Experience

JPMorgan Chase — Senior Product Designer
Sep 2022 to Present - Palo Alto, CA

Design lead for the firm's design system used within the Commercial Banking sector. Maintain a series of Figma libraries that provide 1:1 parity with production-ready React components. Assess and deliver components and designs that meet accessibility/WCAG requirements. Create detailed component documentation to provide guidance to consumers.

Lumanu — Product Designer
Jan 2022 to Jul 2022 - Remote

Created a unified and cohesive set of UX and visual guidelines for the company's mobile products and design system. Improved the end-to-end experience of the Lumanu mobile app by identifying UX issues and proposing design recommendations. Designed high-quality mock-ups and interactive prototypes to communicate work to stakeholders and developers.

Hack for L.A. — UX/UI Designer
Jul 2021 to Jan 2022 - Remote

Designed user-centric solutions, and created wireframes, high-fidelity screens, and visual design assets to aid the shaping of the organization's first design system.

Origaudio — Graphic & Technical Designer
Jul 2016 to Apr 2000 - Danville, CA

Worked with the CEO and purchasing team to develop and design for the launch of a new product category, resulting in sales of $1.6 million in its first year. Created digital and printed branding material for the launch and marketing of multiple new product collections.
