Abstract

The ICLAAC 2026 Proceedings article template has many predefined paragraph styles for you to use/apply as you write your paper. To format your abstract, use the Microsoft Word template style: [Abstract]. Each paper must include an abstract. Begin the abstract with the title "Abstract" in bold font, followed by a paragraph with normal 10-point font. Do not cite references in the abstract. Please do not place or cite tables and figures in the abstract. The abstract should be between 150–300 words, single spacing. It must clearly summarize the research background, objectives, methods, main findings, and conclusions (recommendation). Write in a single paragraph without citations.

Keywords: *Keywords are your own designated keywords separated by commas (",").* Keyword 1, Keyword 2, Keyword 3, Keyword 4, Keyword 5.

1. INTRODUCTION

Introduction includes background, theoretical basis, problems, problem solving plans and research objectives. The introduction should also contain a **Literature Review** The introduction is written using Cambria letters, size 10, space 1 and line spacing 1 cm. Text is typed in a print area with *margins* from top, bottom, left, right made **2.5cm**. A4 paper size, *8.27-inch-wide, 11.69 inch high*. Layout: *0.5-inch header, 0.5-inch footer*. The text *does not need* to be page numbered. (Dharma, 2019; Rambe, 2018). We use the following heading and sub-headings

1. HEADING (Cambria, UPPERCASE, bold, 12 pts)

1.1 Sub-Heading 1 (Cambria, UPPERCASE first letters only, bold, 10 pts)

1.1.1 Sub-Heading 2 (Cambria, Italic, UPPERCASE first letters only, bold, 10 pts)

2. LITERATURE REVIEW

The literature review should review the recent literature, including both theoretical and empirical reviews (previous studies' findings). Please review the variables, concepts, terms, etc. that are related to the research. Avoid using other than sub-heading 2.

2.1 Article Type

Articles are original articles of research results or review results from previous articles. Articles are written in English. The number of pages of articles between *10 - 12 pages* includes a list of references. The systematic writing of the research article consists of title, author's name, institution and correspondence address, abstract, keywords, abstract, keywords, introduction, methods, results and discussion, conclusions and suggestions, gratitude and reference list. (Dharma, 2019; Rambe, 2018). The systematic conceptual article writing (containing the results of the review) consists of the title, author's name, institution and correspondence address, abstract, keywords, abstract, keywords, introduction, core part, summary and list of references.

The title of the article is written using *16 size* Cambria letters, capitalized, bold, Align Right, consisting of a maximum of *15 words* and describing the contents of the manuscript. The author's name is written using the *size 12* letters *Cambria* not accompanied by a title, the first name is abbreviated while the last name (surname) is not abbreviated. Names of authors from different agencies are marked using a superscript behind the name. Manuscripts are presented narratively (without numbering in front of subtitles) and presentation in the form of subtitles is avoided. The formula is written separately not in the sentence and equipped with numbering on the right. The formula is written using Microsoft equation.

$$x + y = 2 \quad (1)$$

The picture is inserted in the *text box* and the *figure caption* is placed below the image. The caption of the image is numbered and the image must be referred to in the text. Captions begin with *uppercase* letters. Captions of images with more than one line are written using line spacing 1. The image is drawn with a line width of 1pt and should have good contrast quality.

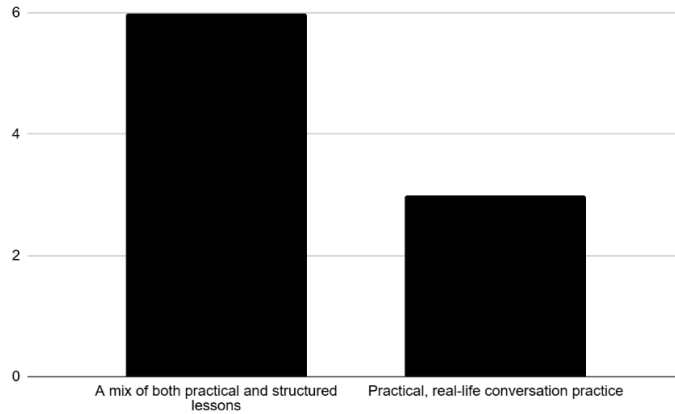

Figure 1. Learners' Learning Approach Expectations

The table is created with a line width of 1pt and the table caption is placed above the table. Information on tables consisting of more than 2 rows is written using 1 line spacing. The table lines are only horizontal lines while vertical lines are omitted. Example of how to write table 1.

Table 1. Student Learning Outcomes in Cycle 1

No	Names	Scores	Predicate
1	Budi	80	Completed
2	Rudi	70	Completed
3	Putu	70	Completed

3. METHOD

The research methods should include the research design, research setting, participants/population & sample, methods of data collection, instruments, and methods of data analysis. Please describe them in detail. Do not just describe theoretically, but describe them operationally.

4. RESULT AND DISCUSSION

4.1 Result

Results are the main part of scientific articles, containing: final results without data analysis process, hypothesis testing results. Results can be presented with tables or graphs, to clarify the results verbally. Please do not combine the results with the discussion. They should be in different sub-headings.

4.2 Discussion

Discussion is the most important part of the entire contents of scientific articles. The objectives of the discussion are: answering research problems, interpreting findings, integrating findings from research into existing sets of knowledge and composing new theories or modifying existing theories. Also write the implications drawn from the findings and discussion.

5. CONCLUSION

Contains conclusions and suggestions. Conclusions include answers to research questions. Suggestions refer to the results of the study and take the form of practical actions, mention to whom and for what advice is intended. Written in essay form, not numerical form.

ACKNOWLEDGEMENT

If any, thanks are addressed to official institutions or individuals who have provided funding or have made other contributions to the research. Acknowledgments are accompanied by a research contract number.

REFERENCES

The references consist of the author's name, year of publication, article title, city name and publishing institution. The reference list is sorted according to the first letter of the author's name (A-Z). The second word in the name agreed as a family name. Authors may follow the APA 7th Publication Manual to write references. All references referred to in the text must be written in the reference list. Preferred references are articles taken from the latest journals / publications no later than 5 years before article submission (paper submission). Example of how to write references:
