

Pinup Casino, Brazil's Jordo bicho-inspired game introduces

Leading the trend in the online gaming environment, Pinup Casino is excited to showcase games inspired by the essence and appeal of Brazil's classic lottery, Jodo Bicho, on its exclusive iGaming platform. These moves herald an innovative approach by blending traditional and modern game dynamics.

Beginning in the 19th century, Jodo Bicho was part of Brazil's cultural tapestry. Developed by iMoon and offered exclusively in PIN-UP Casino, the game allows players to experience the essence of guessing the animals behind the screen, but offers a new twist that incorporates both animals and numbers.

Created in collaboration with iMoon, this fresh interpretation of the traditional game works with Brazilian experts to ensure a real yet modern experience. Gamers can get into thrills from just 1 Real (\$0.2) while enjoying 98% of the promising RTP. For those who want to make sure their fate is decided, the game offers random animal selection.

Katerina, head of gaming at PIN-UP Casino, shared an insight into the launch: "Previous attempts to digitize the appeal of the high-altitude bicho have been met with challenges. Deeply impressed with Brazil's legitimacy, his collaboration with iMoon has created a bridge between the legacy of the game and the innovative aspects of today's game. Players can now participate in this newly created classic, starting from a normal 1 BRL."

Affiliates that work with PIN-UP Casino and focus on Brazilian traffic have a lot to celebrate. This innovative game increases the appeal of the platform to Brazilian enthusiasts, potentially improving user engagement and conversion rates. Affiliates are nostalgic, but you can expect to take advantage of new game add-ons to enhance traction. [온라인카지노](#)

PIN-UP Casino envisions the game reverberating across borders across Brazil. While the core concept pays homage to Brazilian traditions, markets such as India and Turkiye can be hard to resist.
