## Pooling ideology:

- Equal spread:
  - BPM
  - Version
- Qualifier specific:
  - Good spread of difficulties from matches
- Match specific:
  - Size-7 should allow good variety of picks even with same pools
  - Difficulties that people should be able to handle reasonably

## Extra details:

- The tournament organizer must be present for each match and will act as referee.
- Restarts will only be granted by the present tournament organizer (usually technological issues or other emergencies).
- Any customization/settings are allowed as long as they're set before the game timer runs out. If time expires, players must use what's set for that chart.

## Prizes:

- Provided by Okashi (more details later)
