The book was discovered in a secret room behind Geoffrey's chambers by Handy who immediately brought it to Johan. Who then promptly burned it in front of a stupified Handy. This book would lead to Geoffrey's downfall as it united the nobles to push for Johan to reclaim his title as heir of Griffonia. After Shortbeak was defeated, Geoffrey was confined to his chambers before he used Old Magic to kill his guards and make his way undetected to his father's chamber. After slitting his throat he ambushed Handy, stabbing him in the side. Handy returned the favor, thrusting the blade between Geoffrey's shoulder blades. Geoffrey made his escape by a secret passage only he knew of at the top of Skymount but was attacked by Handy who followed the smell of his blood. “Jezeer and his rich colony of merchant changelings. No ling knew how they always had so much emotional essence on hoof at any one time. It was far more than any changeling could store at once. Typically, an industrious changeling would infiltrate a pony village and suck up enough love from a lover and those that cared for them in one day that could feed a sidhe of ten changelings for a week if it was rationed. That was on top of physical food. One of Jezeer's changelings could store enough to feed sixty. They made their business traveling across the continent, connecting the colonies and independent sidhes, trading, making them extraordinarily wealthy, influential... and dangerous. Jezeer's infiltrators were feared more than any others, precisely because it was foolish to turn away a willing merchant.”
