Plans	PLAN	PLAN-R
24.	Special Education Services	SERV	SERV-R
25.	Local Educational Agency Program	LEAP	LEAP-R

2.3. File Format

The extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in Table 2-2 above. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025).

2.4. File Transmission

An LEA may request an ODS Extract file for a record type through the CALPADS portal. The ODS Extract function allows an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 3. Cumulative Enrollment Extract

An LEA may request an extract of their SSID information for students cumulatively enrolled from the CALPADS ODS through the CALPADS portal. CALPADS will create the extract file according to the user's specified selection criteria. The SSIDs in the file may be imported into a local student information system and/or used locally on the user's personal computing system.

3.1. Selection Criteria

CALPADS will extract the SSIDs where the enrollment start and end dates of the associated SENR record overlap with at least one of the dates specified in the filters for the specific School/LEA and the SENR record meets the criteria for *Open Enrollment* (See CALPADS Glossary). The file will contain an unduplicated extract of SSIDs by school, LEA, and grade level along with the most recent associated SENR data. For example, if an SSID has multiple SENR records for the same school with different grade levels during the selected time period, all such records for the SSID will be included in the extract.

3.2. Record Layout

The Cumulative Enrollment Extract file is structured like the SENR input file with the addition of student group specific fields and the upload date and last date updated, at the end of each record. Additionally, the Record Type Code will have a 'CENR-R' appended to the Input Record Type Code. The valid Record Type Codes for the Cumulative Enrollment Extract file is provided in Table 3-1 below. The Record Layout for the CENR extract file is provided in Table 3-2 below.

Table 3-1: Record Type Codes

#	Record Type	Input Record Type Code	ODS Extract Record Type Code
1.	SSID Enrollment	SENR	CENR-R

Table 3-2: Cumulative Enrollment Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule	Source
1-35.	SENR File Elements	Varied	Varied	Aligned to CFS	SENR -Record Layout

Gifted and Talented	CS	1	<p>Y/N</p> <p>Education Program Code = 127</p> <p>See CALPADS Glossary: <i>Gifted and Talented Education Program Eligible (GATE)</i></p> <p>Selected from an Education Program Record with Education Program Membership that overlaps the qualifying enrollment at the school of attendance on the SENR record, regardless of Education Program Membership Code</p>	SPRG
44.	English Language Acquisition Status Start Date	DT	8	<p>English Language Acquisition Status Start Date</p> <p>Selected from the SELA record for a student with a qualifying enrollment, based on the most recent status overlapping the Enrollment record (using Effective Start Date), regardless of Reporting LEA.</p>	SELA

#	CALPADS File Element	Field Type	Max Length	Business Rule	Source
45.	Provisional LTEL Start Date	DT	8	<p>The date the student was or will possibly be an English Learner for seven years after initially becoming an English Learner.</p> <p>This field will be populated if:</p> <p>1) The most recent ELAS status is EL, RFEP or ADEL, and</p> <p>2) The Provisional LTEL Start Date is before the student becomes RFEP or ADEL (if applicable).</p> <p>See CALPADS Glossary: <i>Long-term English Learner Start Date</i></p> <p>Note: The Provisional LTEL Start Date is one of several factors used in determining LTEL status for accountability. It does not guarantee that a student will be classified as LTEL for accountability purposes.</p>	Calculated
46.	Initial US school enrollment Date K-12	DT	8	<p>Student Initial US School Enrollment Date K-12</p> <p>Selected from the most recent SINF record for a student in CALPADS.</p> <p>This field will be populated only if the Provisional LTEL Start Date is populated.</p>	SINF
47.	Earliest SENR Enrollment Start Date	DT	8	<p>Enrollment Start Date from the student's earliest SENR record where the enrollment status is Primary (10) or Short-Term (30), and the Enrollment Exit Reason Code is not N470.</p> <p>This field will be populated only if the Provisional LTEL Start Date is populated.</p>	SENR
48.	Earliest EL Status Start Date	DT	8	<p>The earliest English Language Acquisition Status Start Date for the student, sorted by effective start date (descending) and status date (descending), where the English Language Acquisition Status Code is EL.</p> <p>This field will be populated only if the Provisional LTEL Start Date is populated.</p>	SELA

3.3. File Format

The extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in Table 3-2 above. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025).

3.4. File Transmission

An LEA may request a cumulative enrollment extract through the CALPADS portal. The ODS Extract function will allow an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 4. SSID Extract

An LEA may request an extract of their SSID information from the CALPADS ODS through the CALPADS portal. CALPADS will create the extract file according to the user's specified selection criteria. The SSIDs in the file may be imported into a local student information system and/or used locally on the user's personal computing system.

4.1. Selection Criteria

The fields displayed in Table 4-1 below can be selected to filter the content of the data included in the SSID Extract file.

Table 4-1: SSID Extract Selection Criteria

Search By	Default	Selection Criteria
Date Range by SSID Enrollment Create Date	Yes	<ul style="list-style-type: none">• Reporting LEA (required)• School of Attendance (required)• Based on SSID Enrollment Create Date (In ODS) (required Start and End) <p>Note: Extract will include data based on the business rules outlined below</p>
Date Range by Enroll Date	No	<ul style="list-style-type: none">• Reporting LEA (required)• School of Attendance (required)• Based on Enrollment Start Date and Enrollment Exit Date (required) <p>Note: Extract will include data based on the business rules outlined below</p>
Date Range by SENR Post Date	No	<ul style="list-style-type: none">• Reporting LEA (Required)• School of Attendance (required)• Based on SENR Post Start Date and Post End Date (required)• Note: Extract will include data based on the business rules outlined below

4.2. Record Layout

The file will contain a list of SSIDs, and limited demographics based on the selected filter criteria defined by the LEA. CALPADS will extract the SSIDs associated with a date range based on enrollment start and end dates, enrollment create, or enrollment post date. The content of the SSID Extract file is listed in Table 4-1 below.

Table 4-1: SSID Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule
1	Reporting LEA	CS	7	This will default to the institution identifier of the User ID. May not be blank.
2	School of Attendance	CS	7	The 7-digit code is associated with the student's school of attendance. May not be blank.
3	SSID	CS	10	The SSID for the student. If the SSID associated with the enrollment is retired, the system will populate the SSID field with the active SSID associated with the retired SSID. May not be blank.
4	Local Student ID	CS	16	The student's Local Identifier is associated with enrollment. May not be blank.
5	Student Legal Last Name	CS	50	The Legal Last Name of the student associated with the most recent SINP that overlaps the SENR (enrollment start and exit dates). May not be blank.
6	Student Legal First Name	CS	30	The Legal First Name of the student associated with the most recent SINP that overlaps the SENR (enrollment start and exit dates). May not be blank.
7	Student Legal Middle Name	CS	30	The Legal Middle Name of the student associated with the most recent SINP that overlaps the SENR (enrollment start and exit dates). May be blank.
8	Gender Code	CS	1	The Gender Code of the student associated with the most recent SINP that overlaps the SENR (enrollment start and exit dates). May not be blank.
9	Student Birth Date	DT	8	The Birth Date of the student associated with the most recent SINP that overlaps the SENR (enrollment start and exit dates). May not be blank.
10	Enrollment Start Date	DT	8	The Enrollment Start Date of the student. May not be blank.
11	Grade Level Code	CS	2	The Grade Level of the student is associated with enrollment. May not be blank.

#	CALPADS File Element	Field Type	Max Length	Business Rule
12	English Language Acquisition Status Code	CS	4	The most recent English Language Acquisition Status Code from SELA table in ODS.
13	English Language Acquisition Status Start Date	DT	8	The most recent English Language Acquisition Status Start Date from SELA table in ODS.
14	Primary Language	CS	2	The most recent value from SELA table in ODS.
15	Date SSID Enrollment Created	DT	8	The date the SSID enrollment was created in CALPADS. May not be blank.
16	Student with Disabilities (SWD) Indicator	CS	1	The Y/N indicates whether this student is Eligible and Participating in the Special Education Program (SWDS). A “Y” means the most recent SWDS record effective during the enrollment for the student has SWDS Status Code = 1 (Eligible and Participating)
17	Earliest Enrollment Start Date K-12	DT	8	The earliest Enrollment Start Date K-12 from the SENR table in ODS.
18	Student Initial US School Enrollment Date K-12	DT	8	The most recent Student Initial US School Enrollment Date K-12 from the SINP table in ODS.
19	Date SENR record posted to LEA	DT	8	The Date the SENR record was posted in CALPADS. May not be blank.

4.3. File Format

The extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in Section 4.1 Record Layout above. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025).

4.4. File Transmission

An LEA may request an SSID Extract file for a record type through the CALPADS portal. The SSID Extract function will allow an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 5. Candidate List Extract – (REMOVED)

Beginning mid-April 2022 this extract was eliminated and replaced with the SSID Match Results – Chapter 12.

Chapter 6. Replacement SSID Extract

An LEA may request an extract of the retired SSIDs in the CALPADS ODS through the CALPADS portal. CALPADS will create the extract file according to the user's specified selection criteria.

6.1. Record Layout

The file will contain a list of retired SSIDs, and limited information based on the selected filter criteria defined by the LEA. CALPADS will extract the retired SSIDs associated with the students actively enrolled in the LEA. The content of the Replacement SSIDs Extract file is listed in Table 6-1 below.

Table 6-1: Replacement SSIDs Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule
1	Reporting LEA	CS	7	This will default to the institution identifier of the User ID. May not be blank.
2	Last Known School of Attendance	CS	7	The 7-digit code is associated with the student's last known school of attendance.
3	Last known Local Student ID	CS	16	The student's last known Local Identifier is associated with the enrollment.
4	Retired SSID	CS	10	The retired SSID for the student.
5	Replacement SSID	CS	10	The replacement SSID is for the student.

6.2. File Format

The extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in the previous section. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025).

6.3. File Transmission

An LEA may request a Replacement SSID Extract file for a record type through the CALPADS portal. The Replacement SSID Extract function will allow an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 7. Rejected Records Extract (REMOVED)

Beginning mid-April 2022, the Rejected Records extracts were eliminated and replaced with Submission Error Extract – Chapter 11.

Chapter 8. Direct Certification Extract

An authorized LEA may request an extract of their direct certification results through the CALPADS on-line portal for all their primary enrolled students. CALPADS will create the extract file according to the user's specified selection criteria.

8.1. Selection Criteria

The fields displayed in Table 8-1 below can be selected to filter the content of the data included in the Direct Certification Extract file.

Table 8-1: Direct Certification Extract Selection Criteria

Field	Default	Clarification
Reporting LEA	Default LEA	LEA defaults based on the Job ID selected. (Required)
School	All	The LEA may select all schools or only one school to be included in the file.
Certification Status	All (Free MediCAL, Not Certified, Reduced MediCAL, SNAP, TANF)	The LEA may select all certification statuses or only select certification statuses to be included in the file.

8.2. Record Layout

The file will contain the direct certification results for:

- all students "currently" enrolled within the requesting LEA that have a "primary" enrollment status regardless of when the enrollment begins (includes pre-enrolled students), or
- all primary (enrollment status = 10) enrollments where exit code = E155 (YearEndEnrlmntExitSameSchl) or E156 (GD12ContinuedEd) AND the exit date for that enrollment is less than 1 year. NOTE: If a student has an enrollment where exit code = E155 or E156, it should only be included if it is the most recent enrollment for the LEA.

The content of the Direct Certification file is listed in Table 8-2 below.

Table 8-2: Direct Certification Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule
1	Academic Year ID	CS	9	Format: CCYY-CCYY (ex. 2014-2015) Indicates the school year associated with the file. May not be blank.
2	Reporting LEA	CS	7	This will default to the institution identifier of the User ID. May not be blank.

#	CALPADS File Element	Field Type	Max Length	Business Rule
3	School of Attendance	CS	7	The 7-digit code is associated with the student's school of attendance. May not be blank.
4	Local Student ID	CS	16	The student's Local Identifier is associated with enrollment. May not be blank.
5	SSID	CS	10	The SSID for the student. May not be blank.
6	Student Legal First Name	CS	30	The Legal First Name of the student. May not be blank.
7	Student Legal Middle Name	CS	30	The Legal Middle Name of the student. Optional and may be blank.
8	Student Legal Last Name	CS	50	The Legal Last Name of the student. May not be blank.
9	Certification Date	DT	8	The date the student was certified eligible for NSLP. May not be blank.
10	Certification Status	CS	1	<p>"S" (SNAP) in field 10 means that the student is eligible for free lunches through the SNAP program.</p> <p>"T" (TANF) in field 10 means the student is eligible for free lunches through TANF program.</p> <p>"M" (Free MediCAL) in field 10 means the student is eligible for free lunches through the MediCAL program.</p> <p>"R" (Reduced MediCAL) in field 10 means the student is eligible for reduced lunches through the MediCAL program.</p> <p>"N" (Not Certified) in field 10 means that the student is Not Eligible for free lunches.</p>

8.3. File Format

The extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed section 8.2 Record Layout. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20150701).

8.4. File Transmission

LEA may request a Direct Certification Extract file through the CALPADS portal. The extract function will allow an authorized user to specify selection criteria and request a file be created by the CALPADS application. The LEA will receive email notification when the file is available for download. The file will not be transmitted via email.

Chapter 9. SPED Discrepancy Extract (REMOVED)

Beginning AY 2023-2024, the SPED Discrepancy Extract was removed due to updated data structures for the SPED Redesign.

Chapter 10. District of Special Education Accountability (DSEA) Extract

An LEA user may request the District of Special Education Accountability (DSEA) extract to help determine a student's District of Special Education Accountability. The DSEA extract contains enrollment and Special Education program data for students who may be: 1) sent to another district or 2) received by the requesting LEA for purposes of Special Education Accountability. Accountability measures are determined using various data points and selection criteria. This extract is not intended to be an exact match for students who will be included in the requesting LEA's accountability measures.

Users may select the Accountability DSEA Extract or the Informational DSEA Extract from the User Interface.

- The Accountability DSEA extract includes students who are being sent to other LEAs and who are being received by the user's LEA for accountability purposes. The Accountability DSEA extract is limited in grade level and enrollment status.
- The Informational DSEA Extract provides the list of students who are not enrolled in the user's LEA but have their LEA populated as the DSEA regardless of grade level or Enrollment Status.

The data in these extracts may be used locally for analysis understanding which students may or may not be included in the requesting LEA's accountability measure and to identify possible data errors.

10.1. Accountability DSEA Extract Business Rules

The DSEA extract uses information from the CALPADS ODS student enrollment (SENR), Students with Disabilities (SWDS) and Special Education Plan (PLAN) data. This extract contains only students with disabilities who are either:

- 1) "Sending" - Enrolled in the LEA requesting the extract and has a different LEA for the student's District of Special Education Accountability, or
- 2) "Receiving" - Enrolled in a different LEA than the LEA requesting the extract and the student's District of Special Education Accountability is the LEA requesting the extract.

The Accountability Attribution status, a calculated field in the extract, will indicate the which direction the student's accountability information is being attributed (i.e., "sending" or "receiving"). The business rules for generating these two groups of students in the extract are explained below. Students with disabilities enrolled in Charter Schools do not have accountability attributed to other LEAs; however, Charter Schools included in this extract for reconciliation purposes.

10.1.1. Sending Students for Special Education Accountability

The Accountability Attribution Status is equal to "Sending" in the DSEA extract for students if all of the following conditions are met:

- 1) Students are enrolled in the LEA requesting the extract at any time during the selected Academic Year (i.e., SENR overlaps selected Academic Year) and
 - a. Enrollment Status is Primary (10), Secondary (20), or Short-term (30).
 - b. Grade Level is TK – Grade 12.
 - c. Student Enrollment Exit Reason <> N470 (No Show).
- 2) Student has an SWDS *record effective* during the enrollment records selected where (Special Education Status Code= 1 – Eligible and Participating) and student has a PLAN record *effective* during the enrollment period selected where Education Plan Type = 100 (IEP) or (200 with plan reason code = 4)
 - a. The Reporting LEA from the PLAN record is equal to the LEA requesting the extract.
 - b. District of Special Education Accountability from the PLAN record does not equal the LEA requesting the extract.

See CALPADS Glossary for *Record effective* definition.

10.1.2. Receiving Students for Special Education Accountability

The Accountability Attribution Status is equal to “Receiving” in the DSEA extract for students if the following conditions are met:

- 1) Students are NOT enrolled in the LEA requesting the extract at any time during the selected Academic Year, and
- 2) Students have enrollments during the selected AY and
 - a. Enrollment Status is Primary (10), Secondary (20), or Short-term (30).
 - b. Grade Level is TK – Grade 12.
 - c. Student Enrollment Exit Reason <> N470 (No Show).
- 3) Student has an SWDS *record effective* during the enrollment records selected where (Special Education Status Code= 1 – Eligible and Participating) and student has a PLAN record *effective* during the enrollment period selected where Education Plan Type = 100 (IEP) or 200 with plan reason 4
 - a. The Reporting LEA from the PLAN record is NOT equal to the LEA requesting the extract.
 - b. District of Special Education Accountability from the PLAN record is equal to the LEA requesting the extract.

See CALPADS Glossary for *Record effective* definition.

10.2. Informational DSEA Extract Business Rules

The Informational DSEA extract uses information from the CALPADS ODS Special Education Status (SWDS) and Special Education Plan (PLAN) data. This extract contains Special Education information for students where:

1. The Reporting LEA is not the LEA requesting the extract, and
2. The DSEA field in the PLAN *record effective* during the Academic Year being requested is equal to the LEA requesting the extract; and
3. The SWDS *record effective* during the Academic Year being requested SWDS status code = 1 (Eligible and Participating)

The Informational DSEA extract includes all applicable grade levels and enrollment statuses.

10.3. Selection Criteria

Table 10-1: Accountability and Informational District of Special Education Accountability Extract Selection Criteria

Field	Default	Clarification
Academic Year ID	Default to Current Academic Year	Academic Year defaults to current Academic Year. First year available 2023-2024
Reporting LEA	Default LEA	LEA defaults user's log in.

10.4. Record Layouts

The District of Special Education Accountability (DSEA) Extract file layout is comprised of select Student Enrollment (SENR) and Students with Disabilities Status (SWDS) and Special Education Plan (PLAN) elements from the CALPADS Operational Data Store.

The DSEA Extract Record Layout is identified in the table below.

Table 10-2: Accountability DSEA Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule	Source
1	Academic Year ID	CS	9	The Academic Year being requested.	Calculated
2	Accountability Attribution Indicator	CS	9	<p>Calculation –</p> <p>“Sending” – Student enrolled in LEA requesting extract at some point during AY and has another LEA listed in associated SPED record as District of Special Education Accountability.</p> <p>“Receiving” – Student enrolled in another LEA at some point during the AY and has LEA requesting extract listed in associated SPED record as District of Special Education Accountability.</p>	Calculated

#	CALPADS File Element	Field Type	Max Length	Business Rule	Source
3	SSID	CS	10	Statewide Student Identifier	SENR- SSID

9	SWDS-Special Education Status Code	CS	1	Aligned to the SWDS CFS	SWDS-Special Education Status Code
10	SWDS- Initial Entry start date	DT	8	Aligned to the SWDS CFS	SWDS-Initial Entry Status Start Date

10.5. File Format

The Accountability and Informational DSEA extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in the previous section. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025). For example:

Record Type	Caret Delimited Fields
SWDS	<i>All fields for record type as defined in the CFS</i>
PLAN	<i>All fields for record type as defined in the CFS</i>
SENR	<i>All fields for record type as defined in the CFS (Accountability DSEA extract only)</i>

10.6. File Transmission

An LEA user may request a DSEA Extract file through the CALPADS portal. The DSEA Extract function will allow an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 11.Submission Error Extracts

An LEA may request an extract of the errors for a specific batch submission. The data in the file may be used locally on the user's personal computing system for analysis and resolution of errors. The file is labeled "Submission Error Extract" and is located on the View Submission Details page. Only extracts that contain errors are visible to the user and only users who can see the "View Submission Details" page for a job should be able to download the extract.

The following record types will follow the View Submission Details Extract format described in this section:

- SENR (SSID Enrollment)
- SINP (Student Information)
- SPRG (Student Program)
- SINC (Student Incident)
- SIRS (Student Incident Results)
- SOFF (Student Offense)
- SDEM (Staff Demographics)
- SASS (Staff Assignment)
- CRSE (Course Section Enrollment)
- CRSC (Course Section Completion)
- SCSE (Student Course Section Enrollment)
- SCSC (Student Course Section Completion)
- SCTE (Student Career Technical Education)
- SELA (Student English Language Acquisition)
- STAS (Student Absence Summary)
- PSTS (Postsecondary Status)
- WBLR (Work-Based Learning)
- SWDS (Special Education Status)
- PLAN (Special Education Plan)
- MEET (Special Education Meeting)
- SERV (Special Education Services)
- LEAP (Local Educational Agency Program)
-

11.1 Record Layout

The View Submission Details file layout for each file type above will follow the same structure as their corresponding input file format as documented in the CALPADS File Specification (CFS) document with the addition of the following fields identified in Table 11-1 below.

Table 11-1: Submission Error Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule
1	Error Code	CS	2	The error code is associated with the record. For example, 1 for Invalid Submitter error.
3	Error Description (Error Short Message)	CS	50	The description is associated with the error code assigned to the record.
4	Field Name	CS	50	The field name that failed validation checks and resulted in the error code.
5	Field Value	CS	50	The field value that failed validation checks and resulted in the error code.

The following two fields exist in each record type and will contain the following:

- Record Type Code will have a "-E" appended to the input Record Type Code value.
- Transaction Type Code will be blank.

11.2 File Format

The extract file created will be in csv format with headers. The structure of the file will conform to the order and data type listed in the previous section. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025).

An example for SDEM:

Record Type	Fields
SDEM	Record Type Code = "SDEM-E"
SDEM	Transaction Type Code = Blank
SDEM	<i>All other fields for record type as defined in the CFS</i>
SDEM	Error Code
SDEM	Error Description
SDEM	Field Name

Record Type	Fields
SDEM	Field Value

11.3 File Transmission

An LEA may request a View Submission Details extract for a record type through the CALPADS portal. The View Submission Details extract function will allow an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 12. SSID Match Results

In order to determine whether or not newly enrolled students or transferring students already have existing SSIDs in the CALPADS Operational Data Store, LEAs may submit up an SENR file through the SSID Matching Tool (external to the file submission process) and receive a list of all students they submitted and any associated matches with associated enrollment and demographic information.

12.1. Business Rules

12.1.1. Validation Rules

The record type that is submitted to CALPADS to generate the SSID Match Results is the SENR file and the SSID field in this file must be blank for all students. In addition to the fields listed below that are required to be populated (GERR0001), there are a smaller set of data integrity validations that are applied on this file than on the SENR that is sent through file submission.

Public Name	Field #	Max Length	Validation Codes	Validation Description
Reporting LEA	1.04	7	GERR0001 IVR0001	Must equal institution identifier of submitter User ID.
School of Attendance	1.05	7	GERR0001 IVR0002	Must be a valid code in CDS and have an active CALPADS reporting relationship with the Reporting LEA Else If School of Attendance NPS is populated; Then School of Attendance must equal 0000001
SSID	1.08	10	GERR0009	Validates that the field is blank in the SENR file when submitted. For this tool it is required that the SSID field be blank.
Student Legal First Name	1.10	30	GERR0001 IVR0009	Field must only contain Alphabetic letters, numbers, periods, hyphens apostrophes, forward slashes, spaces. Alphabetic characters with accents, tildes, or umlauts are allowed
Student Legal Middle Name	1.11	30	GERR0001 IVR0009	Field must only contain Alphabetic letters, numbers, periods, hyphens apostrophes, forward slashes, spaces. Alphabetic characters with accents, tildes, or umlauts are allowed
Student Legal Last Name	1.12	50	GERR0001 IVR0009	Field must only contain Alphabetic letters, numbers, periods, hyphens apostrophes, forward slashes, spaces. Alphabetic characters with accents, tildes, or umlauts are allowed

Public Name	Field #	Max Length	Validation Codes	Validation Description
Student Alias First Name	1.14	30	GERR0001 IVR0009 IVR0010	1) Field must only contain Alphabetic letters, numbers, periods, hyphens apostrophes, forward slashes, spaces. Alphabetic characters with accents, tildes, or umlauts are allowed; 2) If Student Alias Last Name is populated; Then Student Alias First Name must be populated
Student Alias Middle Name	1.15	30	GERR0001 IVR0009	Field must only contain Alphabetic letters, numbers, periods, hyphens apostrophes, forward slashes, spaces. Alphabetic characters with accents, tildes, or umlauts are allowed
Student Alias Last Name	1.16	50	GERR0001 IVR0009 IVR0011	1) Field must only contain Alphabetic letters, numbers, periods, hyphens apostrophes, forward slashes, spaces. Alphabetic characters with accents, tildes, or umlauts are allowed 2) If Student Alias First Name is populated; Then Student Alias Last Name must be populated
Student Birth Date	1.17	8	FRMT0002 GERR0001 IVR0012 SENR0262	Format: CCYYMMDD, e.g. 20081025; 1) If Grade Level Code is equal to Adult (AD) then Student age must be greater than or equal to 16 and less than 80; Else, Student age should be greater than 0 and less than or equal to 22 2) If Grade Level Code is equal to Kindergarten (KN) then Student age should be between 4 and 7 years (inclusive). 3) If Student Exit Category equals E230 and School Completion Status Code equals 320; then Student Age must be greater than or equal to 16 on the Exit Date
Student Gender Code	1.18	1	GERR0001 GERR0002	See Code Set Gender.
Student Birth State Province Code	1.20	6	GERR0001 GERR0002 IVR0036	Student Birth Country Code and Student Birth State Province Code must be a valid combination as defined in the CALPADS Valid Code Combinations document.
Student Birth Country Code	1.21	2	GERR0001 GERR0002 IVR0036	Student Birth Country Code and Student Birth State Province Code must be a valid combination as defined in the CALPADS Valid Code Combinations document.

12.1.2. Match and Scoring Criteria

Scoring is based on matching these submitted student record fields:

- Legal and alias names
- Gender
- Date of Birth
- Birth Country
- Birth State

Matching is done using both the legal and alias names, in addition to the other demographic elements, with the legal names taking a higher precedence. The name sequencing is:

1. Perfect match legal names to legal or alias names
2. Alias names to legal or alias names

Perfect matches maximize the match score, and variations reduce the match score. The farther away the potential match student's date of birth is from the submitted student's date of birth, the lower the score.

12.2. Record Layout

Once the SENR file passes validation, the following SSID Match Results file layout is made available as an extract:

Table 12-1: SSID Match Results Record Layout

Column #	Attribute	Format	Length	Attribute Definition and Format
1	Submitted_SENR_ReportingLEA	CS	7	The unique identifier assigned to the LEA requesting the SSID candidate list.
2	Submitted_SENR_SchoolofAttendance	CS	7	The unique identifier assigned to the school within the LEA that the submitted student is/will be enrolled at.
3	Selection	CS	1	This is a blank column that the user uses to indicate on hard copy which SSID matches the incoming SENR.
4	Submitted_SENR_LocalID	CS	15	LEA assigned local identification identifier for the submitted student.
5	Submitted_SENR_Student_LegalLastName	CS	50	Student's legal last/surname for the submitted student.
6	Submitted_SENR_Student_LegalFirstName	CS	30	Student's legal first name for the submitted student.

Column #	Attribute	Format	Length	Attribute Definition and Format
7	Submitted_SENR_Student_LegalMiddleName	CS	30	Student's legal middle name for the submitted student.
8	Result_SENR_SSID	CS	10	The SSID that is returned for a potential match relating to most recent SENR record. Will be blank if submitted demographics have no match.
9	Result_SENR_SSIDCreateDate	DT	8	Match result SSID Create Date. Will be blank if submitted demographics have no match. Format: yyyyymmdd
10	Result_MatchCategory	CS	14	The category describing the result of the candidate match. Values: No Match, Single Match, Multiple Match
11	Result_MatchPercentageScore	NUM	5	The score representing the percentage of demographic criteria that were matched to the submitted student demographic criteria. Format: XX.XX%
12	Submitted_SENR_Gender	CS	1	Gender for the submitted student. Format: M/F/X
13	Submitted_SENR_BirthDate	DT	8	Birth Date for the submitted student. Format: CCYYMMDD
14	Submitted_SENR_BirthCountry	CS	2	Abbreviation of the country in which the student was born.
15	Submitted_SENR_BirthState	CS	6	Abbreviation of the state or province in which the student was born
16	Submitted_SENR_GradeLevel	CS	2	Student's most recent grade level.
17	Result_SENR_ReportingLEAName	CS	200	The Reporting LEA name for the match result student's most recent enrollment.

Column #	Attribute	Format	Length	Attribute Definition and Format
18	Result_SENR_SchoolofAttendanceName	CS	200	The School of Attendance name for the match result student's most recent enrollment.
19	Result_SENR_ReportingLEACountyDistrictCode	CS	7	The Reporting LEA county-district code for the match result student's most recent enrollment.
20	Result_SENR_SchoolofAttendanceSchoolCode	CS	7	The School of Attendance school code for the match result student's most recent enrollment.
21	Result_SENR_EnrollmentStartDate	DT	8	Match result student's most recent enrollment start date. Will be blank if submitted demographics have no match. Format: CCYYMMDD
22	Result_SENR_EnrollmentExitDate	DT	8	Match result student's exit date on most recent enrollment. Will be blank if submitted demographics have no match. Format: CCYYMMDD
23	Result_SINF_Student_LegalLastName	CS	50	Match result student's legal last/surname. Will be blank if submitted demographics have no match.
24	Result_SINF_Student_LegalFirstName	CS	30	Match result student's legal first name. Will be blank if submitted demographics have no match.
25	Result_SINF_Student_LegalMiddleName	CS	30	Match result student's legal middle name. Will be blank if submitted demographics have no match.

Column #	Attribute	Format	Length	Attribute Definition and Format
26	Result_SINF_Student_AliasLastName	CS	50	Match result Student's alias last name. Will be blank if submitted demographics have no match.
27	Result_SINF_Student_AliasFirstName	CS	30	Match result student's alias first name. Will be blank if submitted demographics have no match.
28	Result_SINF_Gender	CS	1	Match result student's gender. Will be blank if submitted demographics have no match.
29	Result_SENR_BirthDate	DT	8	Match result Birth Date. Format: CCYYMMDD
30	Result_SELA_ELASCode	CS	4	Match result student's most recent ELAS Code (TBD, EL, IFEP, or RFEP). Will be blank if submitted demographics have no match.
31	Result_SELA_ELASStartDate	DT	8	ELAS Start Date associated with match result student's most recent ELAS Code. Will be blank if submitted demographics have no match. Format: CCYYMMDD
32	Result_SELA_PrimaryLanguage	CS	2	Primary language for the match result. Will be blank if submitted demographics have no match.
33	Result_SINF_Parent/Guardian1FirstName	CS	30	Match result student's parent/guardian 1 First Name. Will be blank if submitted demographics have no match.

Column #	Attribute	Format	Length	Attribute Definition and Format
34	Result_SINF_Parent/Guardian1LastName	CS	50	Match result student's Parent/Guardian 1 Last Name. Will be blank if submitted demographics have no match.
35	Result_SINF_Parent/Guardian2FirstName	CS	30	Match result student's Parent/Guardian 2 First Name. Will be blank if submitted demographics have no match.
36	Result_SINF_Parent/Guardian2LastName	CS	50	Match result student's Parent/Guardian2LastName. Will be blank if submitted demographics have no match.
37	Result_SINF_ResidentialAddressLine1	CS	60	Match result student's residential address line 1. Will be blank if submitted demographics have no match.
38	Result_SINF_ResidentialAddressLine2	CS	60	Match result student's residential address line 2. Will be blank if submitted demographics have no match.
39	Result_SINF_ResidentialAddressCityName	CS	30	Match result student's residential address city name. Will be blank if submitted demographics have no match.
40	Result_SINF_ResidentialAddressStateProvinceCode	CS	6	Match result student's residential address state/province code. Will be blank if submitted demographics have no match.
41	Result_SINF_ResidentialAddressZipCode	CS	10	Match result student's residential address zip code. Will be blank if submitted demographics have no match.

Column #	Attribute	Format	Length	Attribute Definition and Format
42	Result_SINF_MailingAddressLine1	CS	60	Match result student's mailing address line 1. Will be blank if submitted demographics have no match.
43	Result_SINF_MailingAddressLine2	CS	60	Match result student's mailing address line 2. Will be blank if submitted demographics have no match.
44	Result_SINF_MailingAddressCityName	CS	30	Match result student's mailing address city name. Will be blank if submitted demographics have no match.
45	Result_SINF_MailingAddressStateProvinceCode	CS	6	Match result student's mailing address state province. Will be blank if submitted demographics have no match.
46	Result_SINF_MailingAddressZipCode	CS	10	Match result student's mailing address zip code. Will be blank if submitted demographics have no match.
47	Result_SENR_GradeLevel	CS	2	Match result student's most recent grade level. Will be blank if submitted demographics have no match.
48	Result_SINF_BirthState	CS	6	Match result student's most recent Birth State. Will be blank if submitted demographics have no match.
49	Result_SINF_BirthCity	CS	30	Match result student's most recent Birth City. Will be blank if submitted demographics have no match.

Column #	Attribute	Format	Length	Attribute Definition and Format
50	Result_SINF_StudentInitialUSSchoolEnrollmentDateK-12	CS	8	Match result student's most recent Student Initial US School Enrollment Date K-12. Will be blank if submitted demographics have no match.
51	Result_SWDS_SWDIndicator	CS	1	Match result where a "Y" means the most recent SWDS record effective during the enrollment for the student has SWDS Status Code = 1 (Eligible and Participating). A "N" means the most recent SWDS record effective during the enrollment for student does not have an SWDS Status Code = 1. Will be blank if submitted demographics have no match.

12.3. File Format

The extract file created will be in csv carat delimited format with headers. The structure of the file will conform to the order and data type listed in the previous section. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20081025).

12.4. File Transmission

An authorized user for the LEA may request the SSID Match Results extract by submitting an SENR file through the SSID Matching Tool. The generated results file will be available for download through CALPADS under Online Maintenance>Request SSID (Student Data Maintenance)>SSID Match Tool. The file will not be transmitted via email.

Chapter 13. Data Discrepancy Extracts

An LEA may request an extract of the Data Discrepancies triggered for the most recent Data Discrepancy Rule for a specific LEA or School and Academic Year. The data in the file may be used locally on the user's personal computing system for analysis and resolution of errors.

The following record types will follow the Data Discrepancy Extract format described in this section:

- SENR (SSID Enrollment)
- SINP (Student Information)
- SPRG (Student Program)
- SINC (Student Incident)
- SIRS (Student Incident Results)
- SOFF (Student Offense)
- SDEM (Staff Demographics)
- SASS (Staff Assignment)
- CRSE (Course Section Enrollment)
- CRSC (Course Section Completion)
- SCSE (Student Course Section Enrollment)
- SCSC (Student Course Section Completion)
- SCTE (Student Career Technical Education)
- SELA (Student English Language Acquisition)
- STAS (Student Absence Summary)
- PSTS (Postsecondary Status)
- WBLR (Work-Based Learning)
- SWDS (Special Education Status)
- PLAN (Special Education Plan)
- MEET (Special Education Meeting)
- SERV (Special Education Services)

12.1 Record Layout

The Data Discrepancy Extract file layout for each file type above will follow the same structure as their corresponding input file format as documented in the CALPADS File Specification (CFS) document with the addition of the following fields identified in Table 13-1 below.

Table 13-1: Data Discrepancy Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule
1	Academic Year ID	CS	9	Academic Year associated with the Target record for the Data Discrepancy Validation
2	Error Code	CS	2	The error code is associated with the record. For example, 1 for Invalid Submitter error.
3	Error Description (Error Short Message)	CS	50	The description is associated with the error code assigned to the record.
4	Anomaly Run Time	Date/Time	TBD	Most recent DD process runtime for the LEA's DD results

The following two fields exist in each record type and will contain the following:

- Record Type Code will have a "-E" appended to the input Record Type Code value.
- Transaction Type Code will be blank.

13.2. File Format

The extract file created will be in caret delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in the previous section. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g. 20081025).

For example, the SDEM Data Discrepancy Extract:

Record Type	Caret Delimited Fields
SDEM	Record Type Code = "SDEM-DD"
SDEM	Transaction Type Code = Blank
SDEM	<i>All other fields for record type as defined in the CFS</i>
SDEM	Academic Year ID
SDEM	Error Code
SDEM	Error Severity

Record Type	Caret Delimited Fields
SDEM	Error Description
SDEM	Field Value
SDEM	Anomaly Run Time

13.3. File Transmission

An LEA may request a Data Discrepancy Extract file for a record type through the CALPADS portal. The Data Discrepancy Extract function will allow an authorized user to specify selection criteria where applicable and request a file be created by the CALPADS application. The generated file will be available for download through CALPADS. The file will not be transmitted via email.

Chapter 14. Migrant Eligible Program Students Extract

An authorized LEA may request an extract of the Migrant Eligible Program Students (MEPS) results through the CALPADS on-line portal for all their primary enrolled students. CALPADS will create the extract file according to the user's specified selection criteria.

14.2. Selection Criteria

The fields displayed in Table 8-1 below can be selected to filter the content of the data included in the Direct Certification Extract file.

Table 14-1: Migrant Eligible Program Status (MEPS) Extract Selection Criteria

Search By	Default	Selection Criteria
Active Student	Yes	<ul style="list-style-type: none">Actively enrolled students (null Enrollment Exit Date)Reporting LEA (required)School of Attendance (required)Record History (All vs Most Recent Only)Records Added Since (Allow users to only select "new" records added since this date)
Date Range	No	<ul style="list-style-type: none">Based on Enrollment Start Date and Enrollment Exit Date (required)Reporting LEA (required)School of Attendance (required)Record History (All vs Most Recent Only)Records Added Since (Allow users to only select "new" records added since this date)

14.3. Record Layout

The file will contain the results for:

- all students "currently" enrolled within the requesting LEA that have a "primary" enrollment status regardless of when the enrollment begins (includes pre-enrolled students),
- OR
- all primary (enrollment status = 10) enrollments where exit code = E155 (YearEndEnrlmntExitSameSchl) AND the exit date for that enrollment is less than 1 year.

The content of the Migrant Eligible Program Students (MEPS) file is listed in Table 14-2 below.

Table 14-2: Migrant Eligible Program Students (MEPS) Extract Record Layout

#	CALPADS File Element	Field Type	Max Length	Business Rule
1	SSID	CS	10	The SSID for the student from the associated SENR record. If the SSID associated with the enrollment is retired, the system will populate the SSID field with the active SSID associated with the retired SSID. May not be blank.
2	MSDNumber	CS	11	Number issued by MSIN to uniquely identify MEP eligible students. May not be blank.
3	EligibilityStartDate	DT	8	Eligibility start date for the Certificate of Eligibility (COE), also known as the Qualifying Arrival Date (QAD) as provided by MSIN.
4	EndofEligibilityDate	DT	8	End of eligibility (EoE) provided by MSIN. Can be a future date. During the eligibility period, it will be a projected future date. May not be blank.
5	RetiredMSDNumber	CS	11	The MSD number that is no longer in use due to a merge. May be blank.
6	RetirementDate	DT	8	The date the MSD Number is retired. On retirement, a system process will update the MSD File with the new MSD number. May be blank.
7	Latest Update Date	DT	8	The date the MEPS record was last updated in the weekly MSIN import.

14.4. File Format

The extract file created will be in caret-delimited format with no end cap delimiter. The structure of the file will conform to the order and data type listed in the Record Layout above. The date formats will follow the same formats required for the CALPADS File Formats (Format: CCYYMMDD, e.g., 20150701).

14.5. File Transmission

LEA may request a Migrant Eligible Program Students (MEPS) Extract file through the CALPADS portal. The extract function will allow an authorized user to specify selection criteria and request a file be created by the CALPADS application. The LEA will receive email notification when the file is available for download. The file will not be transmitted via email.
