Update June 7, 2026: the list of her socials, my preferred name, and my contact info are now up-to-date

Crucial info before we start:

- She started out as a yandere simulator pose modder, but nowadays she makes 3D art of her OCs.
- Purpy was 23 years old in 2021, *according to her own words*. She cannot push away responsibility for anything she's done due to age, she was fully grown and knew what she was doing.

Proof of age:

2020, The Petty Beginning: From My Point of View

Otherwise known as “The Instagram Era”

!!!!!!! This portion is honestly a lot of petty things that aren't nearly as problematic as the rest, if you don't care about that, please skip to the "racism" part

Really, I'm only choosing to keep this part included for the sake of keeping *everything* documented !!!!!

My current name is Max, and my alias now is RainieRAWR.

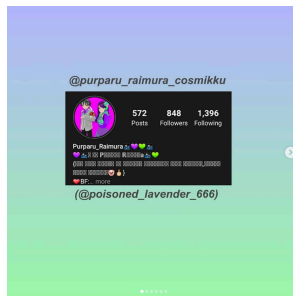

My alias used to be avalette. I was a 15-year-old with no life, especially during the covid lockdown, so I ran an Instagram account where I would expose people's wrongdoings

I'd mainly expose art thieves, but as my account grew more in the Yandere Simulator community, I gained more requests to cover this one person who went by "Purparu". On October 5th of 2020, with all of the evidence I compiled from all of the people who have requested me to cover her, I made my post and that's how it all started between me and her.

Her reaction to it was terrible, I remember that she and her friend (Aoi) would spam my comments with all of the insulting words they knew.

This is the first time I've made a post involving her.

<https://www.instagram.com/p/CF-TwQfp4X/>

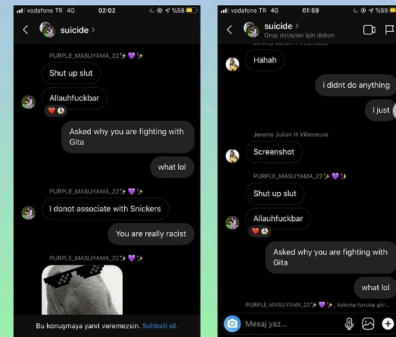

Honestly... I don't know about this situation as much as I know about Sora's, but I have a lot of bits and pieces of it. I hope that's good enough. Also, quite a few people came to me about her as well, even someone on discord told me about her. So either way, I feel like this post is needed.

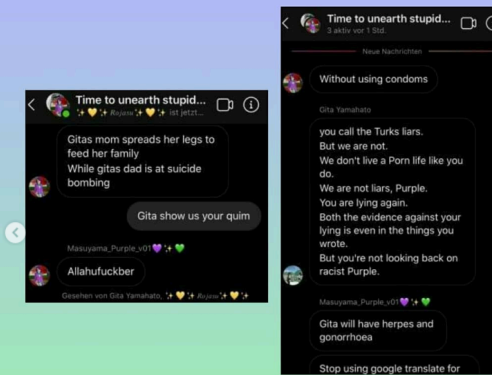

I've never had any real interactions with Purple myself, but I've seen and heard some stuff. I've seen her talk shit about people on her story, I've seen her being rude in DMs, I even heard that she called somebody a "terrorist" because they're Turkish. So yes, this is definitely an issue.

Starting with this-

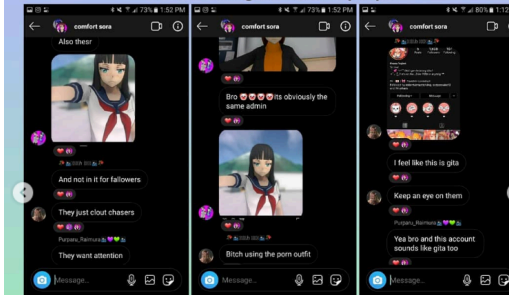

And to top it all off, the groupchat is named "suicide"

I really wonder how old she is, I'm pretty sure she tried to say she's 22, but I don't believe her for a second.

13, at most.

Also, somebody put my alt account in a groupchat with her so I got to see her talking about a few people

(also Osana isn't Gita imao how and why would you think that-)

And Purple, if you're reading this, yes. That was me.

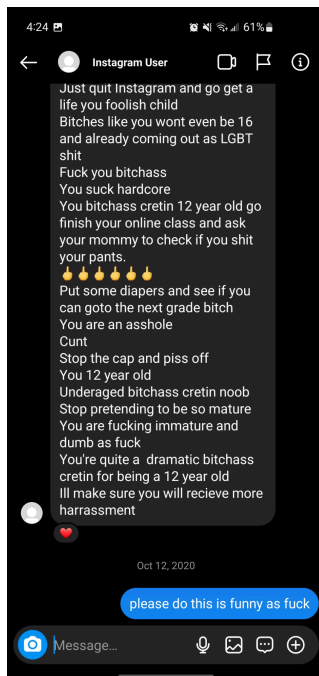

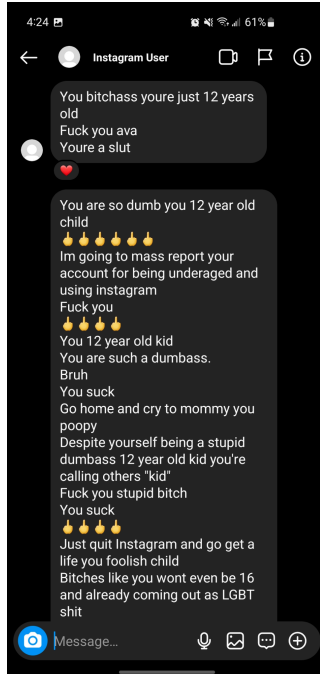

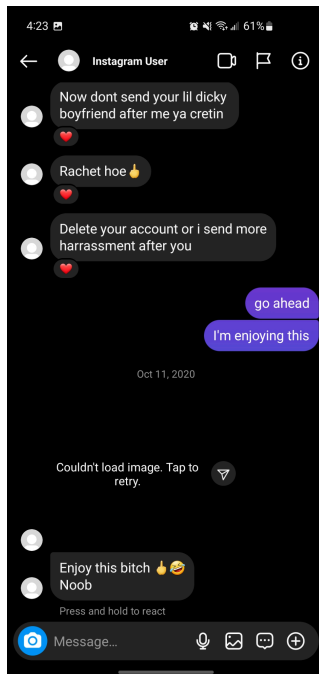

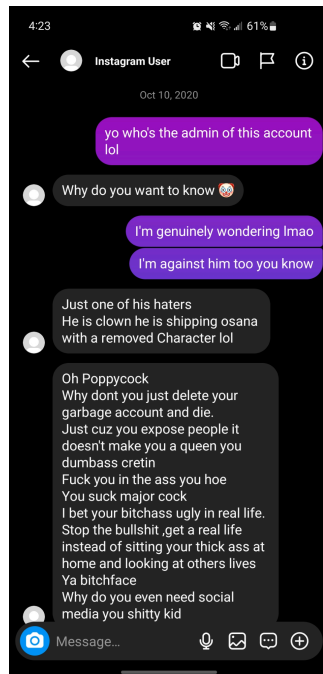

So, yes. She was being racist, harassed people, probably lied about her age, and talked behind people's backs. That's just how she is and I don't recommend supporting or being friends with someone like that. If you do associate with her, it's all up to you. Just please make sure you trust the right people so you don't get hurt. From what I'm seeing, Purple is a toxic person.

Do not harass Purple or anybody else involved, if you must talk to them, please be calm and civilized. If they become a problem to you, block and ignore them to avoid any more issues.

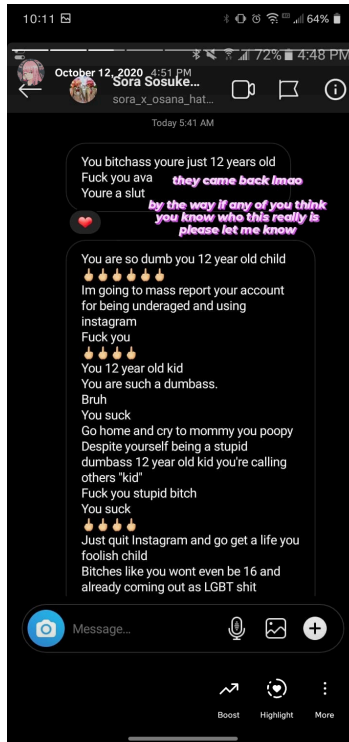

Thank you for reading

Harassment: I

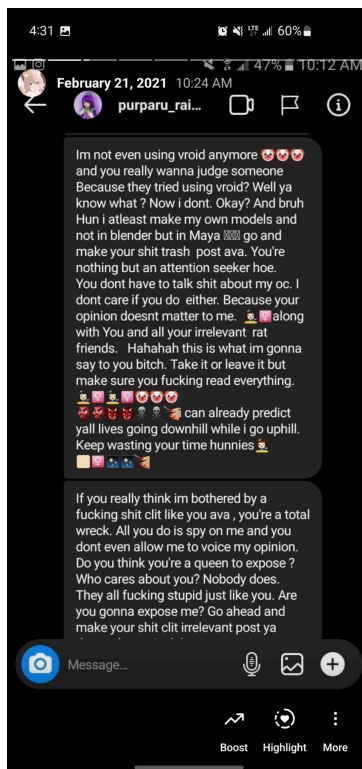

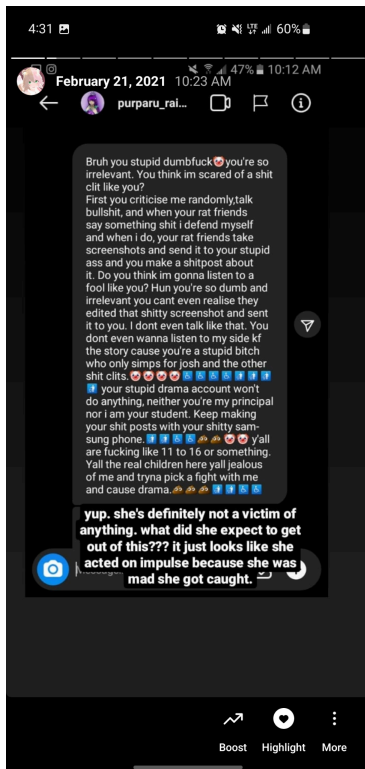

That one post alone caused me to receive many, MANY messages like these.

vvvvvv (I found an old screenshot of what the account used to be before it was deleted) vvvvvv

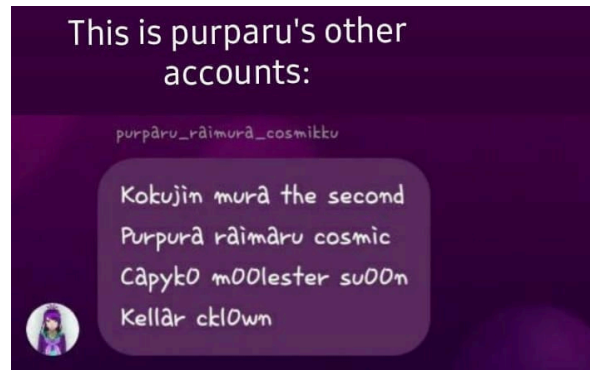

Before that account got deleted, it used to be a hate account specifically for me and another person who was involved, and at the time he wasn't on my side or hers. Later on, I also received messages exactly like these from Purparu herself. It's unknown if the messages above are from either her or one of her friends/supporters.

This is also around the time where it started to be apparent that she pretends her alts aren't her and instead her "friends"

The first alt she did this with was named Mura. I unfortunately don't have any screenshots of the account's posts, but it was also an expose account with a similar style as mine. I'd like to remind everyone that I was 15 doing that, she was 23. A whole adult. With an expose account. Lmao.

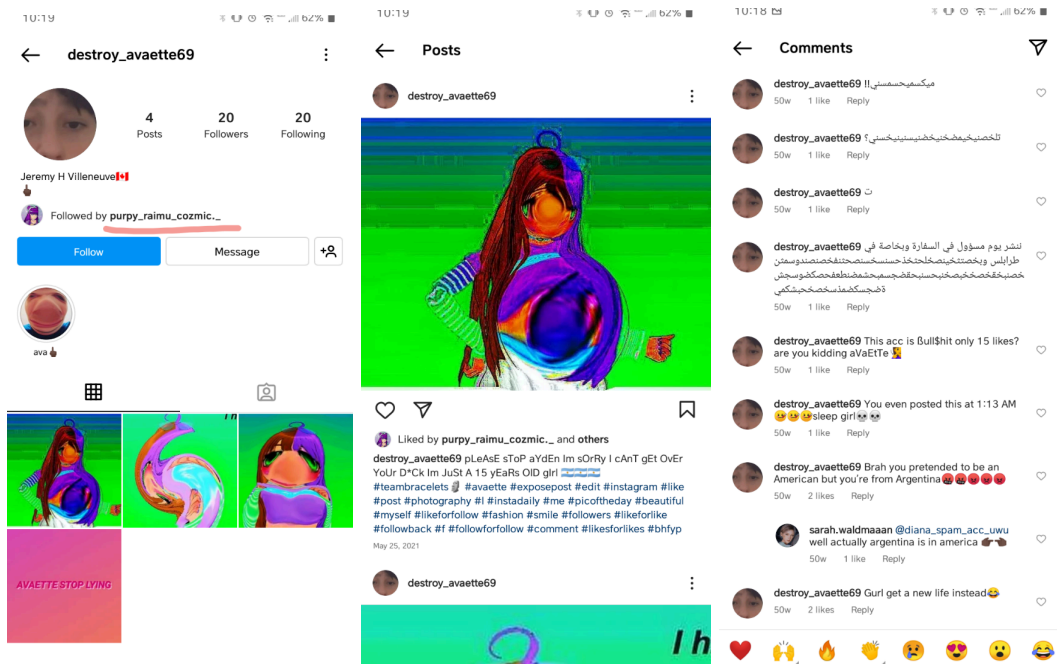

When she was talking about her not being Mura, there's evidence that states otherwise. She has a history of pretending her alt accounts aren't her, but then months later she casually mentions them as being her alts as if she never pretended they weren't her. You'll see the recurring theme in this document.

The "Kellār ckl0wn" mentioned above was also a hateful account against me and a lot of different people on my side where they would insultingly edit our OCs and even our face pics (I'm fortunate I never did a face reveal at this time), it's similar to the screenshots below except it was much worse.

You can also see something that Kellār ckl0wn did at the end of the next racism section.

There have been many accounts opened that were targeting me, and Purparu herself followed a lot of them.

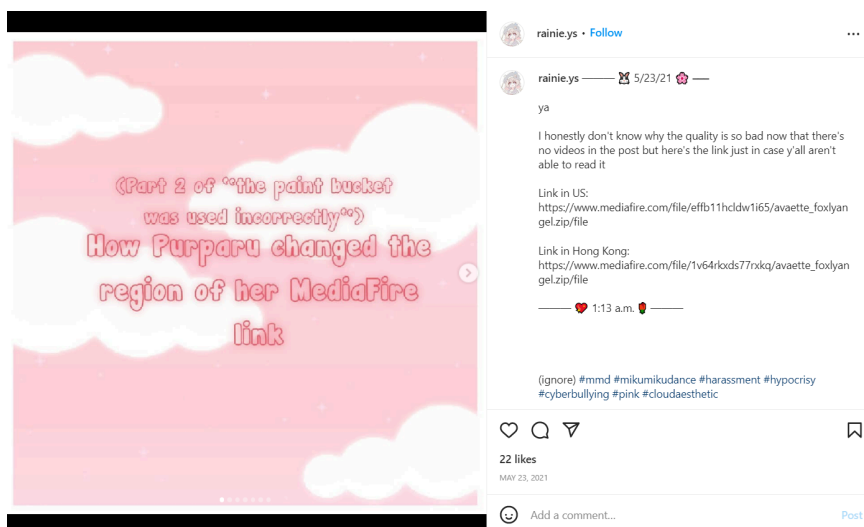

Please note that the description in the second screenshot is just casually sexualizing me as a child. Remember this, because this is *not* the last time she participated in that sort of thing.

.

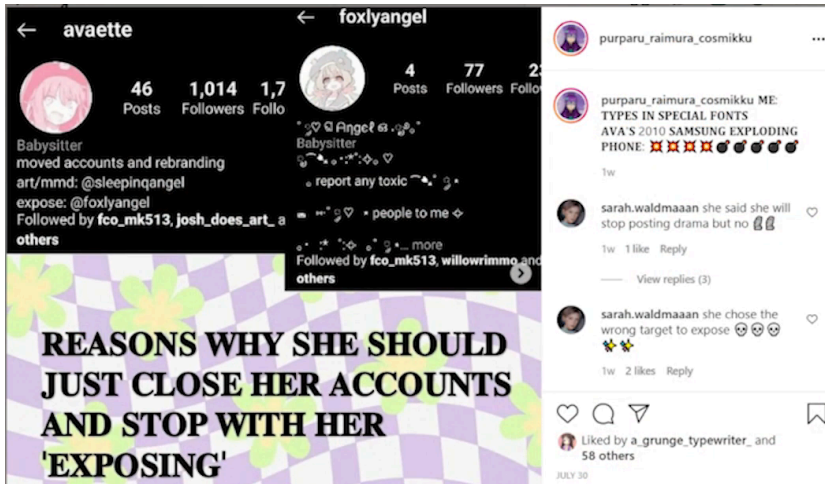

.

.

May 23, 2021, was the last time I publicly and privately interacted with Purparu. I just wanted it to be done and I was tired of it, but in late July, she suddenly made a post about me that wasn't provoked whatsoever. I wasn't even active on Instagram at that time so I still don't know why she did that to this day

My last post of her in May

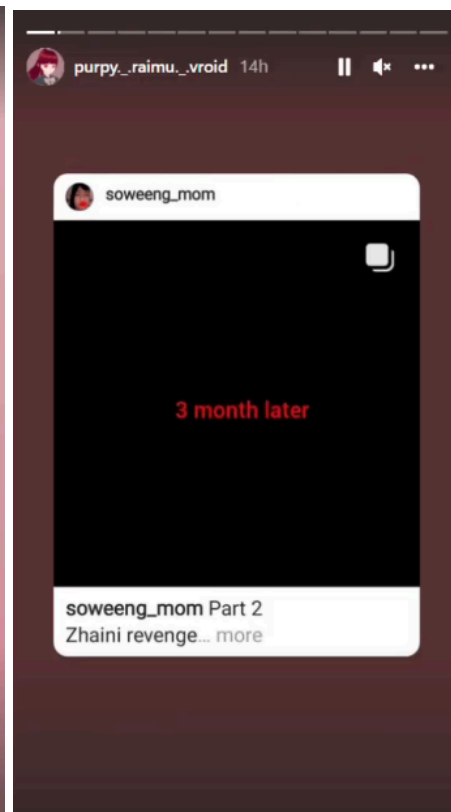

Her sudden “call-out” post in

July

I decided to ignore it. She eventually deleted it.

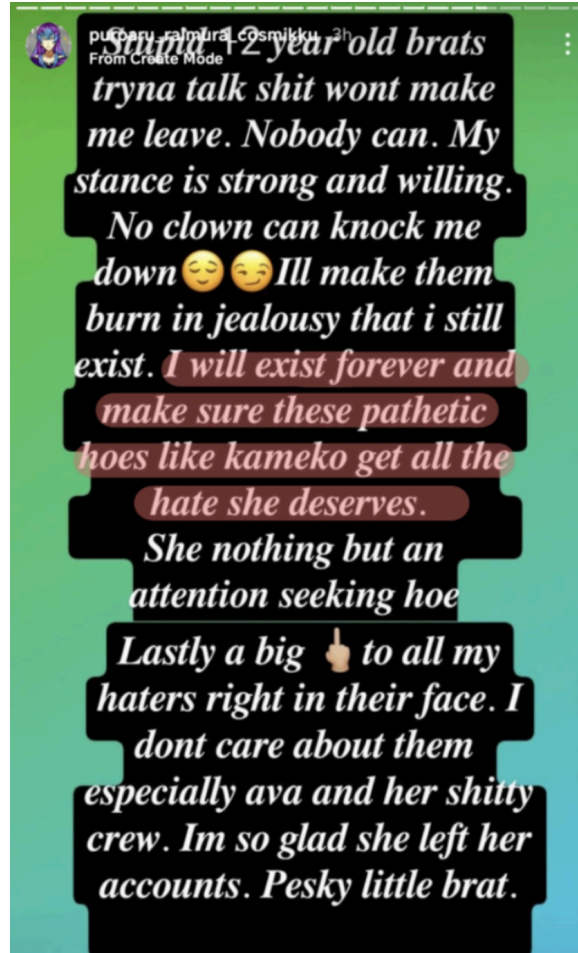

.

She also reposted one of my hate account’s posts on her alt’s story, again at this time I haven’t interacted with her in months.

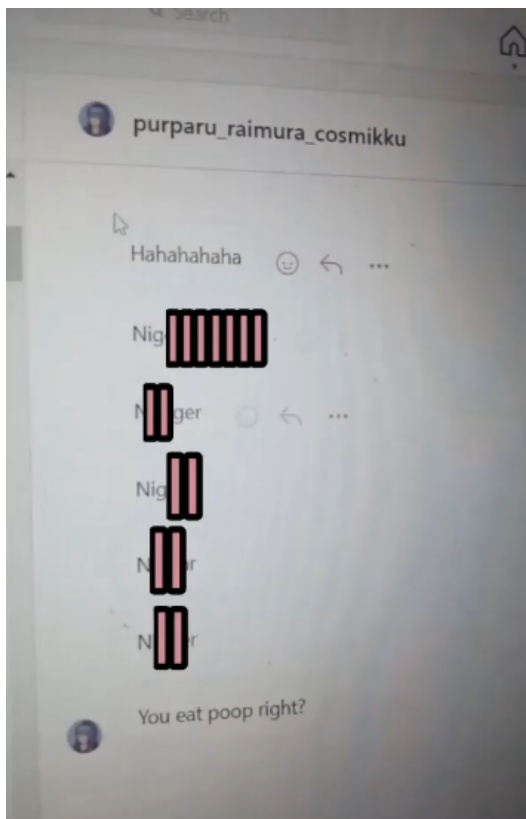

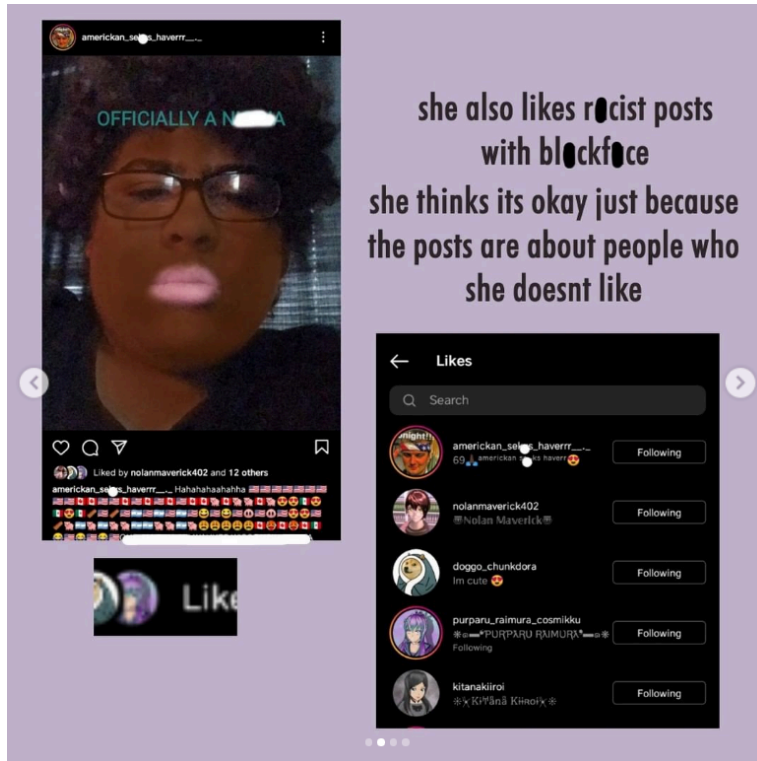

Saying this about a 12 year old btw. As a woman in her 20s. Get a life

Okay so now I'm going to show the *actual* bad shit,
sorry for that nothingburger intro

Racism

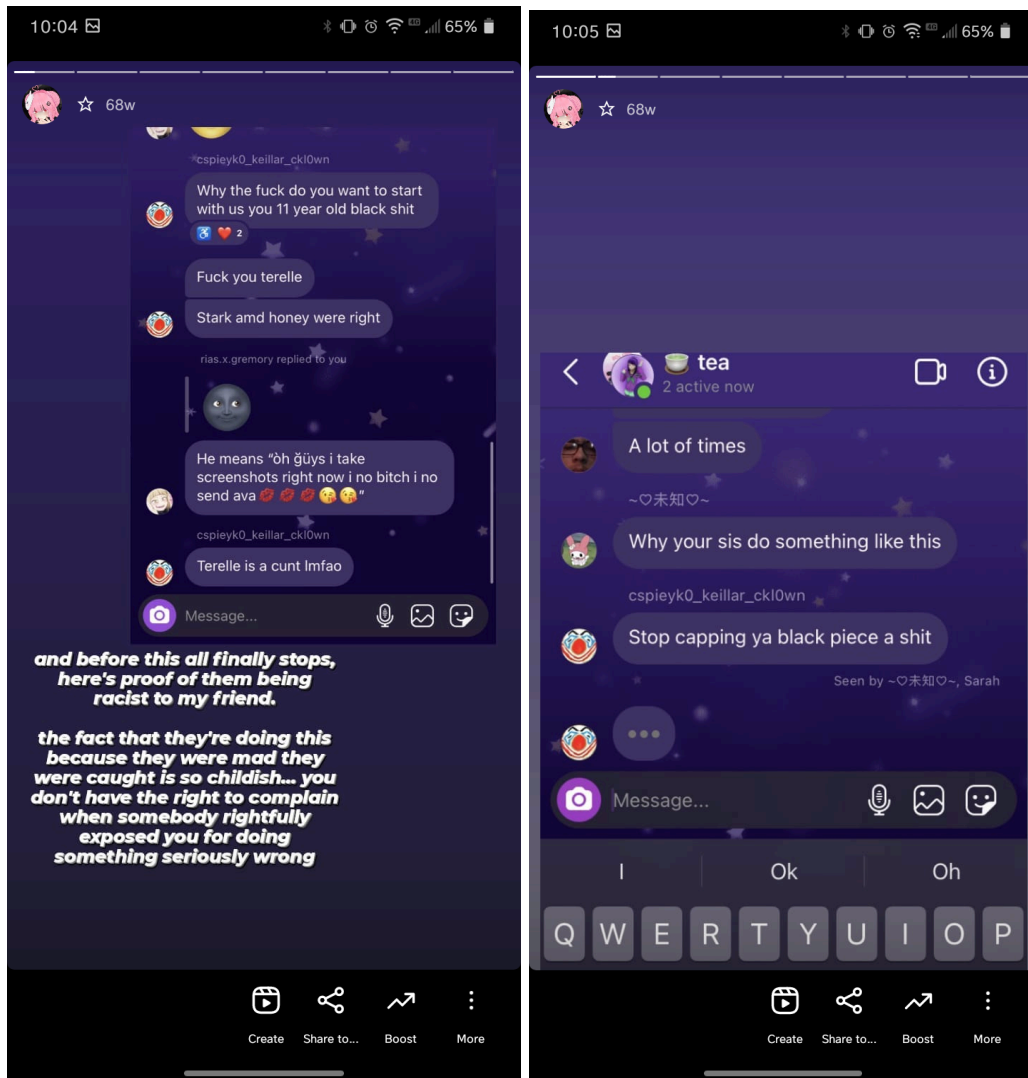

This person both screen-recorded her saying the hard R and also recorded the messages that were on their computer from their phone.

They recorded it in multiple ways because her whole group loves to claim that everything is photoshopped.

I also remember this screenshot being spread in 2020. Since the chat has a theme background, it's VERY unlikely this screenshot is fake unless someone is a master at photoshopping. But considering the other things she said, I don't think this was faked at all. This screenshot is low quality most likely because it was passed around many times when it was first released, and Instagram automatically compresses photos when it's uploaded whether it's posted publicly or sent in a message.

Key Info: Terelle (the person they were targeting) was only 11 as you can clearly see in the first message.

When her saying the N-word was revealed, this was her friend's excuse.....

An extra thing, I know who she sent this to. When I knew her, she was only 10. I tried reporting her account for being underage for her own safety multiple times but it never worked. She was heavily influenced by Danganronpa, DDLC, and Yansim, to the point where she would pretend that she was a demon irl only disguising as a human, that's most likely why Purparu was bullying her like this. This girl has told me some personal stuff that's actually really heartbreaking to come from a child. I sympathize with her deeply. (Also yes, she's black which makes what Purparu sent to her 1000x worse than it already was)

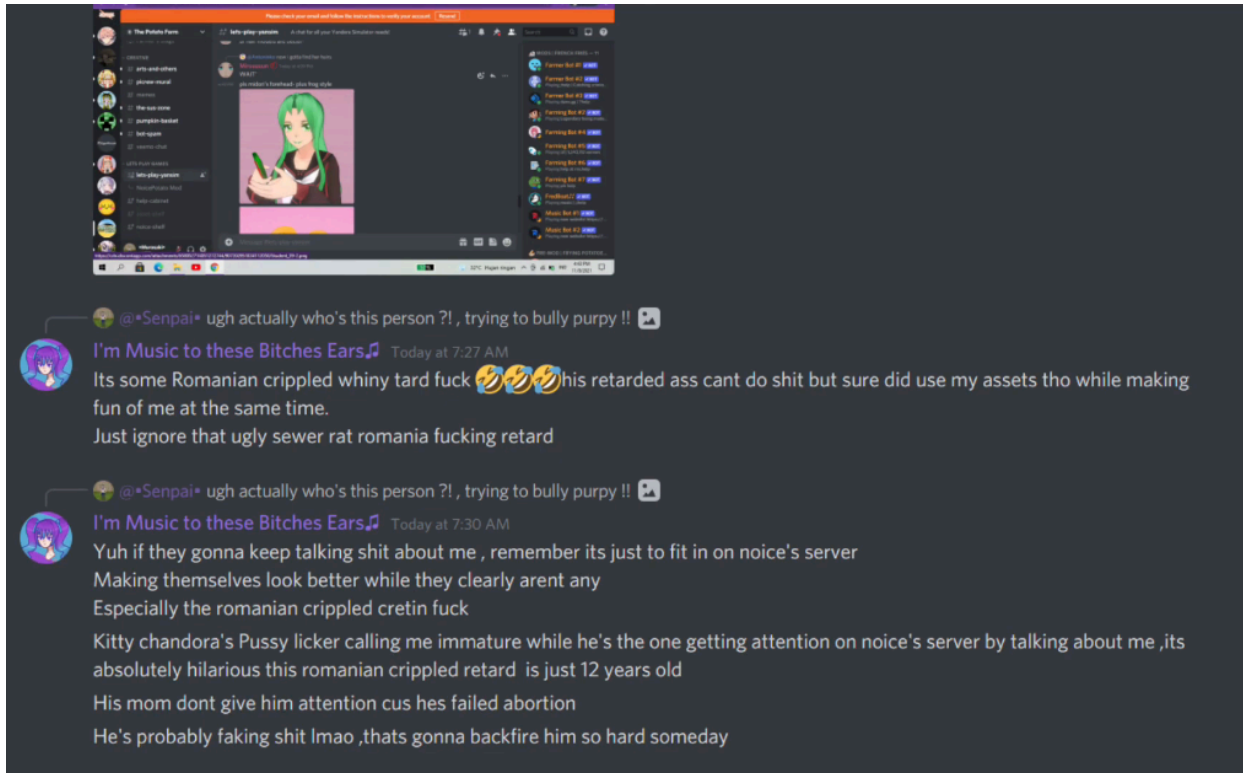

More awful accounts she was following and liking:

“Make america great again” ??? 🤔🤔 i know what you are

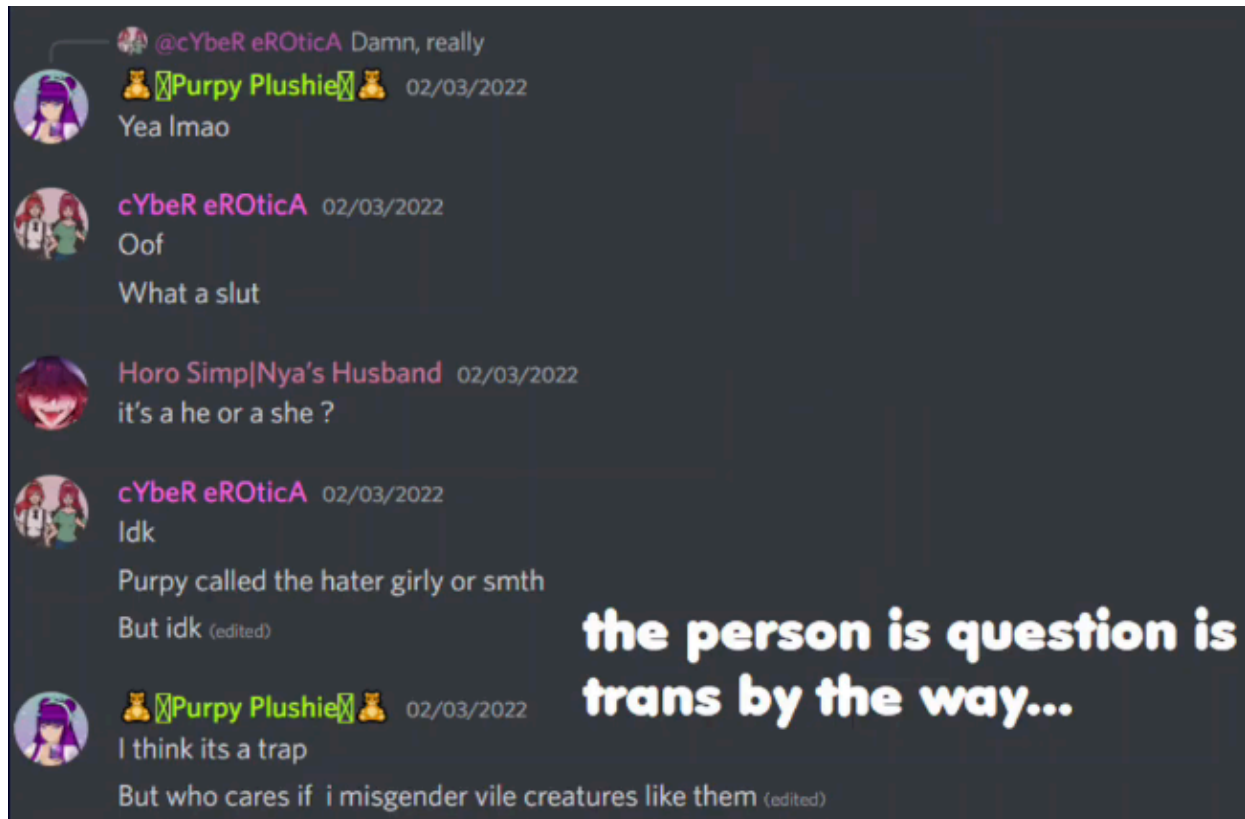

Late 2021-2022: The Discord Era

I'm not sure what she has against Romanians

Transphobia

The person in question is someone named Nate. From what I know, he's indeed trans and is uncomfortable with being called "girl", "girly" or other variants.

Misgendering someone who you don't like, no matter what they did, IS transphobic.

Lying

This is what I was talking about with pretending her alts are her friends, there was a brief period where Purpy wanted a “truce” with me and added me to a groupchat with all of her “friends” to prove they aren’t her, which is where the bottom screenshot came from.

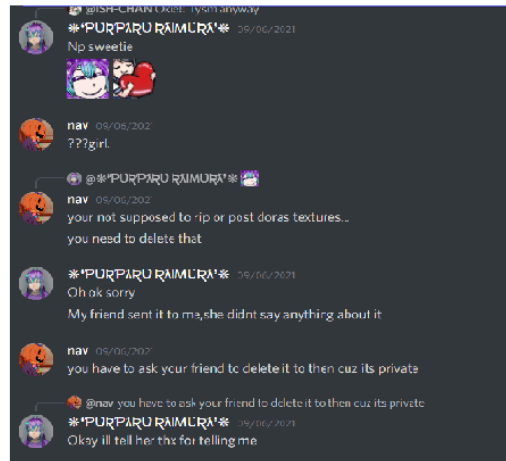

She proceeded to spend WEEKS talking to herself in that gc with JUST me in it..... I’m sorry that’s so fucking funny

Purpy Raimu ❤️ 10/07/2021

I sent doras tex on ruebens server and they attacked me

They didn't "attack her" like she said, she's only wanted to be a victim when she's the one who did something wrong here. They only corrected her, what else were they supposed to do?

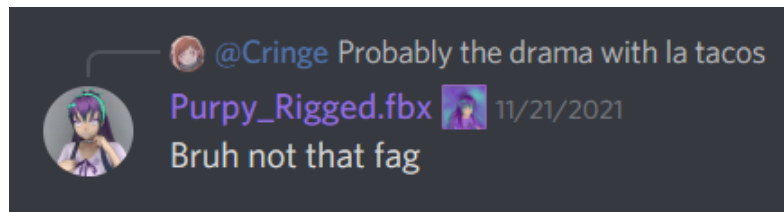

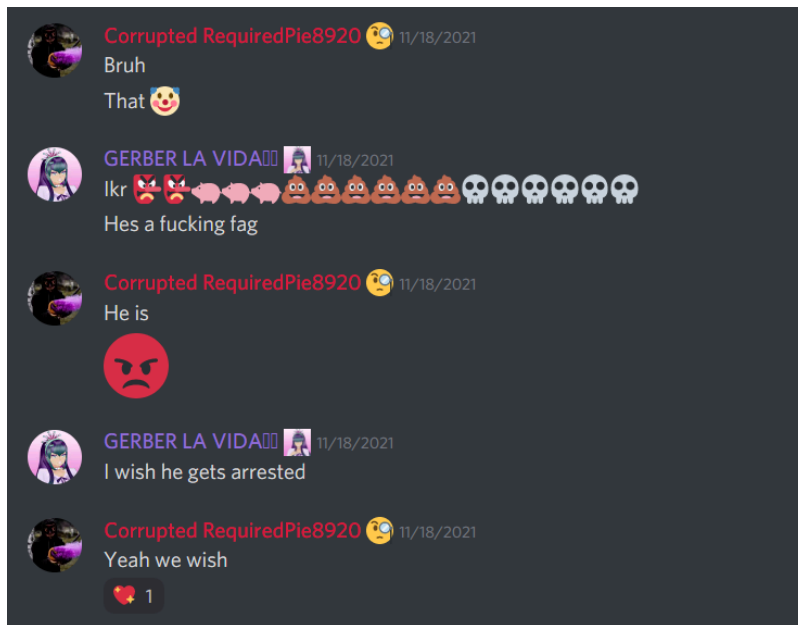

Purpy Raimu ❤️ 10/07/2021

You can see that she's always really desperate to be a victim.

Slurs

Death Threats

Sexualization of Minors

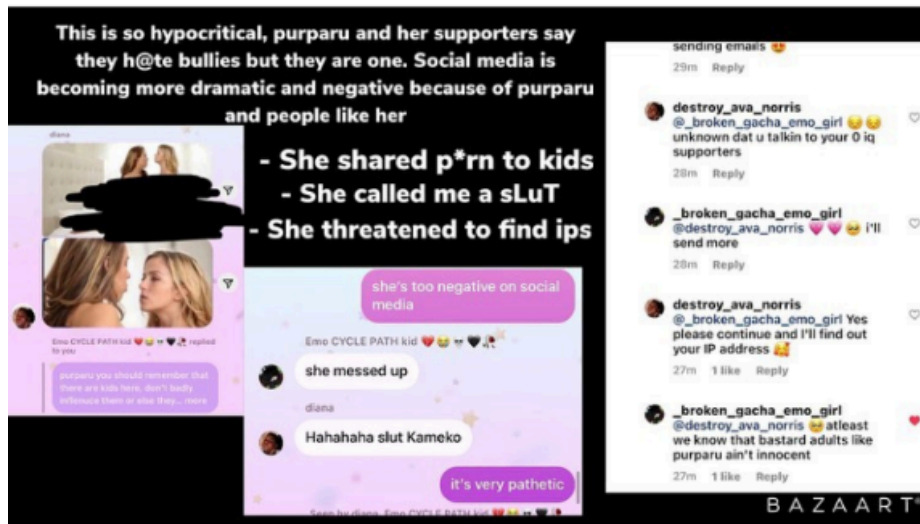

Someone who used to be involved in drama with Purparu was only 12 years old. Her online name was Kameko. A lot of the time, Purparu would call her and other underaged people involved “sluts”. I don’t care if she was trying to only be insulting (which either way you shouldn’t do to someone as young as TWELVE) it’s gross and creepy. Purpy is literally DOUBLE her age
bruh

Also, the same 12-year-old had to experience this.

Just a warning this is where things get convoluted, and can be confusing to an outsider POV, you don't have to read through this part, you probably get the gist of what she's like by now.

Oishiioppa + Tibu

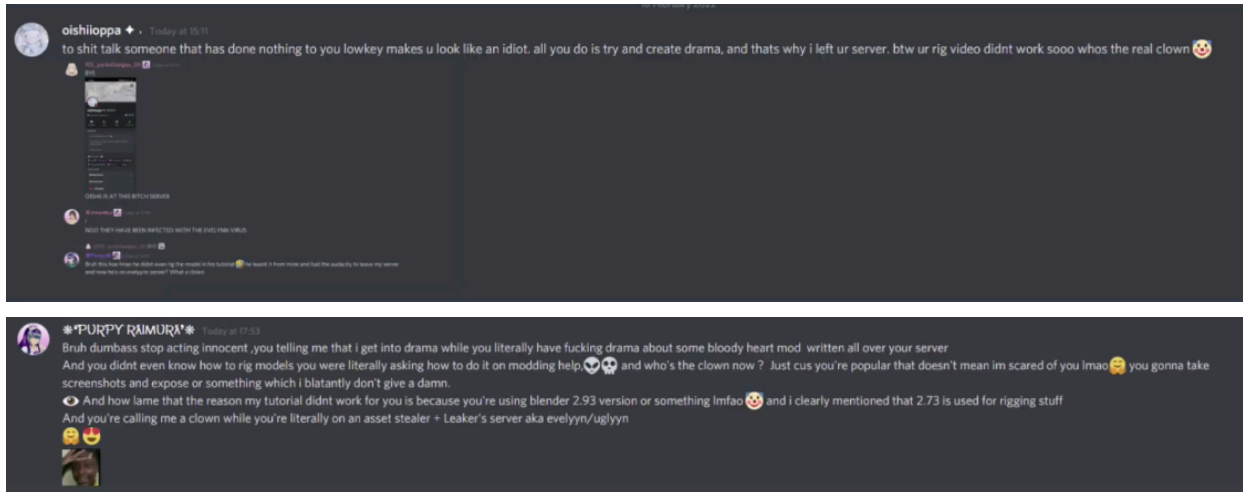

Oishii is a Yandere Simulator YouTuber with nearly 50k subscribers. Because of Purparu's true behaviors being shown to the public, he left Purparu's server and she wasn't happy with it at all.

Instead of acting like a grown adult, which is what she's supposed to be, she decided to talk badly about him to her entire server in the announcements channel.

They accused him of supporting a kid named Evelyn (who's very known for stealing people's assets and putting them up for download) because he's in her server. Evelyn will be talked about more, but for now let's stick with this situation.

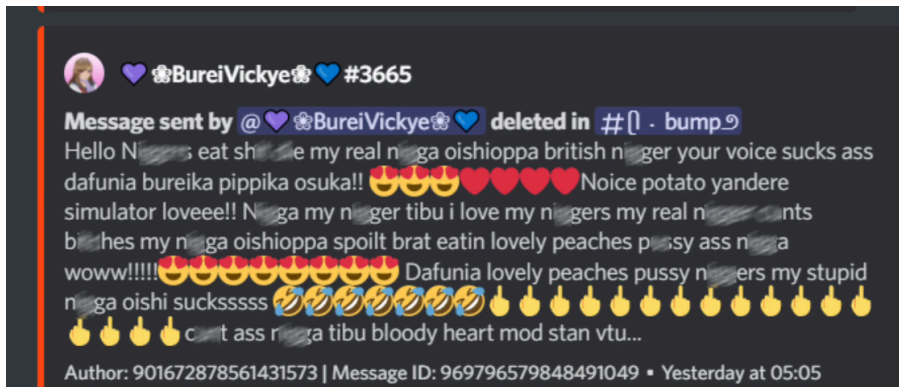

This is his response

The following pieces of evidence were taken directly from courtreezyyy<3's video about Purparu.

<https://www.youtube.com/watch?v=1smZnenRdYM>

she blocked him, and it all seemed to be silent, but then, one day, someone raided oishii's and tibu's server. more like some people, since it was multiple accounts. they didnt think much of it, and didnt think it was related to purpy either, however, what happened after will prove that she had something to do with it.

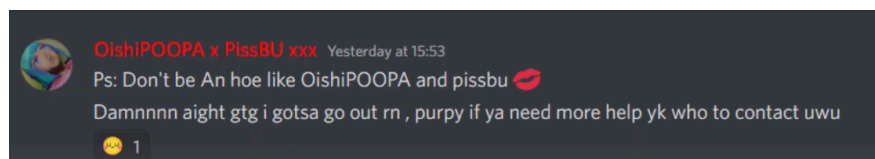

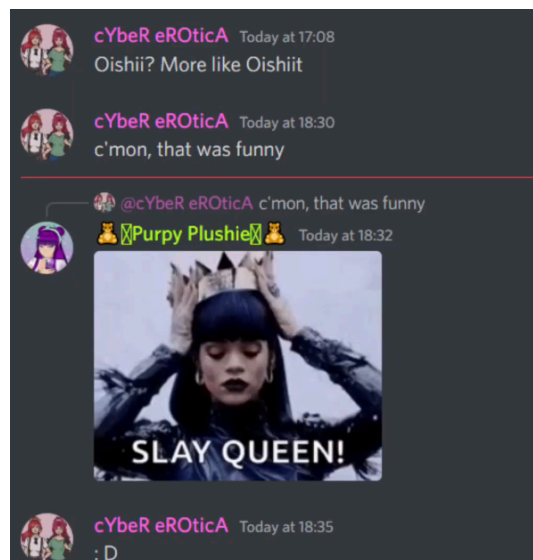

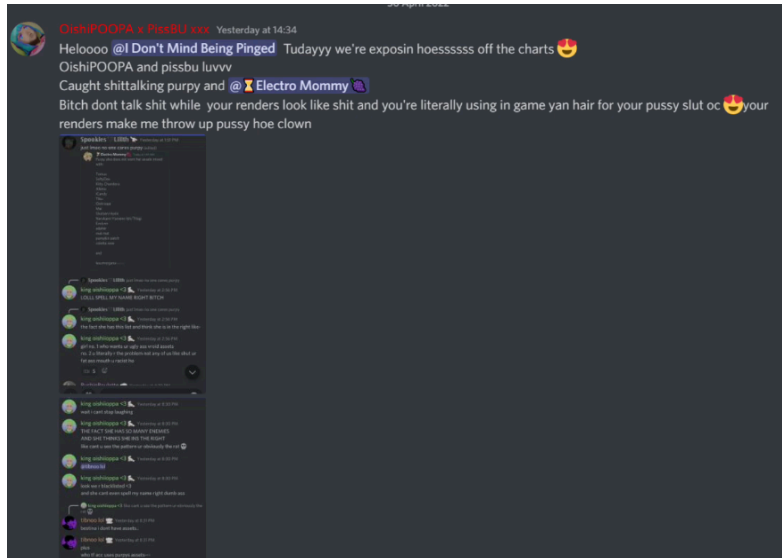

Just remember the name "StarDevv"

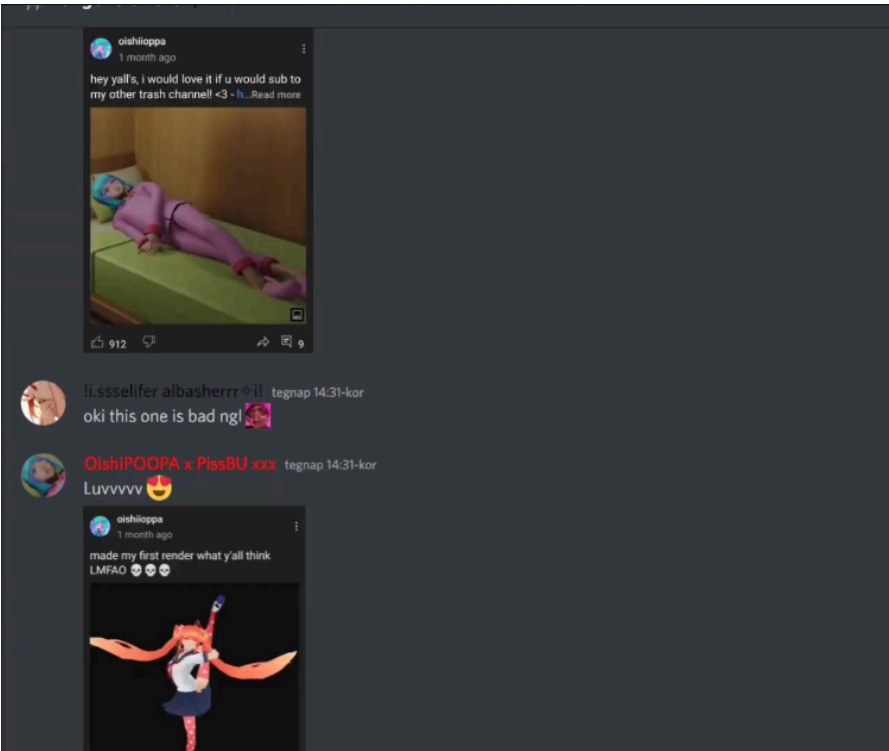

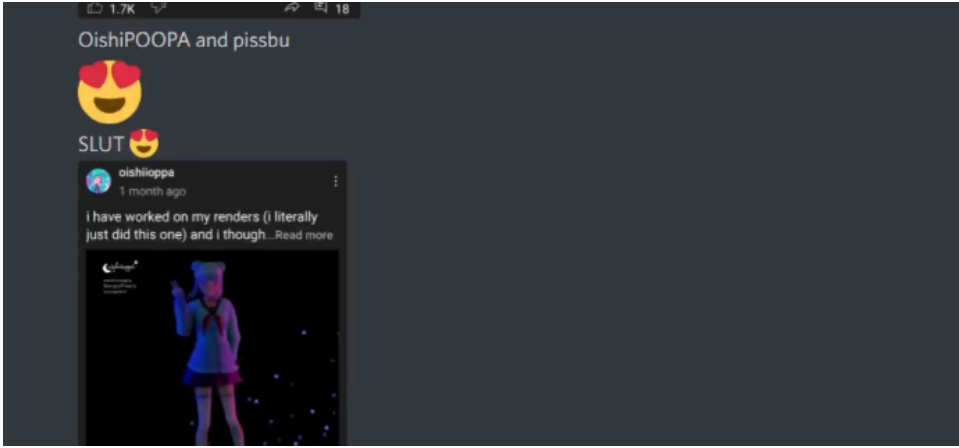

before the raid, on oishii's server, someone sent a list of purpys "i dont want my assets mixed with:" list. oishii and tibu made fun of it because they knew about her actions + her shit talking both of them + the fact that the list was so long. tibu told purpy to get a job and that "i bet she looks like a rat". how would an adult woman handle this? MAKE AN ANNOUNCEMENT ON HER SERVER SHITTING ON THEM. literally thats what happened. both oishii and tibu apologized for being rude though. anyways, back on the announcement. a certain person named "starrdev" at that time (later became erotica stans) who was one of purpys head mods posted the screenshots that you can see now and called them names.

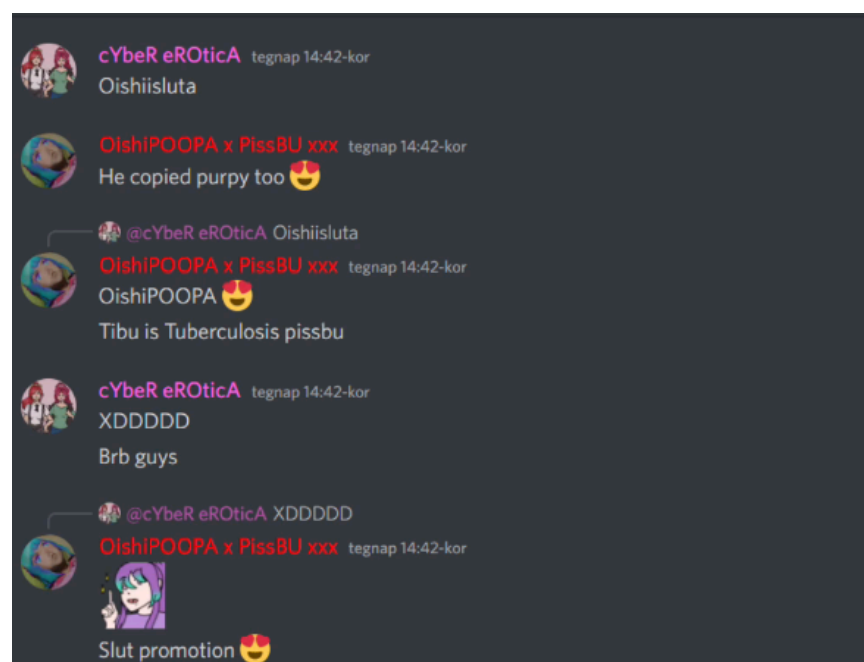

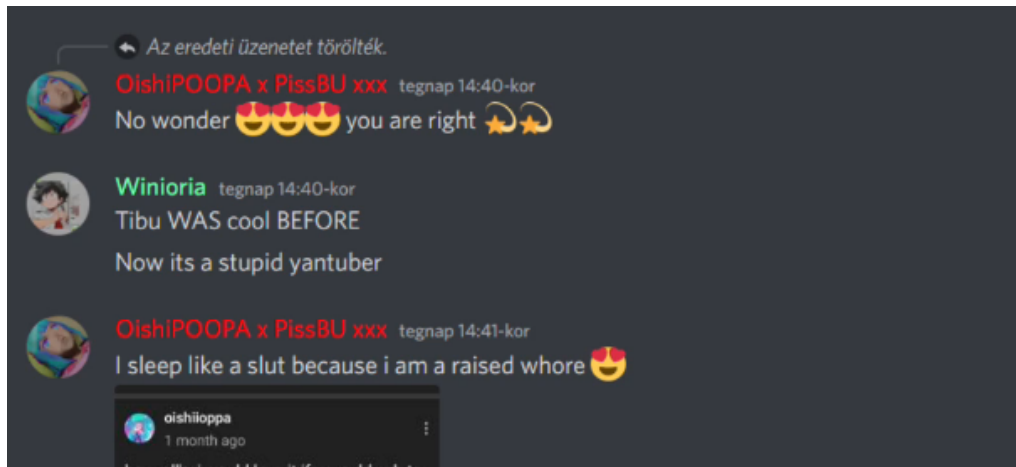

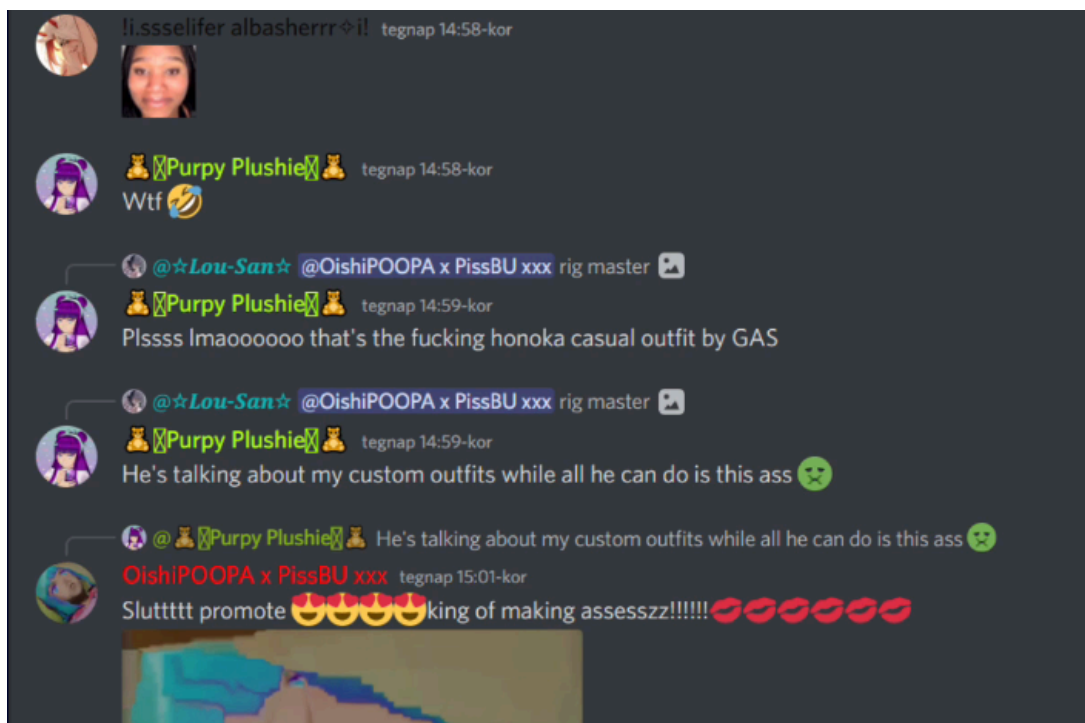

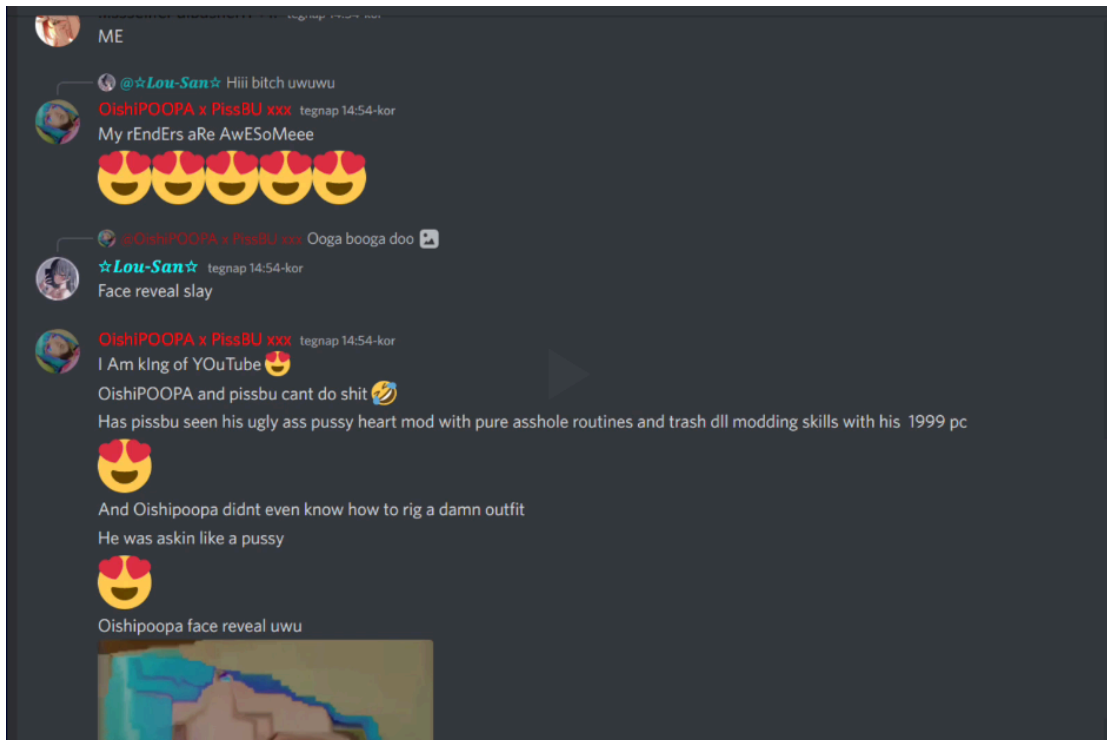

^ This was in the maiishi server (with oishii) ^

v And this was in Purparu's server v

If Oishii is actually 15 that's so weird because remember that Purparu is literally 24. Almost a decade older than him.

Not to mention that Tibu is also a minor, calling a minor a side slut is disgusting, considering it's coming from an adult woman.

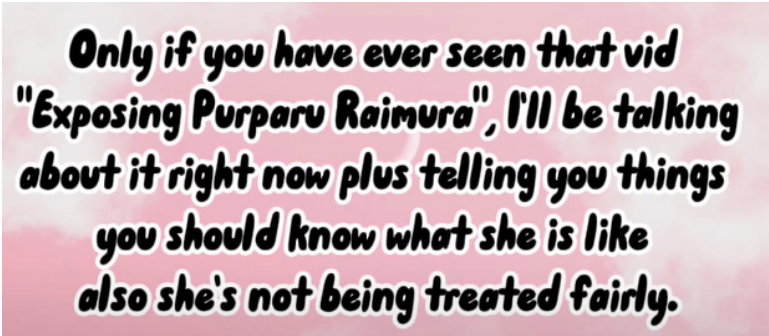

The video that' in question here cannot be found anymore, at least I could not find it.

In response however, one of Purpy's friends made a video about the "truth."

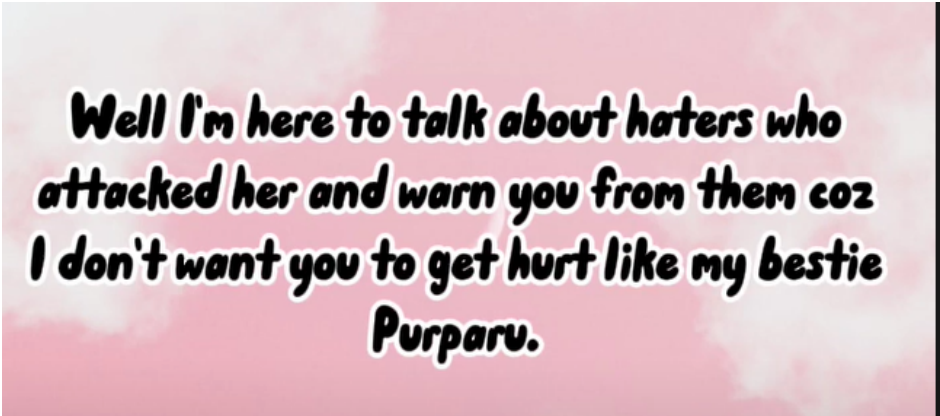

It can be found here: <https://youtu.be/h5jiLDZgKWU>. In case it get's taken down, I'll attach screenshots:

**Hey guys! Today I'll be talking
about a youtuber
Cosmic Purparu
Raimura
who has been bullied
by some of her haters with a video.**

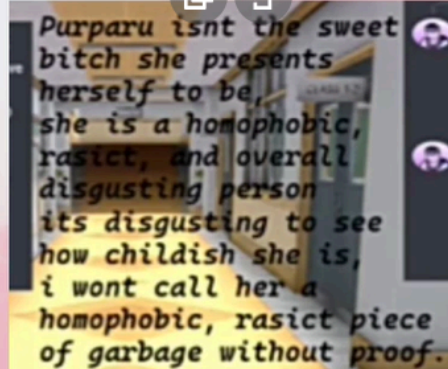

**Only if you have ever seen that vid
"Exposing Purparu Raimura", I'll be talking
about it right now plus telling you things
you should know what she is like
also she's not being treated fairly.**

**Well I'm here to talk about haters who
attacked her and warn you from them coz
I don't want you to get hurt like my bestie
Purparu.**

She's a very kind and sweet person and of course I do know her for 2 years ever since we met. She'll nvr harm you only if you did coz it's not good to betray and befriend someone like that.

Well I'll try my best to correct the things from the vid of her being attacked.

A screenshot of a video player interface. At the top, there are two circular icons: one with a square and an arrow pointing out, and another with a right-pointing arrow. Below these is a text overlay with a yellow highlight. The text reads: "Purparu isnt the sweet bitch she presents herself to be, she is a homophobic, rasict, and overall disgusting person its disgusting to see how childish she is, i wont call her a homophobic, rasict piece of garbage without proof." The background of the video is a pinkish-red gradient.

Purparu isnt the sweet bitch she presents herself to be, she is a homophobic, rasict, and overall disgusting person its disgusting to see how childish she is, i wont call her a homophobic, rasict piece of garbage without proof.

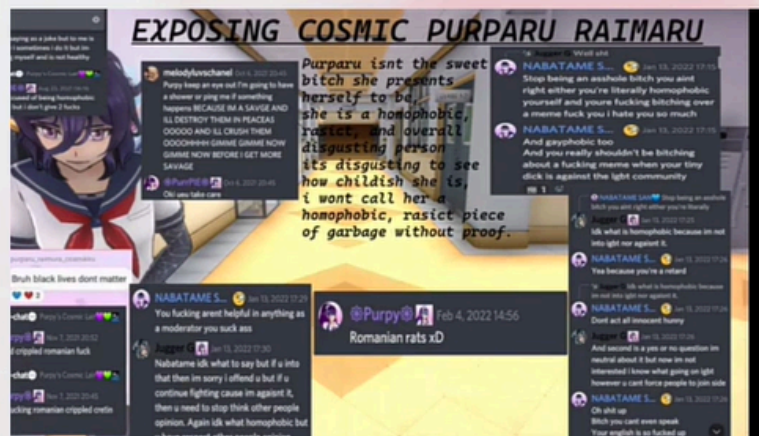

So here, as you can see this vid. "Exposing Purparu Raimura", it is trying to bully her anyways. It's not fair telling ppl that Purparu is a bad person just proof coz is useless resisting it.

1:47

**From what you can see the previous part,
it's really annoying to have haters especially
if you use up all your free time bullying ppl.
Don't you all haters have a life?**

**You guys spending all your free time
making a full video just to bully
and attack Purparu?**

**Guys that's enough!
Purparu is really a good person and a great
friend towards me. She doesn't deserve any of this
and being treated unfairly. She's never like that
for 2 years since she didn't bother anyone
No one is alr talking about the old and
useless drama that happened 2 years ago.
I do also know her very well ever since
I first met her.**

**So as you can see that the video the hater make
it's trying to bully Purparu. She doesn't deserve it
and we all should know that.**

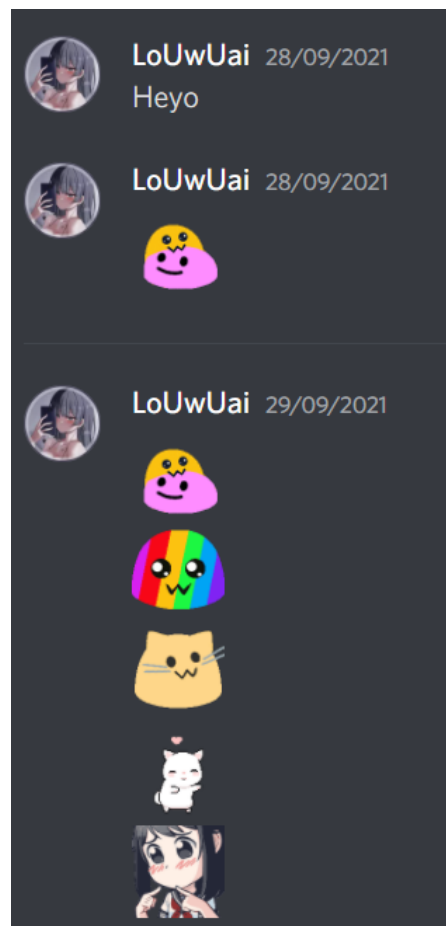

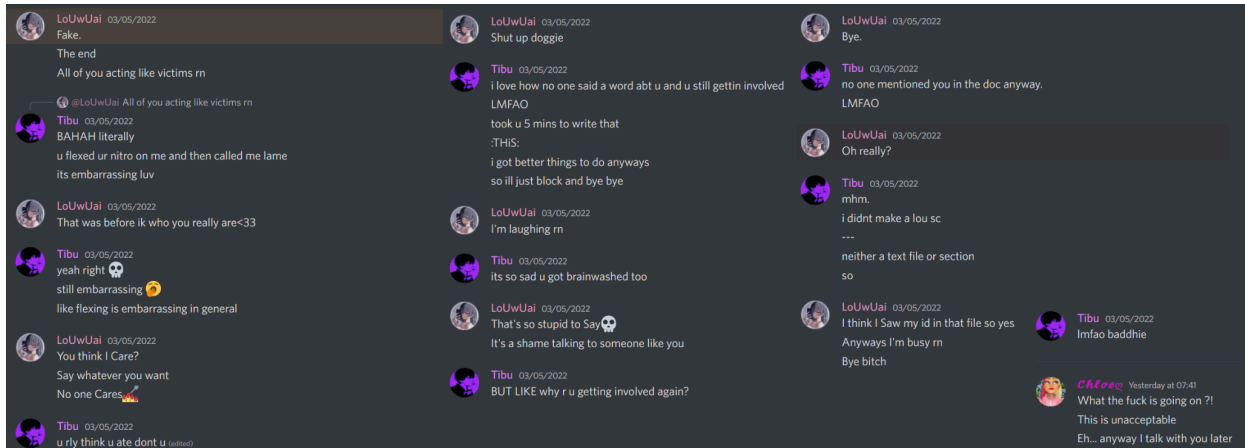

**And you haters, if you simply don't like her profile
then it's fine.**

**You can just unsubscribe it or the best,
you're always welcome to block her profile.
Don't be a bully or purely tell your friends to
report her bcs of her content.
Reporting won't do anything anyways
since her content is not wrong.
(Only of you have seen it)**

**Until I see that Purparu has done something
wrong, I will stand by her. But once again, she
hasn't done anything wrong. And the expose video
of her is subjective.**

+An exchange between Tibu and Lou (one of Purparu's moderators)

+Oishioppa's post after the raid:

The original post could not be found, I do have the content of it:

i'm taking a break from this community. cut long story short, i don't want to have to expose my self to constant toxicity to keep my name out there. if u want a full explanation, please see the info below

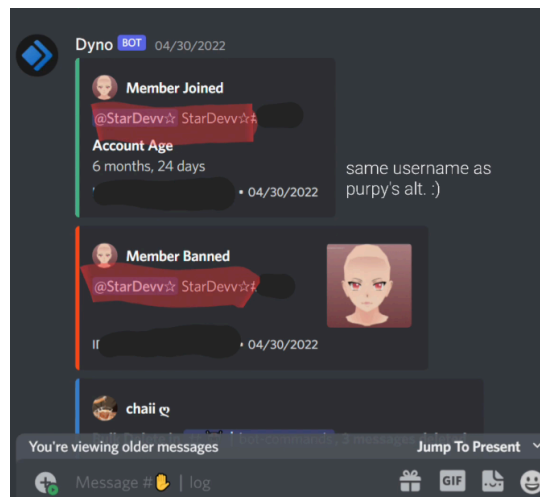

saturday morning at 5am, maishii (my discord server shared with my friend mai) got raided by a few poeple, i will not share their names but people on there will know. they sent shit ranging from slurs, porn, gore (serverd body parts and intestines) spammed me and my friend tibu and a lot more. eventually i woke up from the mass amount of pings i was getting, and banned them. i was generally scared because i have never seen something so disgusting in my life. i brushed it over and thought it wouldn't happen again.

fast forward to this morning where i woke up from a bunch of screen shots from a certain someone talking about me in a certain server. they were trashing on me, tibu, my renders, my videos and so on. disgusting language. they were making fun on how mai was my (girlfriend) like bro, i'm 15 let me live my life. and how mai was (tibus mum) that's a inside joke so u woukdnt get it. they also were talking about how i copy peoples content. first of all, tutorials are world wide. u cannot "copy a tutorial because it's a way to do something" like the reason i made MY tutorial is because YOURS didn't work. they made fun of my oc. i don't care what u have to say, yes i use a YanHair. so do a lot of people. i'm not ashamed i'm happy with my oc. they were also saying how tibu is my dog whish is disgusting. i value my friendship with tibu weather he has less or more subs than me. if you picks ur friends based on their popularity, ur so wrong. lastly they were making fun of me because i'm british. that's more personal because i can't control my ethnicity. i am proud to be british, and i like my accent. if you don't, then don't watch my videos. i cannot change those.

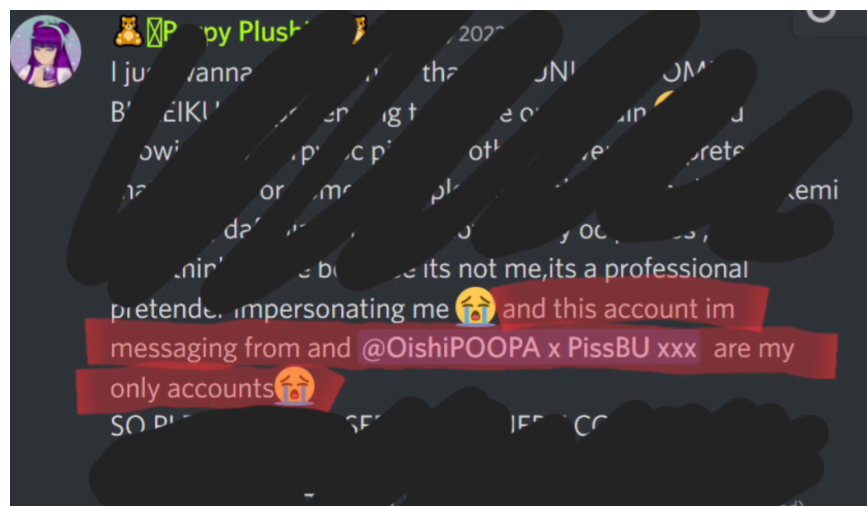

eventually a screenshot appeared that these people were involved in the raid, and basically planned it. this is utterly disgusting, because i viewed the youtuber as a friend before the drama we had, even if they didn't view me as one. the fact that this person would spam gore, calling me the n word, and sending porn in my server is plain out wrong. the worst part is this person has a history of destroying people on the internet. and i have concrete proof of that, that i will not share. it's sad things had to go this far. i agree i have messed up in the past, i have said some nasty things to people and i can be rude but i would never attack a range of minors. yes, rumours of this person is they r an adult and they have a job, they also know i am a minor. the fact an adult would do that is so fucking disgusting. especially when u as advitise your channel to be a happy positive place when you are a bully.

if this wishes to continue, i will make a video about this, because i want it to stop. if i have hurt you, im sorry. and i am wishing to contact whoever is behind this hrassment to apologise on my part and come to a mutual agreement to stop harassing one another. i really don't like seeing my friends get attacked because beef you have with ME pls don't bring them into this they have done nothing wrong. bottom line is, i'm leaving for a while. i have better places to be and better things to do then watch people destroy me and my friends online. i have left all yan sim discord servers, so don't be offended if i left yours it's nothing personal. i remain on maishii and chaii because i respect my friends. please don't harrass on the internet it's not worth it."

It Seems So Sinful

This is similar to Oishii's situation. Formerly DropLikeConfetti, Sinful (if that's not what they go by I'm sorry) made an announcement that he doesn't want his assets mixed with Purparu's after finding out about what happened with Oishi. And just like last time, Purparu felt so offended that she and her friends shit-talked him in the announcements channel.

 @   Lmfao he calls that "Assets" 🤔 who tf gonna use this bitch's ugly ass MMD and GAS models 🗨️

 don't mix my **assets** with Purpy's member....
 wow real edgy my guy

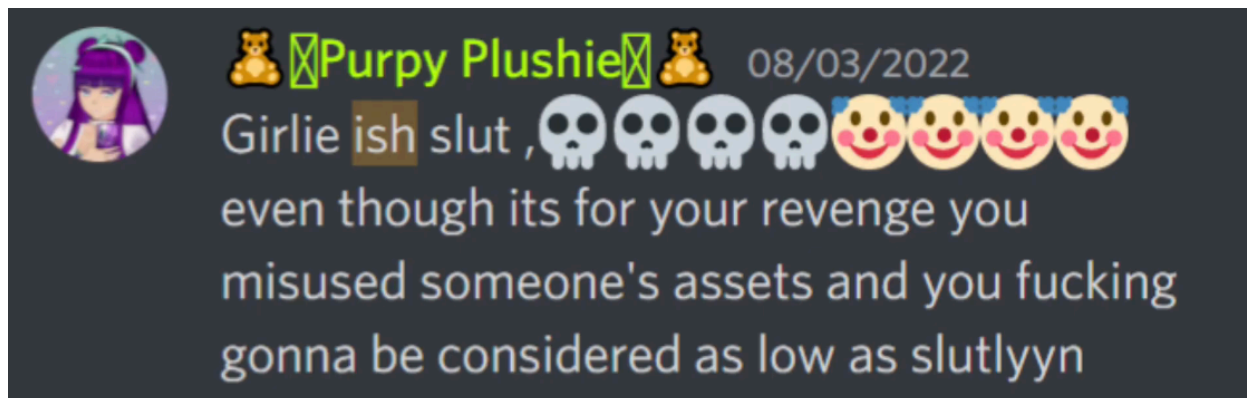

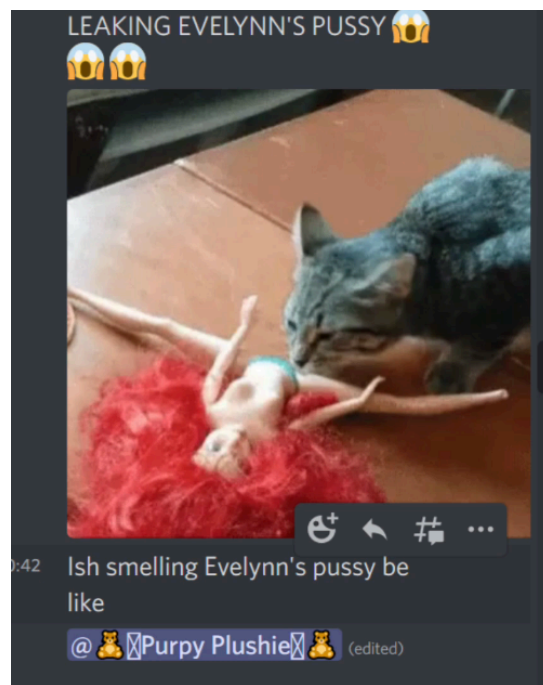

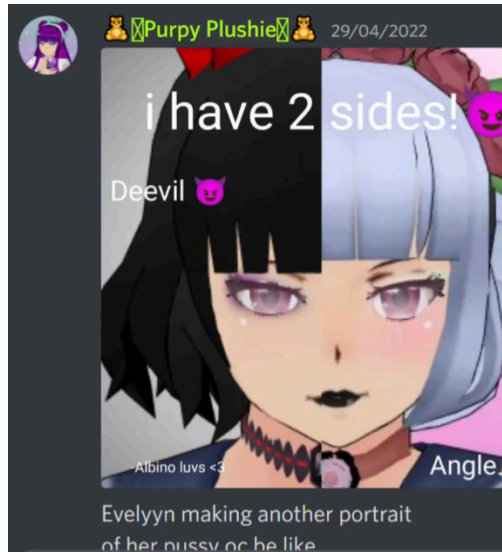

Ish

Ish is/was part of the Yandere Simulator modding community, they're apparently 13 years old.
Let's see how Purparu, the 24-year-old woman, and her friends, treat this 13 y/o.

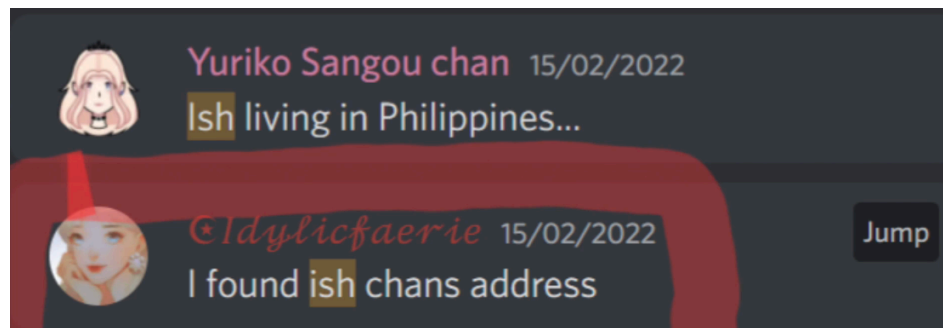

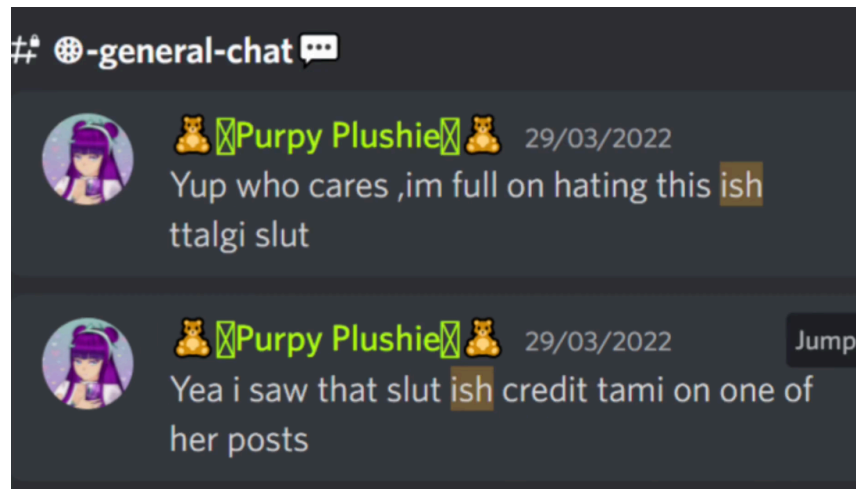

Okay, not a good start.

Alright, it's getting worse. Calling a 13 y/o a slut is really weird.

Ok it's starting to get a little illegal here maybe we should sto-

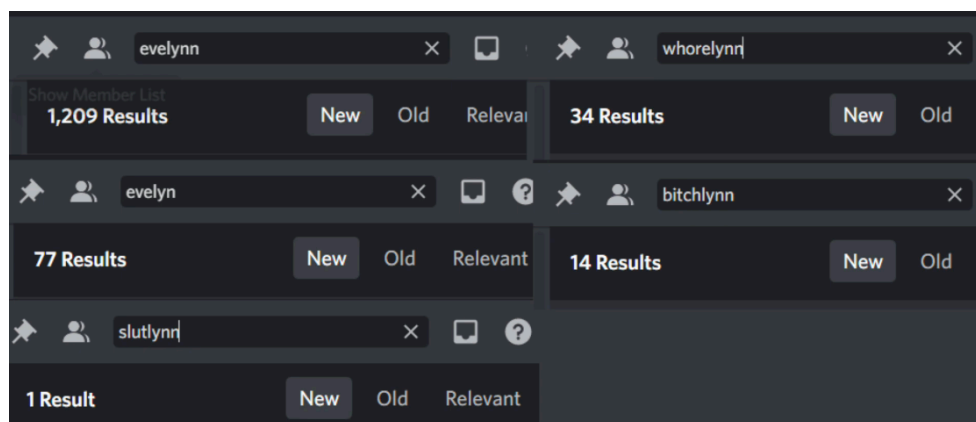

Yeah. Let's just REALLY hope that's just a random IP

Evelynn

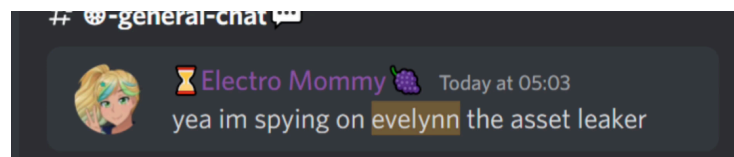

This is a situation where both parties are in the wrong to some degree. Evelynn is an underaged asset leaker, as I mentioned before. I don't support her and I never did, however the way Purparu talks about her is unacceptable.

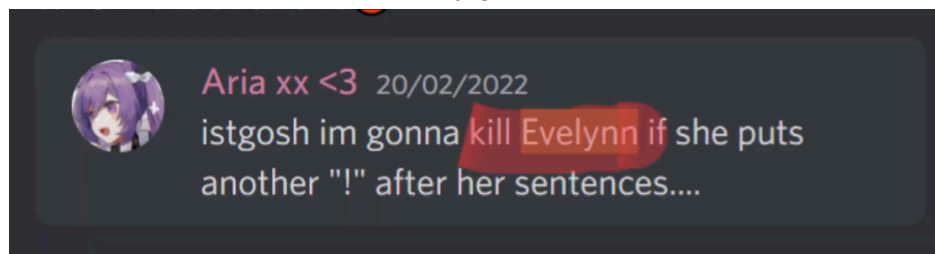

Calling a minor a sex worker, great

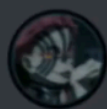

wait that's actually so insane how there's over 1.2k messages containing "evelynn" are people really this obsessed-

my god

The people in Purparu's server are so obsessed with this asset leaker that there's a literal role just for her

Someone crazy like **whorelynn** and bitch chan sitting on a toilet with their stinking knees not taking a bath just stealing and leaking assets like they think they are a slay when they're not they're just big dum mother fucking whores who thinks they are slay bitches

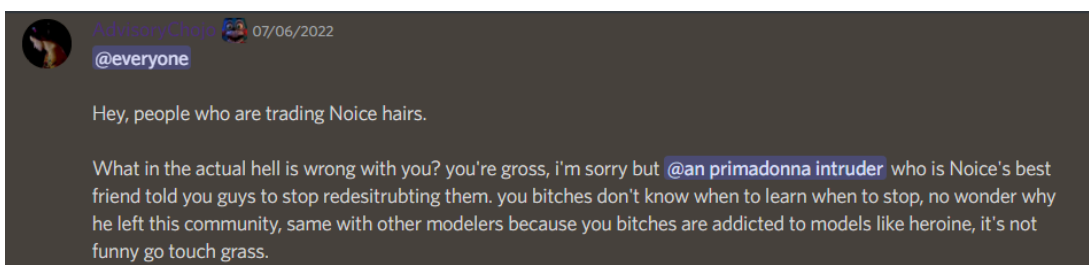

More Lying

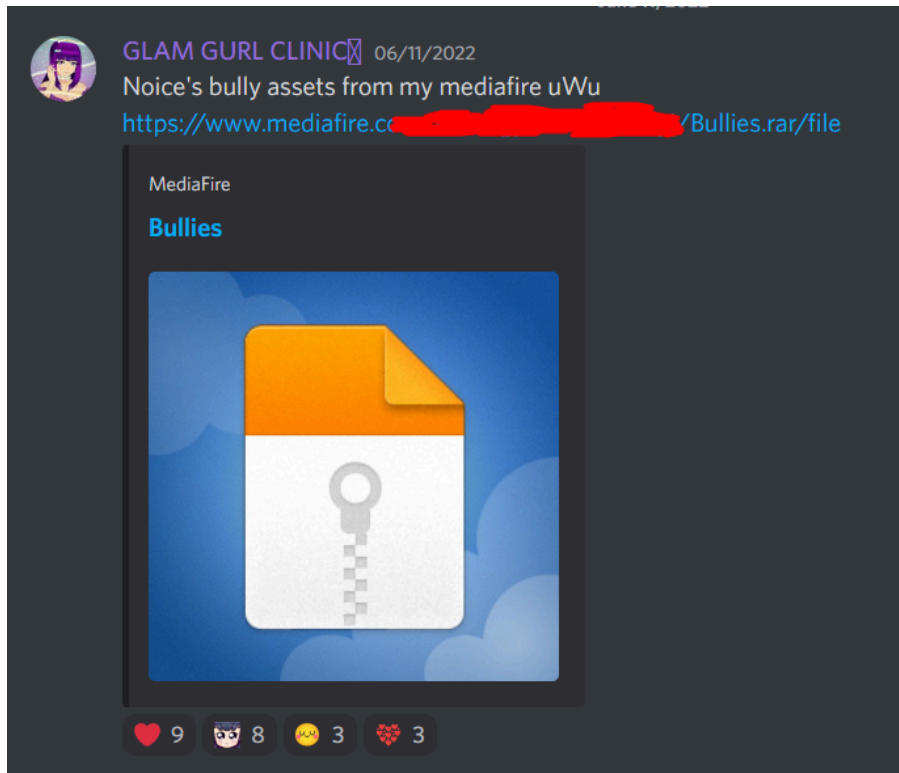

Also I don't know where this fits, but it's known that Noice, despite leaving the community, doesn't want his assets redistributed.

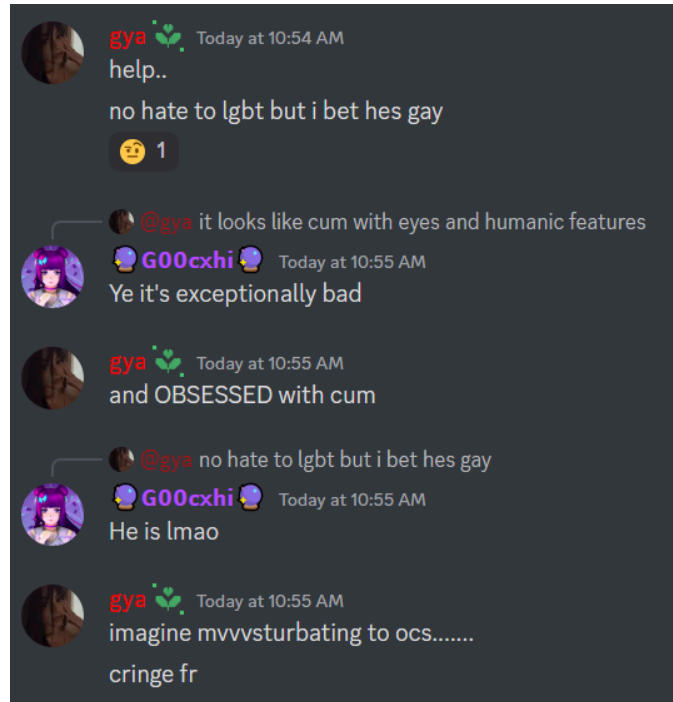

She did it anyway.

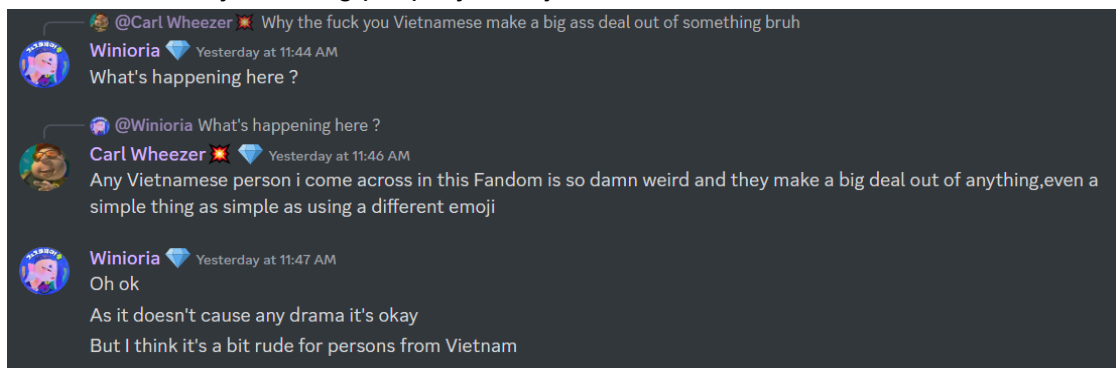

It may have been told later that Noice now allows redistribution, but that wasn't the case back then. Back then, this was wrong and the fact that it's allowed now doesn't change that.

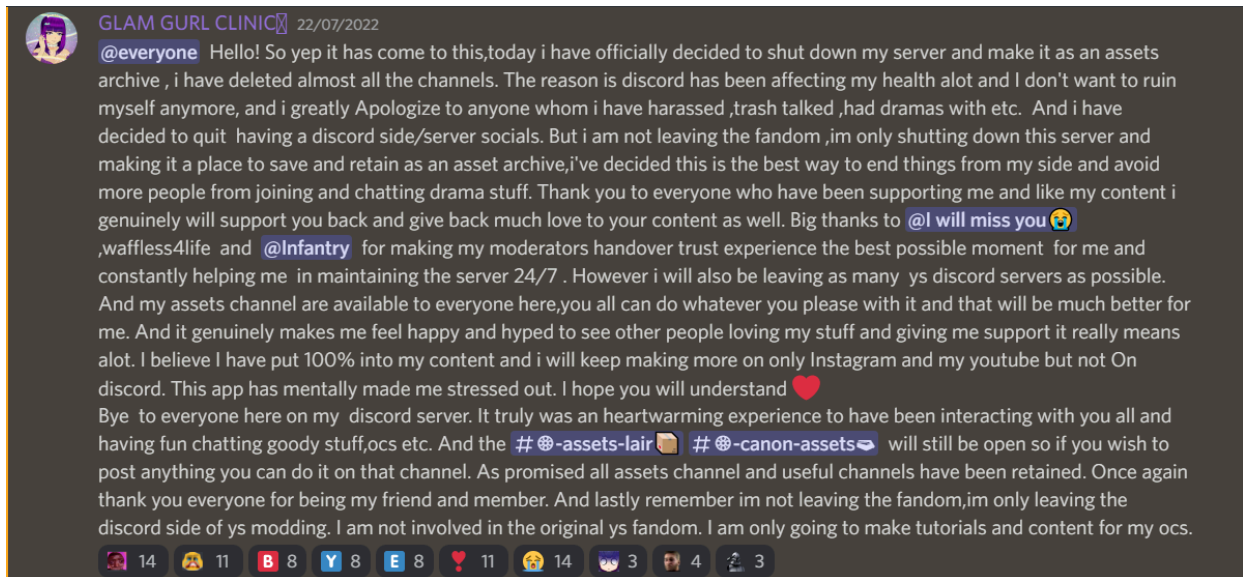

Also this is a bit sus

just letting people just say stuff like this on her server

Her old server got shut down and this was the farewell message, which is just damage control

You can see that she only briefly apologized to the people who she's wronged. It's obvious it's not sincere at all and was only to save the last of her reputation. She already banned and blocked everyone she owes an apology to, none of her victims would even see this "apology"

If she WAS sincere, she would have at least tried to contact each individual and personally apologized to all of them

Even then, nobody is required to forgive her. I'm certainly not forgiving her. As someone almost a decade older than me, she bullied me to no end, and I'm not even her youngest victim. It's disgusting and there's no reversing what she's done to these kids. She *has* caused true harm.
