November

Autumn's Artwork

By Liana Mahoney

Smudge some yellow over here,
spatter red over there.
Dab some orange on the treetops,
on the ground - everywhere!

Finger-paint a bit of purple,
just to brighten up the green.
Brush on hints of gold and copper
to add sparkle to the scene.

Now the canvas pops with colors!
There's just one more thing to do -
frame it all against a background
that's a crisp and breezy blue.

Well done, Autumn! What a painting!
Now you'd better go and play!
Go crunch in leaves and chase the breeze,
because winter's on its way.
