

Product: Take their money Ebook

SL: Get prospects to shower you with money

Are you mindlessly sending DM after DM to prospects?

Are you cold calling for hours, seeing no results?

Before I reveal to you the reason why your not able to land a client,

Let me ask you something,

If I was trying to sell you a marketing service BUT

- I had 0 testimonies

- No social proof

- I am an absolute nobody and you have never heard of me

Would you even consider **replying** to me?

Absolutely not

The reason why you get ignored by prospects is because in their eyes you are a stranger trying to take their money.

Now imagine this:

Instead of having to outreach to prospects they approach you **FIRST**

You get an extra flow income by putting in minimal effort

You become a well known figure in your area of work

My friends this is all possible using the power of content creation

You need to put yourself out there and build a audience,
