Calorie Content: Metabolizable Energy (calculated) 3,515 kcal/kg 360 kcal/cup

Nature's Select Classic Nutrition Recipe – Feeding Guidelines 2024

Feeding Adult Dogs:

Follow the feeding guidelines shown below. Your dog's food intake should be adjusted based upon body condition, life stage, activity, and environmental temperature. Since Nature's Select Dog Food is complete and balanced, additional foods, treats and chews may alter the nutritional balance and calories. Feed with clean water every day. We recommend splitting this amount into two meals. Be sure to take your pets to your local veterinarian for a proper health examination.

Adult Feeding Guide:

DOG'S WEIGHT, LB.	AMOUNT OF FOOD PER DAY
10+ lbs.	½ to 1 ¾ cups
25+ lbs.	1 ¾ to 3 cups
50+ lbs.	3 to 4 cups
75+ lbs.	4 to 5 cups
100+ lbs.	5 to 6 cups
125+ lbs.	6 cups plus ½ cup for every 10 pounds over 125 pounds in weight

Feeding Reproducing Females:

Nature's Select Classic Dog Food has been fortified to meet the needs of reproducing (gestating and lactating) female dogs. Food consumption can vary during gestation and lactation, but reproducing females must eat enough food to maintain a good body condition. Expect intakes to increase 2 to 4 times the cups shown in the adult feeding guidelines during lactation.

Nature's Select Classic Nutrition Recipe – Feeding Guidelines 2024

Feeding Puppies:

Puppies start to nibble on solid food at three to four weeks of age. Use the feeding chart as a guideline. We recommend serving Nature's Select Classic dry food with warm water (three parts dry food – one-part water) at all times until weaned (6 to 8 weeks of age). Remove softened food after a couple of hours due to spoilage. Don't let your puppy get too overweight and maintain an ideal body condition. Individual needs will vary with breed, activity, litter size and environmental temperature. Slight appetite changes are normal with puppies. Since Nature's Select foods are complete and balanced, additional foods, treats and chews may alter the nutritional balance and calories. Be sure to offer fresh, clean water daily. We recommend you take your pet to see your veterinarian annually.

Puppy Feeding Guide:

PUPPY'S WEIGHT, LB.		AMOUNT OF FOOD PER DAY (CUPS)		
		Up to 4 months	4 to 8 months	8 to 12 months
2 – 10		½ to 1 ¾ cups	1/3 to 1 ½ cups	1/3 to 1 ¼ cups
11 – 20		1 ¾ to 2 ¾ cups	1 ½ to 2 1/3 cups	1 ¼ to 1 ¾ cups
21 – 40		2 ½ to 5 cups	2 1/3 to 3 2/3 cups	1 ¾ to 2 ¾ cups
41 – 60		5 to 6 ¼ cups	3 2/3 to 5 cups	2 ¾ to 4 cups
61 – 80		6 ¼ to 7 ½ cups	5 to 6 ¼ cups	4 to 5 cups
81 – 100			6 ¼ to 7 ¼ cups	5 to 6 ¼ cups
100 +			7 ¼ cups plus ½ cup for every 10 pounds over 100 pounds in weight	6 ¼ cups plus ½ cup for every 10 pounds over 100 pounds in weight
