

These are all characters I currently have for rendering. **Any underage** (unless I have a version that is 18 or above) **or non-humanoid** characters on this list **will not be used**. I do not know 95% of the characters on this list, most have been downloaded and never touched. So I'll need to take a look at the character first to check whether it's appropriate, and renderable to your request. Please keep this in mind :)
