

ART PERMISSIONS FOR SONAS

Essentially, this is a document that will elaborate on what we are comfortable with when it comes to what people draw/commission our Sonas doing, both in SFW and NSFW settings. I will try to include all of them and be as detailed as possible, but some things may be missed.

When it comes to kinks: Dominant is if the character is doing it, Submissive is if it is being done to the character. If it is not specified, assume they can swing either role. If the kink is **highlighted**, that is the preference for that sona/character and we are more likely to say yes. Due note that we are not willing to pair them up with minor OCs for anything kink/sex related, even if it's SFW to you, the stuff listed here are kinks to us.

Note: These things are not allowed for ANY of them, just to save people the time:

- ☆ABDL
- ☆Agere (when paired with ANY kink listed below, even if it's in a SFW manner to you.)
- ☆Drugs
- ☆Scat/Watersports/Farting/Burping
- ☆Sex/Sexual actions (involving genitals) with other people's OCs

Note #2: If you wish to draw/commission a kink that we do not care for with these sonas, we will allow it but with a 40% fee. Kinks with this special charge will be marked with a ♠.

Lucifer

Variations of Luci:

Lucifer ♂ (*Always* Dom): The default male version. Pretty chill, over confident bartender that occasionally tricks people or messes with them in his free time (Usually deadly pranks or scares). Can be bonded with quickly if you spam him with Paccari. If he likes you, he will flirt with you (Only flirts with 4 people so far and one is himself.) However, if annoyed or pissed off, he will attempt murder without a second thought. He also steals souls and blood.

Lucifer ♀ (*Always* Sub): Female version of Lucifer ♂. Less confident than the male counterpart, and filled with anxiety. Easier to fluster if you know how.

Lucia: Femdom Sadistic Queen. Radiates tyrant ruler energy. Will probably murder/torture you and steal your soul upon meeting you or make you a servant/slave, but not in the kinky way.

Luci: Just the male version in another form. Giant Dragon can also be a long snake. Vore times yum yum. Gender neutral. Usually only in vore art.

Variations of Blackberry:
[Image whenever we can tbh]

☆ Foxy boi: 400lbs giant fluffy Scottish fox who cant handle a drink. Bit of a potty mouth though (what scottish person isn't though?). Gets excited easily, good singer (into musicals) and excellent baker with a bakery (though he'll eat most of his merch) Can play the sax too! Is a huge nerd and can build stuff or explain to you why space exists. Is loyal to his bunnies, only his bunnies.

For Agere: He doesn't talk much. Mostly yips. Bc fox kit, duh. His main focus is sleeping, hunting wabbits or playing with an easy bake oven honestly. When he does talk it's usually because he wants something he cant simply screech for. (Again, please do not make diapers or any fetish the focus when using this one. We are very likely to deny commissions with him honestly.)

☆Inflation (Body): Sure? Can swing either way. (18+ OCs only)

☆Weight Gain: He is literally a 400LBS fox. Always roundy, like a chubby. As if you were inflating him with pump, not flabby with layers. (18+ OCs only)
