AI tools list from the free presentation
Come to one of the paid classes on GPT's, Content Creation and Personal Branding to really get all the benefits from these AI tools. Each of these classes is only $35.00. Go to EZAIStudio.com and check the classes page. Have Fun with these AI tools.

Follow the weekly updates on EZAIstudio to get insights on new and changing technology.

The GPTs try them all. Just ask them anything. You can take a difficult subject and just keep asking them questions. I spent an hour the other day with ChatGPT designing a business plan. Most of these will also do art images.

_____

Art Generators: Create Stunning Images

Most of these platforms offer free credits so you can experiment and create digital art.
🛡️ **Parents, please note:** While these tools are powerful and inspiring, they should always be used with guidance. Even platforms with restrictions can sometimes produce content that isn't appropriate for children. Engage with your child during exploration to ensure a safe, creative, and fun experience.
