📋 Tasks Achieved? 📋

- Got the questions guide done, 53 questions, created, read, understood, edited and published

🏠 Twilight's Review 🏠

- I need to get stuck faster by moving faster, testing out new stuff faster launching new things faster, seeing what fails what wins, then when I'm stuck use my mind and TRW to blast through it
- I this guide is the only one that I haven't half-assed. It's 100% full-assed, because I'm actually trying to make it good and help my customers, not just launch it
- Main problem is that I didn't worked enough to max that out I will lower the amount I spent in TRW, the time I eat, and I'll just move with SPEED.

- Sleep is no better, hope it moves back to normal, will again try the breathing exercises

Time Distributed? You have 10 working hours

Who You Are Now vs Who You Want to Be ?

- Now:
 - Broke, little to no money in the bank, can't buy shit, can't help my family financially, looking flabby and weak, my parents think I'm wasting my time. I'm barely breaking even with my ads.
- Who You Want to Be:
 - Earning \$143,000 per month from my own business, driving my Surron Light Bee X I bought for \$6k, living in China, and flying to Dubai most days, with my true brothers on the side. Having moved my families nationality away from Bulgaria so that no war stops the bloodline Vasilevs or hurts my family. Driving a Porch GT3 RS on the long desert highway in Dubai with a hot bitch on the other seat and 3 more cars racing behind me. Making my parents happy and proud from the son they have, changing their beliefs about what's possible, and about how the world works.

Your Reason Why

- I need to succeed because I have a mission and a commitment to VASILEVS to conquer the world and become the most famous and wealthy person on the planet. The sole reason I'm breathing right now and VASILEVS blesses me with another day, is because I'm on this mission, from the moment I was sent

on this planet to this second, I first experienced the pain of mediocrity to understand how the world works, and I'm now on the second phase, which is delivering this mission to the end.
