Images	Images can help you understand what the blog is about. Images can also help you get a visual of what you are reading about.
Tabs	The tabs help you find the information you want very quickly and you can save a lot of time. Also it can help you navigate throughout the blog. It also helps you see what stuff might be on the blog.
Background color	It catches the readers attention and makes them want to read more and explore your blog.
bibliography	A bibliography is very useful if you are on a blog that has a lot of information and if you want to find more information you can go to the

Search Bar The search bar allows you to search up the information you need. You can get very specific information. Dates The date of when it was posted helps the reader because, when there is a date, the reader knows how recent it is. Organized Layout This helps the reader because, when you have a good layout, it makes it easier for the reader to be able to read the page, and find things on the page Good Background faetures A good background makes it easier to catch the reader's eye, making the want to read more about the page. Images Images helps the reader on the blog with knowing more about the blog page, and being able to see what things look like, it makes it easier to understand what they are saying Other Tabs Tabs can help the reader when they are looking on the blog page, they could go to other tabs, helping you know what you are on, and there is other information about that blog age. Menu Bar A good menu bar makes it easier for readers to find pages and resources they are trying to find. Search Box The search box is a very convenient tool that readers can use to quickly find content located in the blog. Dates The date of blogs helps readers know what is accurate at the time. Without dates, you could believe something that was posted 5 years ago, and it will confuse you and whoever else that read the blog. Images Images show the person doing something about the creator of the blog doing the topic. Background Clean Layout A clean layout helps viewers see what they want to see. The dates help the viewer know how old the blog is. Titles The titles keep things organized by separating the different posts. Visual Pictures The search box helps the viewers find the post they want to see.
