

Support Learning with Snap&Read

Snap&Read is a universal learning tool for reading and study skills that is available to ALL WLCSD students. It reads both accessible and inaccessible text aloud, levels vocabulary, and translates. Additionally, this tool delivers usage data to teachers who then can more easily assess students' reading needs individually.

Install the Chrome extension from the web store at

<https://chrome.google.com/webstore>

Once installed, you can access it from the right side of your URL bar.

Move the slider bar to the right to turn it on. You'll be prompted to log onto it with your WL Google account and accept the user agreements. It will turn blue when it is active and ready to go.

Snap & Read Features

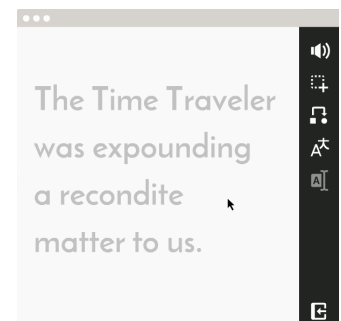

Read Aloud

Listen to text as it's read aloud across websites, PDFs, and Google Drive. It also reads in other languages.

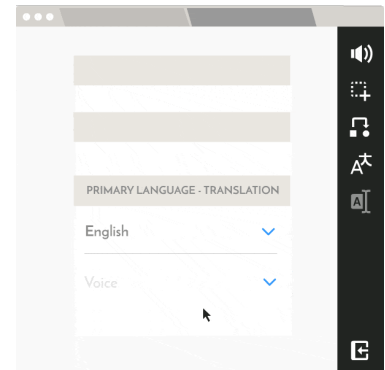

Dynamic Text Leveling

Dynamically adjust the readability of text without changing the meaning.

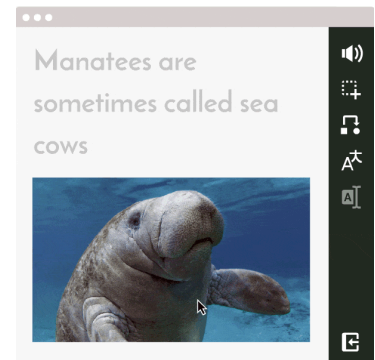

Translation

Translate text into 100+ languages on any webpage.

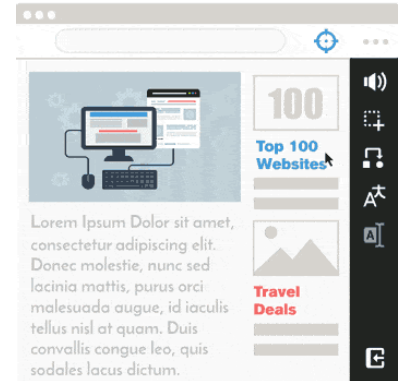

Study Tools

Pull text into an outline, then organize it and add notes.

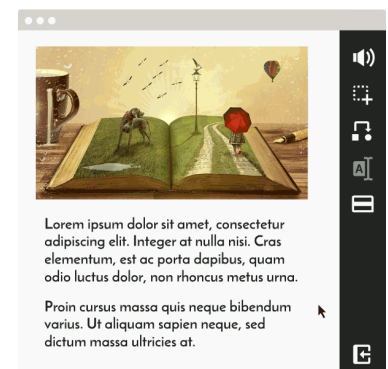

Remove Distractions

Snap&Read improves text readability with the Remove Distractions feature. A single click gets rid of distracting content and adjusts fonts, spacing and number of characters per line creating the best online reading experience possible. The Remove Distractions tool also reformats any webpage to read—distraction-free—alongside an open outline.

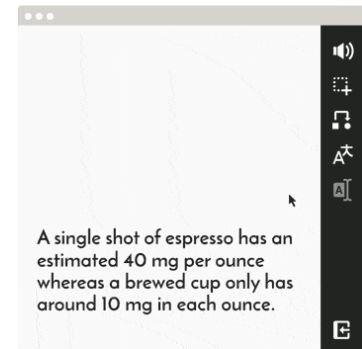

Color Overlay/Reading Line Guides

Snap&Read Color Overlay and Reading Line Guides brings focus to text paragraph-by-paragraph and even line-by-line—by masking the reading area.

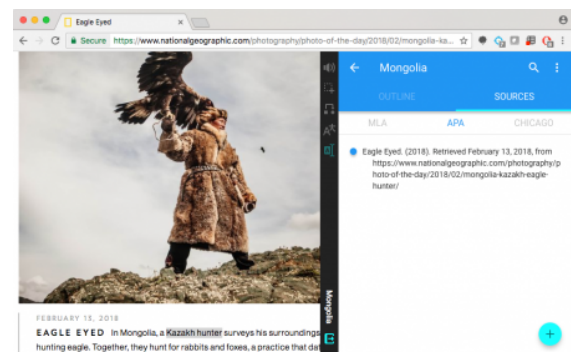

Picture Supported Dictionary

Clear definitions plus MULTIPLE icon representations enhance meaning. Use tools to better understand definitions—read aloud, Dynamically Text Leveling, and Translation.

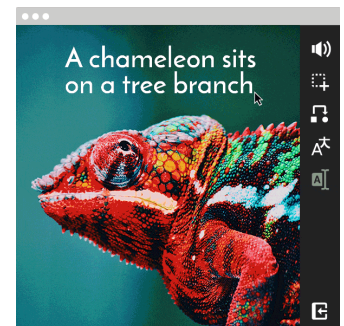

Bibliographer

Automatically cite sources on any webpages.

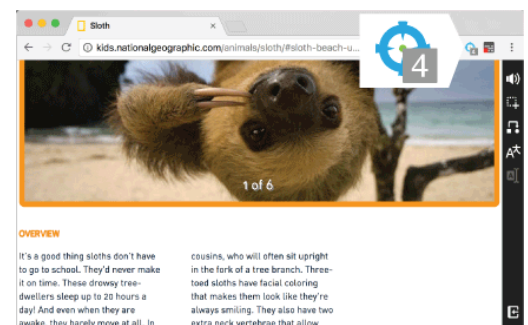

Screenshot Reader

Instantly get access to text embedded in images, inaccessible PDFs, and Flash through Optical Character Recognition (OCR).

Readability Analyzer

See the grade level equivalent of the text on any webpage.

Data Collection

Quickly see how much students are reading and the readability levels of the what they read.

days : hours : minutes

Text's Readability Level

Annotation

Highlight and add text to PDFs then save to Google Drive, One Drive, or download.

Snap&Read will also work using other devices. There is an iPad app and it also works with Kindle's Cloud Reader, Bookshare, and any PDF saved on Google Drive.
