Appendix:**FORMAT REGULATIONS FOR CONFERENCE PROCEEDINGS PAPERS****Page 1 (Introduction)**

1. Author's name
2. Mentor / Supervisor
3. Affiliation
4. Contact information: Address, email, phone number
5. Title of the paper
6. Word count of the paper
7. Abstract: The abstract section must be written concisely in one paragraph (150 to 200 words), reflecting the main contents of the paper and clearly demonstrating the results, contributions, and new points of the paper.

From page 2 (Content)

8. Title: The article title should be no more than 20 words, reflecting the content of the article directly. The title must be in capital letters, bold, and centered on the page, for example:

THE RELATIONSHIP BETWEEN DIGITAL TRANSFORMATION AND INNOVATION CAPACITY

9. Abstract: The summary must be written in a short paragraph (150 to 200 words), reflecting the main contents of the article and clearly showing the results, contributions, and new points of the article.
10. Keywords: The author needs to provide 3-5 keywords of the article in alphabetical order, showing the characteristics of the article's topic

11. Article structure - must include 5 main sections:

1. **Introduction:** (i) the reason for conducting this research and the importance of the research topic; (ii) identifying the research problem; (iii) the main content that the article will focus on resolving.
2. **Literature review:** (i) presenting a clear overview of the research and related theoretical foundation; (ii) the theoretical or analytical framework used in the article; (iii) the author can choose qualitative or quantitative research methods, or both, depending on the approach they choose, in which they need to show the model and research hypotheses, as well as the data collection methods.
3. **Methodology**
4. **Results and discussion:** (i) interpreting and analyzing new findings; (ii) drawing the general relationship and connection between the author's research results and the findings of other studies.
5. **Conclusion:** depending on the research objective, in addition to theoretical implications, the article needs to have conclusions and provide recommendations for business managers and/or policy makers based on the research results.
6. **References:** The author only lists the sources cited in the article, following APA standard.

Presentation technique:

1. The article should be presented in English using MS Word format, A4 paper size; font: Times New Roman, font size: 12pt; Line spacing: 1.5; Margins: 2.5cm
2. Numbering of headings: In the main content of the article, major headings should be bold, left-aligned, and continuously numbered using Arabic numerals. Level 1 subheadings (e.g., 2.1) should be bold and italicized, and level 2 subheadings (e.g., 2.1.1) should be italicized but not bold.
3. Presentation of tables and figures: Data tables presented in the article should be uniformly labeled as "Table." Data tables should be formatted as a table in Microsoft Word. Graphs, charts, and diagrams presented in the article should be uniformly labeled as "Figure." Tables and figures in the article should be numbered separately and continuously using Arabic numerals, and the sequence number should be placed after the word "Table" or "Figure" (e.g., Table 1, Table 2, Figure 1, Figure 2). Each table/figure must have a corresponding name that accurately describes its contents. The sequence number and name of the table/figure should be placed at the top of the table/figure horizontally, in bold letters. Tables/figures in the article must be cited. The source should be placed at the bottom of the table/figure, with the presentation in italic but not bold. Notes should also be included to further explain the table/figure when necessary.
4. Citation and reference list formatting should follow APA standards (7th edition)
