Discussion

Low attendance at meetings- what could be a contributing factor?

- Calendar invite needs updating
 - Action: old invite deleted and new created with new TEAMS link
- Online vs in person
 - Due to the change to in person, this could prevent people from attending
 - Action: keep meetings ONLINE only for near future, when moving to in person, new invite to be sent again
- No personal connections
 - Regina and Lory will begin to reach out to members to ask for phone numbers to build relationships
- Incentive to attend meetings
 - Action: provide CEs (non credited) to attend monthly meetings
 - Action: ask BCCP, what do you want to see?
 - Action: change meeting structure- every meeting will have shortened amount of update time, remainder will be mini lessons by guest speakers focusing on CHW core competencies
