

2023-24 Secondary E-Learning Day Expectations

These expectations are consistent with what is expected of all secondary courses with the exception of AP courses. AP Courses may have new content delivered on E-learning days.

- Students should review and complete any posted assignments/activities on the Schoology page for each class.
- Content for E-Learning days will be skills that students have previously learned such as practice and review.
- No “new” learning.
- Teachers should provide resources to support “catch-up” and supplemental/reinforcement learning for skills/concepts already taught.
