Re: Basketball Programs

On Friday afternoon, after discovering a revised number of potential varsity girls from WAJ, now at 5, I directed our AD to inform WAJ that we could not support that number of athletes and, therefore, could not proceed with a combining of our Girls' program but still wished to continue to combine our Boys Varsity and JV teams. This morning, the WAJ athletic department informed our Athletic Department that WAJ was no longer interested in combining our boys' team at the Varsity or JV levels. That means both Boys' and Girls' programs will operate as only HTC programs.

Presently, we are discussing with our Boys Head Coach, Athletic Director, and myself what direction we will pursue with our Boys' program. We are not seeking any other paths for our Girls program other than proceeding as normal. When we have more information about the boys' program, we will let you know.

Thank you,

Pat
