PROJECT RECOURT: CLEAN COURT, GREEN HEART

I. ACTIVITY DETAILS

RECOURT: CLEAN COURT, GREEN HEART	
Nature of Activity	A school-based environmental and cleanliness initiative promoting recycling and waste management.
Type of Activity	Environmental and sustainability project led by students.
Date	November 2025
Project Head/s	SSLG Officers guided by the Adviser and the School Head
Schedule	November 18, 2025

II. BRIEF CONTEXT/PERSPECTIVE OF THE ACTIVITY

The covered court is a central area in the school where students gather for various events and activities. However, it often becomes littered with trash after use due to the lack of accessible and properly labeled trash bins. This situation contributes to an untidy environment and poor waste management. To address this, the SSLG proposes to create durable and artistic **trash bins made from recycled materials**. This project supports the school's advocacy for environmental protection, and cleanliness.

This project aims to promote cleanliness, environmental awareness, and sustainability within Mambajao National High School by creating **trash bins made from recycled materials**. These bins will be placed around the **covered court**, one of the most frequently used areas for events, assemblies, and student activities. By reusing old containers, and plastic bottles, this project will not only help manage waste properly but also encourage students to be creative and environmentally responsible.

III. OBJECTIVES

- To promote cleanliness and proper waste segregation in the covered court area.
- To encourage creativity and resourcefulness through the use of recycled materials.
- To develop environmental responsibility and discipline among students.

IV. COMPREHENSIVE PROGRAM DESIGN

Balintawak Street, Poblacion, Mambajao, Camiguin
