

Psycho-Active Medication Advertisement

Think about medications that **Medical Doctors** and **Psychiatrists** prescribe for mental disorders.

Which doctors prescribe more psychoactive medications?

Prior-Knowledge

What medications can you list, that affect our behavior?

What are some of the common medications for depression/anxiety/tranquilizers?

(students brainstorm/list these types of medication)

Assignment:

Each kid finds a psycho-active medication...

Read about it

Find out how it works

Which neurotransmitters does it affect?

What behavior does it induce or reduce?

Create a document

Image

Short description of how it works. (focus on what neurotransmitter is targeted... and what behavior it affects)

Ok discuss.... Direct instruction neurotransmitter

Talk about the meds

Ask kids about meds...
