Ways to Get Internet Access in Your Home

We want to make sure that children and families have access to broadband during this critical time. If you don't have an internet connection at home for the digital distance learning program here are a few options available to you.

Comcast

- Comcast is offering internet access at home to families in need through Internet Essentials. To sign up, applicants can simply visit www.internetessentials.com.
- There are also two dedicated phone numbers 1-855-846-8376 for English and 1-855-765-6995 for Spanish. Comcast is ramping up resources to ensure that families can get the equipment and start service as quickly as possible after signing up.

AT&T

- AT&T's Access program is available for \$10/month. To qualify for Access, customers
 must have a student who qualifies for the National School Lunch Program/Head Start or
 one family member who participates in the SNAP program.
- Visit the Access page to fill out an application and see if you qualify. https://digitalyou.att.com/low-cost-internet/
- If you can't access the webpage please call in using these phone numbers.
 - English 855-220-5211Spanish 855-220-5225

Wave

- Wave's Internet First Program offers home internet access for \$10 a month with the first 60 days free. You can find out more information at https://residential.wavebroadband.com/internet-first/
- You can also call 855-971-1252

District-Supplied T-Mobile Hotspots

The District is currently working on getting hotspots for all students that need them. We are working with T-Mobile but because of the overwhelming demand right now, it will take T-Mobile some time to get the devices to us. The above home internet options will provide a much better connection for families. Please try to gain access to the internet using the information above.

If you cannot get internet access by one of the options provided above, please contact our Tech Support at TechDesk@wintersjusd.org to let us know that you will need a hotspot when they become available.
