

Vælg Systems Manager/Apps

Her kan du fjerne eller tilføje tags til de apps du har markeret.

Under **Scope** kan du se hvordan en app tildeles en iPad.

- **No devices:** App'en er ikke tildelt nogen iPad
- **All devices:** App'en tildeles alle enheder (anbefales ikke)
- **with ANY of the following tags:** App'en er tildelt til de enheder der har det/de tags der er synlige under kolonnen **Tags**.

Benyt ikke **Add app**. Hent i stedet licenser i **Apple School Manager** og hent dem under **Import**.
