

Zara Larsson Gets HACKED

Being in the spotlight and being a famous entertainer comes with its privileges but also has its drawbacks as Badass Barbie Middleweight Zara Larsson recently found out. Taking personal images on your phone should be secure and one shouldn't have to worry about any of the images going public. Unfortunately these days that's not the case and most celebrities know better and either take inappropriate images on a burner or a personal camera.

When Zara found out that photos had been hacked from her phone, she completely freaked out. Not only were some of the personal nudes embarrassing but Zara was already in hot water with Badass Barbie Stable Leader **Kylie Jenner** for getting into repeated catfights with fellow Middleweight **Zendaya Coleman**.

Posing nude is nothing new for the Swedish pop star. Topless bathing is common in the Nordic states and taking one's bikini top off on a crowded beach in Stockholm is a common sight. Zara has even gone as far as posting some classy naked pics of herself on her Instagram account.

After calming down, Zara decided to get in front of the controversy and immediately let her fans know that her phone was hacked and that those responsible would suffer. She set up a meeting with Kylie to go over her options and hopefully keep her job on the Barbies. Zara slowly made her way to Kylie's office unsure of what might happen.

Kylie's secretary buzzed her and Zara entered the plush office.

Kylie: Zara, have a seat. This isn't about Zendaya, is it? I'm not about to trade her.

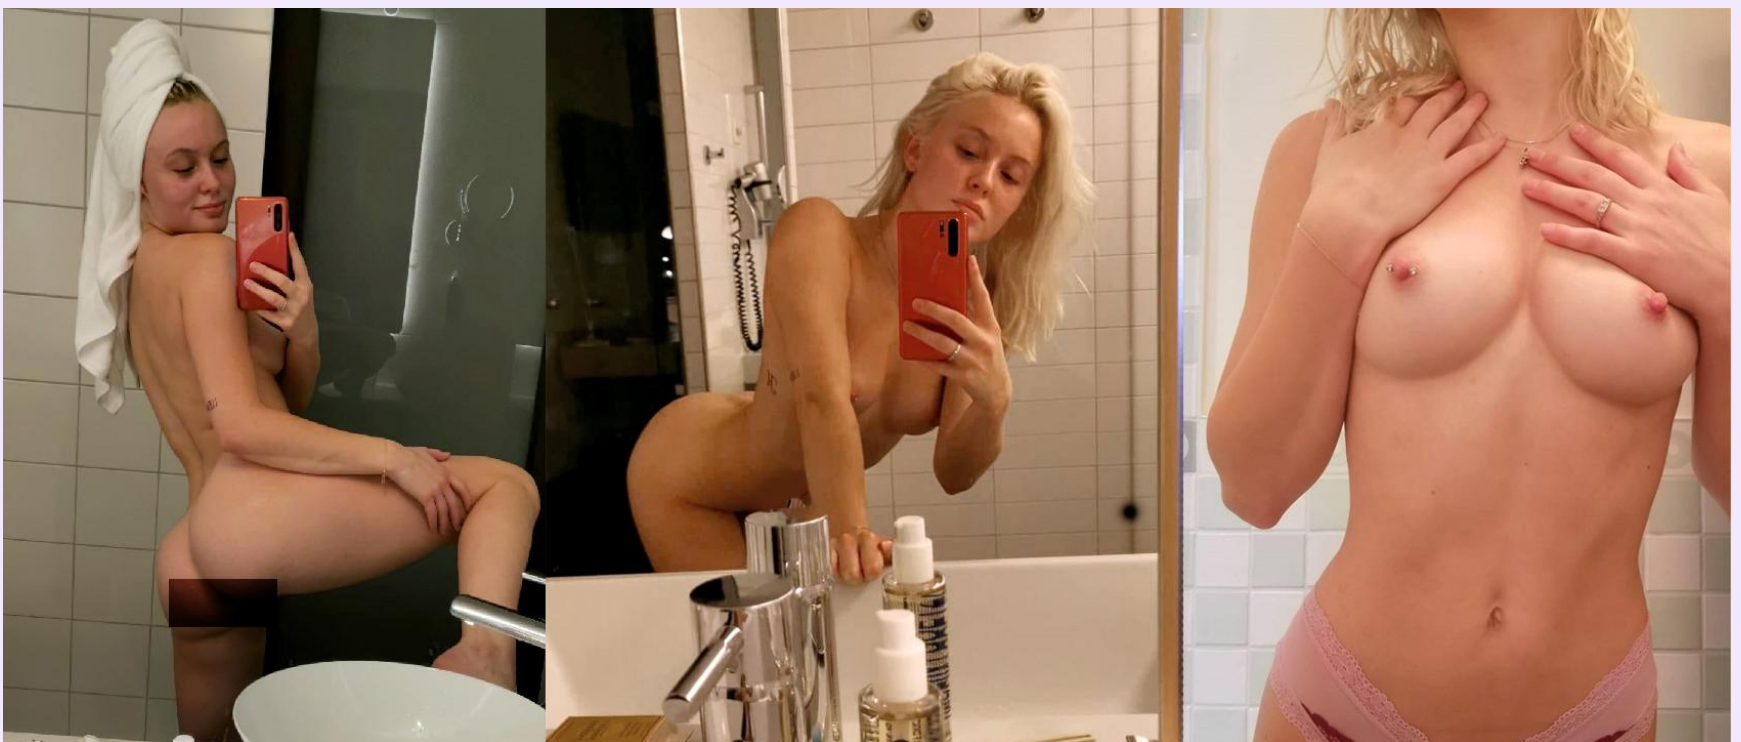

Zara: No, this is much worse. My phone was hacked and some of my personal photos are being spread all over the web.

Kylie: Are they trending?

Zara: Trending? I don't know but they are all over and now everyone is going to think I'm a slut.

Kylie opened her laptop and in a few seconds was able to find the pics Zara was so concerned about.

Kylie: I don't see anything wrong with a few playful nudes. I love the lighting and the angles are spot on.

As Kylie kept searching she grew silent.

Kylie: Oohh.

Kylie: Eww.

Kylie: Oh my. You really seem to be enjoying yourself. I can see why you're so upset. You had these on your phone? On the cloud?

Kylie slowly closed her laptop.

Kylie: You should have known better.

Zara: What am I going to do?

Kylie: This is bad for our image. Really bad. I can expect something like this from someone over at **Celebrity Wrestling Federation** or **Happy Hour Fight Club** but the Badass Barbies have an image to uphold.

Zara: But what about your sister? **Kendall** rode around buck naked on a horse and showed everything. At least I covered up.

Kylie: Kendall got 6 million dollars for that shoot. I take it someone else sold your photos and you received nothing.

Zara: You think they sold my pics?

Kylie; Of course, why else would they have hacked you.

Zara: Didn't **Ashley Benson** have her phone hacked? I remember seeing nude pics of her.

Kylie: She did but Ashley wasn't stupid enough to store pics pleasuring herself.

Zara: OMG! I wasn't pleasuring myself. They were supposed to be for my boyfriend.

Kylie: I'm not here to judge you but you have to admit you made a very careless mistake.

Zara: But I was hacked! It's not like **Bella Thorne** where she charges \$40 a month on **OnlyFans**.

Kylie: Quite trying to blame your teammates. You were the one who fucked up, not them. And by the way, Bella has yet to post any nudes and has made over \$20 million from idiots who keep throwing money at her. Now that's a brilliant business decision.

Zara: And what about **Dove Cameron**?

Kylie: I think you should stop before you say something you'll regret.

Zara: It's not fair! First you take **Zendaya Coleman's** side then you . . .

Kylie: Side? I'm not taking anyone's side, Zara.

Zara: Yeah, right. You protect her like you do your little slut Dove.

Kylie: I beg your pardon. I don't show favorites and you know that.

Zara: But you do. You do nothing while Zendaya deliberately injures her teammates and you let Dove act like a little whore. And **Kristen Stewart** goes aruond with slaves and I’m giving the stable a bad name?

Kylie: Get a hold of yourself, Zara.

Zara: And you know that **Vanessa Hudgens** is a witch. She’s a fucking witch, Kylie and she’s putting spells on everyone.

Kylie: Now you’ve gone too far. Vanessa likes to play dress up but she’s not a witch and she’s not putting spells on anyone.

Zara: You’re so out of touch.

Kylie: You need to calm down, Zara.

Zara: Maybe Vanessa has put a spell on you!

Kylie: If Vanessa is a witch then how come she has lost 5 of her last 6 fights? You would think that she would put a spell on her opponents. Now I want you to calm down.

Zara: Don’t tell me to calm down! I just got hacked! I came to you because I thought you would feel a little compassion for me but all you’re worried about is your stupid reputation and how it will make this pathetic stable look.

Kylie: Pathetic! Now we’re pathetic?

Zara: I didn’t mean it like that.

Kylie: I’ll reach out and see if I can make a trade but you’ve fought your last fight for the Badass Barbies.
